JARVIS, ONT., JULY 12, 1911

Aid to Thoroughbred State lions.

During recent years many appeals have been made to the Honorabl Sydney Fisher, Minister of Agricul ture, by horsemen anxious to brin about an improvement in the qua ity of light horse stock and who are of opinion that for this purpose an infusion of Thoroughbred blood in essential. Recognizing the force of these appeals as well as the importance of the subject, Mr. Fisher has decided to grant assistance under certain specified conditions to persons maintaining Thoroughbred stallions for service in the various

In deciding upon this step the Minister has largely influenced by the fact that while stallions of other recognized breeds, when in capable hands, are as a rule fairly profitable. this is seldom the case with regard to the Thoroughbred, the advantage of breeding to horses of this class being unfortunately not fully realized by the present generation of Canadian farmers.

The lack in our light horses of the quality derivable only from the mfusion of Thoroughbred blood is the subject of adverse comment by all European horsemen who visit the Dominion with a view to investigating its possibilities as a field for the purchase of horses whether for military purposes or for ordin-ary saddle or harness use. In this connection it should be remembernamed, or in fact, for any of these purposes, may well be bred from sires other than Thoroughbred. it is of importance that on the side of the dam there should, in order to produce the best results, in such cases, a strong admixture of Thoroughbred blood.

The conditions under which assistance will be given are as fol-

(1) All horses on account of which aid is given by the Department must be registered in the Thoroughbred Stud Book of the Canadian National Live Stock Rec-

(2) Horses shall be of good size, quality and conformation and shall be free from all hereditary unsoundness; these conditions to be ensured by submission annually to a at the hands of the Veterinary Director General or such other members of the veterinary staff of the Department, or other persons as the Minister may from time to time Men's 50c finest, fancy Silk Lisle Hose, in all sizes 10, 10½ appoint for this purpose,

(3) Horses so approved shall be duly and properly advertised to stand for service of mares, under usual in the districts in which they are to be kept, at an annual service fee (except in the case of Thorough bred mares) of not more than \$10 to insure, such service fee to become due and payable only when mares prove to be in foal.

Any person, firm or corporation owning or controlling any Thoroughbred stallion in regard to which all of the conditions above set forth shall have duly and properly fulfilled, shall, on production of satisfactory evidence thereof and of the fact that a reasonable number of mares, other than Thorough bred mares, have been served during the season, be entitled to receive at the close of each such sea son the sum of \$250.00 from the hunds of the Live Stock Branch If, in the event of a horse dying or becoming incapacitated for service during the season, an approved substitute is immediately placed in the same district, the Minister may, after due consideration of the circumstances, authorize the payment of the subsidy above mentioned.

The necessary forms will be furnished on application of the Veterinary Director General and Live Stock Commissioner, Department of Agriculture, Ottawa.
