Men and Ministers Testity.

Chapman Tells of the Rebuke He Got

From Mr. Moody.

Toronto despatch: "Orillia Day" may

be said to have been the note of yester-

day's proceedings in connection with the

great religious campaign in the city of

Toronto. Orillia people, some of them

prominent in the civic, business and

religious life of the northern town,

attended in large numbers the afternoon

service, and took possession of the even

ing service in the Metropolitan Church.

The origin of "Orima Day" needs a lit-

ino years ago last October Dr. Wilbur Chapman, Mr. Charles Alexander, Mr. and Mrs. William Asher, and other

evangensts, visited Orillia and conducted

a series of big meetings the like of which

the town had never seen, and the story

of which is being continued here to-day.

The number of professed conversions was out of the ordinary even for a

Chapman-Alexander mission, and the

churches in the town received wonder-

SPECIAL TRAINS FROM ORILLIA.

yesterday morning by special trains and

numbered over 200—was not a nonde-script one may be gathered from the

fact that it was haeded by the Mayor, Mr. Frost, the Police Magistrate, Mr. G.

H. Clarke, Rev. Mr. McGregor, of the

Presbyterian Church, and other repre-

sentative churchmen. Dr. Chapman at

the opening of the meeting welcomed the visitors, and referred to the large

ducing permanent effects. The evangel-

ist then asked the leading men of the

deputation to give their views on this

the sight of God as a result of the cam-

blessin_

paign. He quoted Canon Green, leader

ings in Orillia the skating rinks and the

Opera House were put out of business.

added over 200 to its membership, and

the other churches also greatly benefited.

he described as "the most progressive

and most beautiful town in Canada,"

and said a mighty work was done under

God two years back, and the good work

started then was still going on. His

own church, the Presbyterian, had not

only increased its membership and dou-

hed its contribution to mission funds,

but it had raised \$40,000 for a new Sab-

bath school. Fired by that example,

both the Methodists and the Baptists

DR. CHAPMAN SPEAKS.

Dr. Chapman anounced that his mes-

sage that night would be his last word

in the foundation work of the campaign.

Instead of one text last evening he had

turee, all of them from the Gospels:

"And she, supposing Him to be the gar-

dener." "And they, supposing Him to be in the company." and "Supposing they

word, of course, was "supposing." In

the three instances quoted, he said, the

various people-Mary Magdalene, the parents of Jesus, and Jesus' enemies-

Dr. Chapman then had a little per-

sonal confession to make. "At the be-

ginning of my ministry," he said, "I was

preaching in a church very similar to

thie. I was congratulating myself that I

was doing very well, and also that there

did not seem to be any poor people in

the church. None of us seemed to be

very much concerned about the poor

people. But there was a man sitting up

in the gallery and after I had finished

preaching he came up to me and said: 'I

want to speak to you very frankly. You

preaching. You preach as if you didn't

want to see people saved, and they won!

he saved if you preach like that. I tell you what I'd do if I were you: I'd

preach Jesus." I have," said Dr. Chap-

man, "thanked God ever since for that

resented it at the time, when I get to

Heaven I shall thank him personally.

Mr. and Mrs. William Asher's noon

hour meeting yesterday was at Chris-

contrast to that of the previous day

present 'the same earnest note, good' singing, and popular preaching. Three hundred or more of the work people at-

white freeks and sprons, and biscuit hoxes and dough mixing tables served

the purpose of chairs. The evengelists were assisted by Miss McKinnon, Mrs.

Christian Guild, and Mr. A. MacLaren

MUST PAY MORE. NEWS OF THE

Cominion Licenses to Cost Same as Incorporations Under Ontario Act.

Toronto, Jan. 18 .- Companies charter-By Chapman and Alexander Among ed by the Dominion Government and seeking Provincial licenses will in the lature have to pay the same amount that companies are charged for incorperation under the Ontario companies Mayer, Police Magistrate, Business

An order in Council has been passed to this effect amending the act respecting the licensing of extra Provincial corporations. Hitherto companies incorporated under the Dominion act were licensed to do business in Ontario by paying \$25, where the corporation's expital was \$100,000 or less, and \$50 if it exceeded \$100,000. The fees for incorporation under the Ontario companies act were somewhat larger.

The new fees charged for licenses to Dominion companies will be calculated upon the amount of capital the company authorized to use in the Province.

Men With Horses and Automobiles to Watch Hydro Wires.

Barns Will be Built Every Twenty Miles-Tampering With Wires.

