The Western Fair

The management of the Western Fair, London, Ontario, have this year made a number of changes regarding their Attractions and Midway performance. They have entered into a contract with a reliable New York firm to fill up the entire Midway with good clean moral shows of different kinds, and the public may rest assured of plenty of entertainment and amusement when visiting the Exhibition. The Attractions in front of the Grand Stand will be of a high order and well worth travelling miles to see. There will be a number of military manoeuvres and the local Firemen will give a splendid exhibition of their work daily. Several bands have already been engaged, and a military tattoo will be held each evening. Fireworks of the highest order will be on the programme every night including a sample of "Modern Warfare" and a collision between a Street Car and an Automobile. The Speed programme this year is the best ever offered by the Exhibition. The dates are September 8th to 16th. All information given on application to the Secretary, A. M. Hunt, London, Ont.

New Laws For Motors.

The new laws concerning the driving of motor vehicles include some clauses which make for the protection of the public, and will be generally appreciated. One is that speed on highways or streets must be regulated by circumstances; such as the condition of traffic, state of road, etc., and no one may drive recklessly or negligently when by so doing the public is endangered. Again no person under the age of 17 years shall drive a motor in a public street or highway. No one without a license is allowed to drive a car for hire, or as a paid chauffeur, and no one shall engage a driver unless he has a license. These are the particular new clauses, which go into force immediately.

Canadian Home Journal

Outside of our own lives and those of our friends and neighbors, we know best the people of fiction. Few of us know the inside life of a department store, a very city of itself, and seldom have such an opportunity as is given in "The House of Windows" now appearing in a serial form in the Journal. Another serial, "A Honey-moon in Hiding," tells of the adventures of a newly married couple who discovered that their honeymoon money had been stolen. "The Old Boy's Reunions" are peculiar to Canada, and "Mrs. Jim's Holiday" will be appreciated here in Canada as well as elsewhere. There are other excellent short stories. Is camping gradually dying out in Canada with so many attractive camping places, many more people each year should spend their vacation time in this way. We heartily endorse the enthusiasm on the author of these camping articles "In the Far North" and "Women as Campers," and that they have practical suggestions to make camp life more enjoyable, adds to their value. Except perhaps for the travel weary drummer, is there anyone who does not enjoy a meal on a dining car? But few of us every stop to think of the perfect management, the care of every detail, that makes it possible to give service equal to that of the best hotels, with your butcher baker and dairyman many hundreds of miles apart. The seasoned housekeeper especially should enjoy this glimpse of "kitchen" of a dining car service. "Household Decoration" has proved a most delightful feature to readers of the Journal. It shows the unusual versatility of Miss Burke, who has proved herself an authority on decoration of all kinds. The advice has been as practical as artistic. This month she writes of the arrangement of flowers, choice of color, and selection of proper vases. The single column on the choice of the framing and hanging of pictures is worth the price of the magazine to anyone who really desires to have some knowledge of this most important subject. The new attractively illustrated "table decoration" department is a worthy addition to the Journal, and also the illustrating of the menus.
