### BLOOD DISEASES CURED

Drs. K. & K. Established 20 Years

NO NAMES USED WITH-  
 OUT WRITTEN CONSENT

He was surprised at how the nerves headed. "I took your New Nervous Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians taking all kinds of blood purifiers, mineral waters, and other remedies, but only got temporary relief. They would help me for a few days, but after discontinuing the medicine, the symptoms would break out afresh—burning sores, blotches, rheumatism, itching of the skin, swellings of the glands, pains of the hands, feet, etc. I had given up in despair when I was advised to consult you, as you had cured him of a similar disease 5 years ago and I became encouraged. I continued the New Nervous Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and have not had a return of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish. W. H. B.

WE CURE NERVOUS DEBILITY, VARICOSE VEINS, VITAL WEAKNESS, BLOOD, AND SECRET DISEASES, URINARY, BLADDER AND KIDNEY complaints of Men and Women.

NO NAMES USED WITHOUT WRITTEN CONSENT. Everything confidential. Complete list sent of Home Treatment FREE.

#### Opinions Differ on Reciprocity Proposals.

Millions Angry—Fish Interest Pleased—Reciprocity not expected—Confidence in Canada

(From our own Correspondent)  
 Montreal, Feb. 6.—The industrial and commercial world has had ample time to digest the reciprocity announcement, and it is much easier now to get a clear and concise view from those vitally interested in the way the affairs of the country are shaping, than it was directly after the proposed agreement had been made known. Much to the surprise of many, Montreal, the centre of manufacturing in the Dominion, is not as heavily hit as might have been expected.

The millions are angry, at least most of them are, and are preparing for battle. They declare that the proposed facilities for shipping Canadian wheat to American mills will have a detrimental effect on the milling industry which will result in substantial loss to the Dominion.

The fish trade is delighted with the prospect of the free handling of fish between this country and the United States which it is declared, will be a boom to consumers and fishermen alike.

The asbestos interests, who were as apprehensive as anybody because Canada turns out over 90% of the asbestos of the world, are breathing sighs of relief. Mr. Thomas McDougall, President of the Amalgamated Asbestos Corporation says: "I do not find any ground for complaint. The United States has never, and never will be able to compete with us in asbestos. Asbestos is of more than usual interest these days owing to the announcement that Amalgamated Asbestos has partially reorganized and appointed Mr. J. D. Sharpe, late mine manager of the Pittsburg Coal Company where he had charge of 32 mines in which over 7,500 men were employed, to the general management of the corporation. Since the asbestos merger was effected, it has been felt that the full saving in operating costs has not been attained, but plans are already under way whereby at least \$40,000 a year in administration expenses alone will be saved.

Although opinions differ amongst the lumbermen, the feeling seems to be that Canada is not giving away anything which will hurt her, although fear is expressed that Americans may build so many mills on this side of the border that overproduction will result.

Local manufacturers are not affected to any great extent, although Mr. George R. Deummond says that if the business on steel rods are withdrawn on account of reciprocity or on any other account, the results will be disastrous to the industry.

#### CONFIDENCE IN CANADA.

The confidence of Europe in Canada's growth, her natural resources, her developments and her activities in many spheres, is becoming stronger every day, and it is likely that this spring the influx of foreign money, of foreign investors and of foreign settlers to this country will surpass all records. Montreal capitalists are justly proud of this reputation, and are very anxious to have it kept absolutely spotless. To this end some well-known business men have put a plan into operation which, with the co-operation of the people, should prove of immense advantage to the country in continuing to obtain the capital required to finance, new industries and undertakings. Briefly it is to be a Statistical Bureau, operated by Corporation Agencies Limited, whose duty it will be to collect accurate statistics concerning all financial institutions. In this way a man who has money to invest, but who does not personally have the knowledge necessary to discriminate, may get all the expert information he requires before parting with his money. It is a safety valve on promoters and will keep Canada's name clean.

**BATTLES AGAINST ALCOHOL**  
 Early this spring two campaigns are to be commenced. One is to be against "the worldliness of Montreal" and the other is to be against the liquor trade. The first will extend to the city only. The second will start in Montreal, then branch out to the provinces and eventually cover the whole of Canada. In spite of an increased police force, in spite of a morality squad, in spite of the work of private individuals and societies, it is alleged that Montreal is becoming more immoral and less godly every day. The liquor crusade will be directed by the officers of the Dominion Alliance who, despite many setbacks, have been successful in closing up some of the resorts in the city.

**SHELDON AGAIN**  
 Sheldon is still a live issue. It will be remembered that Sheldon was the get-rich-quick gentleman who fleeced the public of a good round sum and then made his escape to parts unknown. Sir Lester Gouin, speaking in the Quebec House the other day, practically admitted that the authorities had been unable to locate him and that although the detectives had been sleuthing him for weeks at the cost of some \$3000 they had never brought in any results. A newspaper now makes the offer of a reward of \$1000 and all legitimate expenses to any newspaper reporter who will trace Sheldon and cause his capture for trial.

 About the first of February Sir Louis

# The Rooster Does The Crowing But Its The Hen That Lays The Egg

LONG and loud may be the crowing of the proud and pompous rooster, it goes in one ear and out of the other, but it is the cackling of the mother hen that causes the thrifty housewife to slip on her bonnet and gather up her apron to look for her precious hen fruit.

Now the question is: Did you ever notice any clothing advertisement that sounded like the crowing of the rooster perched upon the barn top full of fabulous statements, windy assertions, with the crow standing out all over the surface?

All our advertisements must ring true. Let the other fellow do the crowing. We want to talk to you in our advertisement just as we would to you over the counter, simply a "wireless" call telling you of the value we offer you from week to week.

You made this business grow, you have forced us to add 30 feet to the store's length inside of the past year.

In this full grown store we are running