London, Jan. 18 .- "Preparations are all but completed for the arrangement of the patrol and the care of the Hydro-Electric power line from here to Niagara Falls. It is the intention of the Commission to erect, as soon as possible, a horse bern and garage at the Hamilton road sub-station. Barns will also be placed twenty miles spart from here to Hamilton, and there will be a garage with a big horsepower automobile at every fifty

"In the local barn there will be results of the campaign in Orillia as a complete answer to those people who four horses, one to work from here to criticise revivalist missions as not pro-St. Mary's, another to St. Thomas, another on the main line east, and a truck horse. The horses will work ten miles each way out of the barns, and the automobiles twenty-five miles Mr. McGregor said they had had a each way. The latter will be used only new vision of their responsibilities in for night and hurry calls.

"There will be two men on each patrol, and they will spend the night of the Anglican Church in Orillia and at watch stations erected at ten-mile points, to be on hand for any emergency. president of the campaign committee, as saying that there never had been seen There will be a telephone in these in the town such evidences of God's houses, and cooking apparatus, beds and

other equipment."

A determined effort to secure the ing business men of the town, said that arrest and punishment of persons Electric system is being made by the Commission, and to that end a reward of five hundred dollars has been offered said the spiritual life of Orillia was as for information leading to the conviction different after the campaign as night was from day. The Methodist Church of offenders.

According to Hon. Adam Beck. number of attempts have been made recently to short-circuit wires of the system. London has not found the service altogether satisfactory, and according to the chairman, the re-lapse into darkness of the city on Thursday last was due to a wire being thrown across the power lines. Hon. Mr. Beck places some of the responsibility for the trouble with the lines to the account of mischievous persons in the country who derive amusement out of the electrical display made when the wires are short-circuited.

"If we catch any of them," said the chairman, "we will make them sorry." In referring further to the complaint of London citizens regarding the uncertain power service. Hon. Mr. Beck stated that henceforth the city would have the benefit of a double service. The western section from Stratford to London, completing the loop, would be finished sometime during the day and in the event of any arouble on the first line the power could be

sent around by way of Stratford. "The people must not get impatient and expect too much," added Mr. Beck "We rushed the power to London perhaps earlier than we should have, and it will take us a little while to make adjustments and get everything running

GEO. H. MUNROE.

Former Toronto Promoter Appears in Court at New York City.

New York, Jan. 16.-Two more indictments have been found by the federal grand jury against George H. Munroe, of the stock brokerage firm of Munroe & Munroe for using the mails in a scheme to defraud investors in fake Marconi Wireless" stock. Munroe was arrested and indicted last full and was released on \$2,000 bail. On the new indictments Judge Hand, in the U. S. Circuit Court, increased the bail to-day to

\$4,000, which was furnished. The new indictments to which Munroe has pleaded not guilty, charge him with sending communications through the mails between January and June, 1907, to various persone to induce them to purchase stock of the Marconi Wireless Telegraph Company, Limited, of London, and the Marconi Wireless Company, Limited, of Canada.

THE CORONATION PLANS LARKETS HU

Include Mayal and Military Review and Reception to Colonials.

London, Jan. 12. The executive com mittee having in charge the plans in connection with the coronation of King George met to-day and completed ten tative arrangements, which will, if any-thing, be on a more extensive scale than at the time of King Edward's corona-

The route of the procession to West-minster Abbey on June 22 will be the same as on the last occasion, and the Royal progress through the capital after the ceremony, which was omitted in King Edward's time owing to the King's delicate health, will occur on June 23. Still another Royal procession to the Guildhall for the corporation entertainment has been arranged for a subsequent day.

The coronation festivities will extend

from June 19 to June 30, and will include a naval review at Spithead; at which the King will be present, probably a military review and a Royal reception in honor of the colonial and foreign en-

THE MIDDLEMAN

mental Union at Guelph.

Co-operation Can Do Much For the Farming Interest.

Guelph despatch: "There is far too wide a margin between the cost to the ultimate consumer and the price received by the producer. There is far too large an army employed in distributing the products of labor, and they demand far too large a share of those products for themselves." Thus did Mr. G. B. Mc-Calla, of St. Catharines set forth the agricultural situation in Canada this morning in the closing paper of the Ontario Agricultural and Experimental Union's convention. The subject of Mr. McCalla's paper was "Helpful Suggestions in Farm Practice," which advised more attention to the business side of the farming profession.

"The various educational along agricultural lines have for yearsbeen instructing the farmers of this Province in the art of making two blades of grass grow where but grew before. That is a great good work, but to my mind the has come when more attention in the past should be given to the buswho was injured in a collision near St.

Hyacinthe in December and who was being treated at the Montreal General

Hyacinthe in December and who was being treated at the Montreal General ter how much any man may love farming for its sake, his feelings will be still man stronger if he is getting an adequate fin-ancial return from his labors," was Mr. McCalla's opening assertion.

