

BANK OF HAMILTON

Capital Paid Up \$ 2,750,000
Reserve and Undivided Profits 3,250,000
Total Assets 40,000,000

Many a fortune can be traced back to the day its owner deposited the first dollar in a Savings Account.

The one dollar affords an incentive to deposit more—and, as interest is added to principal, the small sum grows more and more rapidly, until it finally becomes a competency.

One Dollar will start an account with the Bank of Hamilton.

The Canadian Government Annuities Act.

The object of this Act is to promote habits of thrift, and to provide all persons, male or female, domiciled in Canada with a safe and sure plan of making provision for old age at the lowest possible cost. Deposit from time to time in any Money Order Office such sums as you can spare, for which purpose the Postmaster will supply you with a pass book; or you may, if you prefer, remit these amounts direct to the Annuities Department, in any manner that may best suit your convenience. (If by cheque or Money Order, this should be drawn to the order of the Receiver General.) Upon your deposits 4 per cent. compound interest will be allowed, and at the age of 55 (which is the earliest age at which an Annuity can begin) or at any later age desired, and of course the longer deferred the larger will be your income, such Annuity as the total amount then at your credit will purchase will be paid to you in quarterly instalments so long as you live. A definite amount of Annuity may be secured if specific sums are regularly paid. Should you die before the Annuity is due, all payments made will be returned to your legal representatives with 3 per cent. compound interest; though the same payments will secure for you a larger Annuity if you do not wish to provide for this return.

If you have an amount at your credit in the Post Office Savings Bank, you may have this amount, or such portion of it as you may desire, transferred to the Annuities Department for, or on account of, the purchase of an Annuity.

The minimum Annuity which may be purchased is \$50, and the maximum \$600. The earliest age at which the purchase may be begun is 5, but it may begin at any age thereafter. To each purchaser a contract or policy is issued, and a provident feature of the System is that there are no penalties or forfeitures. If payments should for any reason cease, they may be renewed at any time; and if arrears are not made up the only effect will be that a similar Annuity will be secured.

A person over the age of 55 may buy an Immediate Annuity; and a Last Survivor Annuity, Immediate or Deferred, may be purchased by any two persons by a single payment.

By paying a little higher rate, all Annuities may be guaranteed for a number of years certain.

About 1,800 persons have availed themselves of the Act, and over \$890,000 have been paid into the fund. Every class of the community may be said to be purchasing. Twelve lecturers or agents are employed to present the features of the System to the public from the platform and otherwise; and an office staff of eighteen is already necessary to handle the work. You bear no share of this cost, but every cent you pay in is placed at your credit for the purchase of your Annuity.

If you desire any further information on the subject this will be supplied you by the Superintendent of Canadian Government Annuities, Ottawa, to whom all letters go free of postage. Literature may be obtained at the Post Office.

Spring Arithmetic.

It was the busy hour of four. When from a village hardware store Emerged a gentleman who bore:

- 1 hoe,
- 1 spade,
- 1 wheelbarrow.

From these our hero promptly went into a seed establishment

And for these things his money spent:

- 1 peck of bulbs,
- 1 job lot of shrubs,
- 1 quart of assorted seeds.

He has a garden under way And if he's fairly lucky, say, He'll have about the last of May

- 1 squash vine,
- 1 egg plant,
- 1 radish.

The Commons will start morning sessions in an effort to finish up business and prorogue in four weeks.

Crops and Live Stock.

Ottawa, April 13.—The Census and Statistics Office issues to-day a bulletin on crops and live stock.

The reports of correspondents show that out of a yield of 149,980,000 bushels wheat harvested last year 141,086,000 bushels or 94 per cent. were merchantable; and that at the end of March 33,042,000 bushels or 22 per cent. of the whole were yet in farmers' hands. The quantity held by farmers in the Maritime Provinces at that date was 468,000 bushels, in Quebec 477,000 bushels, in Ontario 5,902,000 bushels, and in Manitoba, Saskatchewan and Alberta 17,095,000 bushels. At the same date last year the quantity in hand in all Canada was 30,484,000 bushels or 18.28 per cent. of the total crop of 166,744,000 bushels, of which 159,968,000 bushels or 96.87 per cent was of merchantable quality.

Oats, which last year gave a yield of 329,449,000 bushels, was merchantable to the extent of 301,773,000 bushels or 93.29 per cent., and the quantity in hand at the end of March was 127,587,000 bushels or 39.44 per cent. In the Maritime Provinces there was in hand at that date 6,985,000 bushels, in Quebec 17,447,000 bushels, in Ontario 50,742,000 bushels, and in the Northwest Provinces exclusive of British Columbia 52,413,000 bushels. In the preceding year the quantity in hand out of a harvest of 353,466,000 bushels was 141,499,000 bushels or 40.03 per cent.; and there was a total of 321,190,000 bushels or 90.86 per cent. of merchantable oats.

The barley yield of 1910 was 45,147,000 bushels, and of this quantity there was in hand at the end of March 13,135,000 bushels or 29 per cent. The merchantable yield was 41,505,000 bushels or 91.93 per cent. The barley crop of 1909 was 55,398,000 bushels and the quantity on hand at the end of March last year was 16,517,000 bushels or 29.81 per cent. The merchantable quantity of that crop was 51,499,000 bushels or 92.87 per cent. Ontario's crop last year was 20,727,000 bushels, and that of the three Northwest provinces 21,377,000 bushels.

The merchantable yield of corn last year was 83.63 per cent. of the whole crop, of buckwheat 88.66 per cent., of potatoes 77.31, of turnips and other roots 86.81, and of hay and clover 88.72 per cent., which are nearly the same as the percentages of the same crops in the previous year. The quantities of these crops on hand at the end of March were nearly the same in both years except that the supply of potatoes this year is 20,000,000 bushels less and the supply of hay and clover 2,494,000 tons more.

The per cent condition of live stock on farms ranges close to the same figures for both years, but is a little higher for all classes this year. For the respective years 1911 and 1910 horses are 95.37 to 93.98, milk cows 93.29 to 91.42, other cattle 90.87 to 89.3, sheep 92.77 to 93.43, and swine 94.36 to 92.77. These proportions are closely maintained throughout all the provinces; they denote the condition of live stock as regards a healthy and thrifty state.

Now's Your Chance To Buy Shoes

We're cleaning out our winter stock of shoes—the stock we have left from fall and winter. They are not a lot of shoes bought for "clearing" purposes. The shoes are all good ones; in fact, we don't sell any other kind. Many of the famous McPherson "Anti Wet" shoes are included.

We want to begin the Spring season with brand new goods throughout; that's why we're selling cheaper now.