"That the farmers are not indifferent to or satisfied with existing conditions was strikingly shown by the large and representative delegation that recently waited on the Dominion Government. That dissatisfaction is not confined to the rural population is shown by the univarsal complaint from the ci-ties of the high cost of living. I have no ready-made remedy to offer, and it would be worthless if I had, for the economie and social life of any people is changed, not by revolution or act of Parliament, but by the gradual education of the whole nation to see the defects of its present system, and so ready to accept something better.

"An army of middlemen increases the price of goods the farmer has to buy, and when to this is added the extra tribute the protected manufacturers are able by the tariff to exact, it is not to be wondered at that conditions are so unsatisfactory as to be depopulating rural Ontario," declared Mr. McCalla. "Over- capitalization of the great industrial and perance people of that ancient town are transportation companies is another great drawback to general prosper-ity, said the speaker. "It is by this means, aided by an unjust tariff, that a few men have been able to get control of wealth beyond the imagination of even a quarter of a century ago, and to which they have no moral right. This condition is particularly seen in the United States, but has already developed and will continue to prevail in this country unless steps

are taken to control it." In conclusion it was shown that cooperation, where carried on, was alleviating these conditions to some extent, but much remained to be done. Whatever means of redress were used there must be united action, for that section of the people who stood to gain by a continuation of these conditions would not give up their priv-

fleges without a struggle. A paper outlining the work of the Canadian Seed-growers' Association.
by T. G. Raynor of the Department of Agriculture, Ottawa, was read, in the absence of Mr. Raynor.

An instructive chart demonstration of the results of co-operative experiments with potatoes, sweet corn, field roots, grasses, clovers and alfalfa was given by Prof. C. A. Zavitz.

Creelman, O.A.C., Guelph; R. L. Wooshouse, Cairo, Ont.: J. H.

DAIRY PRODUCTS

The Home Consumption is Steadily Increasing, Says Mr. Ruddick.

Buying Direct From Factory By Consumers Should be Encouraged.

Figures Presented to the Western Dairymen's Convention.

Stratford despatch: Some very encour

aging facts were laid before the Western Dairymen's Convention by Mr. J. C. Ruddick. Dairy Commissioner, in regard to the outlook for the industry. For the fiscal year ending with March next our dairy exports are estimated at only \$25,250,000, as compared with \$31,667,561 in 1903. Meantime, however, the hume consumption is believed to have increased by \$25,000,000, so that the production Mr. McCalla's Address to Experi- for the year about ending will really be \$8,582.439 greater than in 1903. For the year ending with March next the production seems to have increased more rapidly than in the year immediately preceding, because while the home consumption is still growing our exports of dairy products for the current fiscal year will be \$2,000,000 ahead of those of 1910. For the expansion that has taken place in the year near closing the partial opening of the American market to our dairy

products is largely responsible. In the month of August, 1909, as esult of the reduction of the United States duty on cream from five cents per pound to five cents per gallon, we exported 1,650 gallons of cream to the American market. In November of the same year this increased to 70,000 galone. For October last the amount was 327,064 gallons. It is believed that the value of our exports of dairy products to the United States for the year end ing March next will be \$3,000,000, as against less than a quarter of a million the year before, and practically nothing prior to the change in the American duty. The total value of the milk production of Canada was placed at \$100, 000,000 and it was said that an addi tion of 500 lbs. of milk per cow to the average production, something easily possible, would add \$10,000,000 to this.

The prediction was made that much more than this will be done; that in a few years a larger proportion of the two million odd cows in the Dominion will he made to increase their milk flow by fifty per cent. Even with this increase, Mr. Ruddick contended, there need be no fear of over-production. If the protion remains stationary, the home market, if the expansion continues at the present rate, will absorb the entire output of the dairy industry ten years hence. In addition to this, there is the American market. Although the United States is the largest producer in dairy lines in the world, that country imported nearly \$7,000,000 worth of butter and cheese in the calendar year a 1900, and

will import larger quantities in future. Mr. Ruddick introduced a series of proposed amendments to the inspection and sale act. These included provision for the branding of whey butter; for the branding of "milled butter," that is, butter composed of a mixture of cream ery and dairy, or different lots of dairy; to prohibit adulteration of milk supplied to a skimming station, shipping station, or casein factory, as this is now prohibited in the ease of milk sent to a cheese factory; to prohibit the use of preservatives in milk sent to a cheese factory. On motion of Messrs. J. J. Parsons, seconded by Frank Herns, the amendments were approved by the as-

sociation. Mr. George H. Barr declared that cream intended for creameries cannot he kept in the average farm cellar, even for 36 hours, and be delivered in a sweet condition. Still, 90 per cent. of the cream for factories is so kept, and the quality of the butter suffers accordngly. For delivery every other day an insulated tank will serve. Where delivery is twice a week an ice supply is essential.

Mr. G. A. Putman urged the cultivation of the home trade in cheese, and as a measure to this end the adoption of some method of bringing the consumer and producer nearer together. While ordinary city consumers pay eighteen cents for cheese in a retail way, a few buy direct from the factory at less than twelve cents. More should be induced to do the same.

Mr. J. A. Ruddiek bought the standard cheese in the exhibition at twelve cents for exhibition in London. The sweepstakes cheese was bought by him by W. J. McCuily, to be sent to Winnipeg. The Stiltons sold at thirteen cents. The creamery prints brought 28 cents, and the solids 24 1-4 cents.

Mr. Alex. Mckay gave results of experiments in cheese making at the Ontario Agricultural College. One experiment showed that milk received in a normal condition made nearly 21/2 lbs. more cheese per 1,000 lbs. of milk than overripe milk. Another showed the comparative results from milk contain ing 3.86 per cent. fat and 2.65 casein, and milk having 3.52 per cent. fat and 2.44 casin. The higr testing milk made 4.64 lbs, more cheese per 1,000" lbs. of milk than the low testing lot.

The same lesson was emphasized by Prof. Harcourt in giving the results of other experiments. These showed a loss of a quarter of a pound of cheese per 100 lbs. of milk as a result of the latter being overripe.

WYCLIFFE GETS A LEGACY. Toronto despatch: Wycliffe College has had \$20,000 left to it by Henry John-

TROOPS MUTINY.

Portuguese Soldiers Want More Pay

Paris Jan. 16 .- A news agency despatch from Madrid says that a traveller arriving there from Badajos, five miles from the Portuguese frontier, declares that the soldiers in the fortress at Elvas, Portugal, have muticied, demanding increased pay. The Elvas working men have struck in sympathy.

TRAFFIC PARALYZED.

Lisbon, Jan. 16. Railroad communication throughout the Republic is practi-cally paralyzed as a result of the strike

Portugal is cut off by land from the rest of Europe. To-day the strikers refused to permit the southern express to leave the capital. Mail from abroad is reaching here by steamer.

The strikers have rejected an offer of 25 per cent. increase in their wages

Pleaded Guilty to Three Charges Against Him in Police Court.

Made False Returns, Altered Entry and Took \$40,000.

Toronto, Ont., despatch: The prosecution of W. R. Travers took a surprising turn to-day in the police court when the manager suddenly pleaded guilty to three charges brought against him before any evidence had been heard. Travers, with Dewart, K. C., as his counsel. stood up before Magistrate Denison when his name was called. Three charges were made against him by Crown Attorney Corley. First, that of making false returns to the Government, on the condition of the Farmers Bank; second, altering an entry in the bank books concerning an advance to the Keeley

mine; third, the theft of \$40,00. With

startling swiftness the ex-manager plead-

ed guilty to the three charges. After Travers had pleaded the Crown Attorney undertook to show the ground of the charges made. A book was produced showing an entry of \$50,000 advanced to the Keeley mine. Examina tion showed that this had been changed from an original entry, the figures of which could not be fixed. It was also shown that on a one-fith interest in the mine which the bank held with \$500,000, a total of \$621,000 cash had been advanced, and that of this Travers had taken \$35 000 to himself. Minute books for additional entries after the signature of the manager had been affixed. An entry of this kind was shown. Travers was remanded for sentence till January 16. No bail was accepted.

FOUND VOICE.

Kent Girl Had Lost it From the Result of a Previous Accident.

Chatham. Ont., Jan. 16 .- Miss Anna Parsons, of McKay's Corners, who is attending school at Ridgetown, fell at the skating rink a couple of weeks ago, and was rendered unconscious. She remained in that condition for some time, and afterwards suffered from convulsions. When she recovered from her injuries it was found that she had lost

her voice. Yesterday, while walking to a neighbor's house she slipped and fell again. The shock of the second fall caused her voice to return, and she is now fully recovered from her temporary affliction.

FOR \$6,000,000.

James A. Patten Sued by Man He Never Harmed.

Chicago, Jan. 16 .- James A. Patten. the retired millionaire grain broker, was sued for \$6,000,000 in the superior court

The plaintiff, Dr. Paul Burmaster, president of the Chicago Anti-Gambling League, was not a participant or a loser in any organizations with Mr. Patten, but brings suit under a statute whereby any person having knowledge of a gambling transaction may sue and recover to the amount of three times the total lost by the victims of gamb-

THE SUN LIFE

Purchases the Business of the Victoria Life Assurance Company.

Montreaf, Jan. 16.-The Royal Vietoria Life Assurance Company. ganized in Montreal some years ago, is now part and parcel of the Sun Life Company of Canada. The agreement entered into recently by the directors of the first concern has been ratified at a meeting of the shareholders. The deal whereby the Sun Life absorbs the younger corporation involves the chall payment of \$10,000 by the Sun Company, and the assets and good will of the Royal Victoria are turned over to the Sun. The Royal Victorin had an anthorized capital of \$1,-
