

PRESBYTERIANS ARE PROSPEROUS

Rich in Material Things But Poor in Spiritual Things.

Presentations of Reports From Colleges—Men Are Scarce.

Proceedings of the Presbyterian Assembly at Ottawa.

Ottawa despatch.—The old Scotland of our forefathers is no more. A new Scotland has arisen—a Scotland shorn of so much of its spiritual power and Divine energy. And what has happened to the home of our forefathers is happening to the home of their children.

Strong, strong words spoke to the highest court of the Anid Kirk in Canada, listened to by a great body of silent, sympathetic men.

Rev. Dr. Dickson, Galt, proceeded, and now his tones rang: "Is there hope for Scotland? Just the same hope as there is for Canada. Let us get away from the gnawing cancer of worldliness and materialism and tie up again to the Lord. You ministers on the Lord's Day, you parents in the home, do you always have the whitened fields before you? Do you always remember to ask God to thrust men out into the harvest?"

It was a profoundly impressive scene at the sitting of the General Assembly this afternoon. The statistical report of Rev. Dr. Somerville had demonstrated that never before in its long history had the Presbyterian Church reached the financial status attained during the past year. All along the line there had been material progress. Salaries had increased by \$44,986, the value of Church property had bounded by over two millions, \$69,475 had been the advance in gifts to missions, the total given for all purposes had increased nearly half a million, reaching a total of \$4,506,684, an increase of over ten per cent. within the year. And yet the Clerk of the Assembly added frankly: "We have to report that the energy and strength of the Church has been expended in the line of increases given, rather than in the line of increase on the spiritual side."

Rev. Dr. Somerville, in connection with his report, pointed out that in the West, great difficulty was encountered in securing accurate figures. There were so many changes, both in ministers, missionaries and congregations that reports could not be obtained from a great number of them. There should, however, be more attention to this. The General Assembly was entitled to know these statistics, and in cases where it was making grants no minister or five or twenty families were being served. Any missionary who failed to make this report should be called upon to explain it, and was very unfair to the church, for with these large numbers of members unreported, it makes the membership of the entire church much smaller than it really is.

There was considerable discussion over the immigration as it affected the statistics and Rev. Dr. Love, of Quebec, maintained that there must be a very considerable shortage in the total numbers. He assisted in receiving immigrants on their arrival in Quebec and he estimated two ships he met last week. On one there were 1,350 immigrants, of which about 1,075 were Presbyterians. On the other there were 1,400 or 1,500, of which 1,280 were Presbyterians. "This has been going on all spring," he said, "and indicates how many are coming to Canada."

He argued that there was something wrong with the system that such a number of these which came in last year had not been reported to the church. They were given cards to give to the minister in the place to which they were going and the minister was notified to look out for them. However, there was something wrong that so many of them had not yet come to the church.

Rev. Dr. Somerville was of the opinion that too much emphasis was being laid on the financial side in proportion to the amount of energy used in the spiritual side.

The death of young men studying for the Presbyterian ministry, and the needs and opportunities of the west, were the burden of the discussion arising out of the reports from the various colleges. In presenting the report of the Halifax College, Rev. Dr. John McMillan said the colleges were the backbone of the church, as without them it would be impossible to get home and foreign missionaries or ministers for the regular churches. In the Maritime Provinces Presbyteries alone there are now 36 vacancies, showing how inadequate is the number of men who have entered the ministry.

Prof. J. W. Falconer, who seconded the adoption of the report, spoke of the studies and the high standard that was maintained. There were men who desired to go into the ministry who were handicapped owing to insufficient education in the primary courses, but these special cases should not be allowed to prejudice the normal students. We to the day when the Presbyterian Church lowered the academic standard required of her ministers.

The expenditure for the year was \$1,638,96 more than the receipts. A year ago the college fund was in debt \$2,177.67. On March 1st of this year it was \$4,816.63. The debt has, indeed, been increasing from year to year by an average amount of about \$1,600 per annum.

Dr. A. T. Love, of Quebec, presented the report of the McGill College, which had been closed as a college for several years, but which has property worth \$100,000, and an endowment of \$100,000. Its funds are now being used for higher education in Quebec, but the board of governors proposes to set a sum apart for scholarships for young men who are trying to enter the Presbyterian ministry. Rev. Dr. Robert Campbell, of Montreal, and Rev. W. A. Martin, of Quebec, were appointed representatives

of the assembly on the board of governors. Principal Springer, of the Montreal College, reported that out of 80 students enrolled, 25 were in theology. The college had made a special effort to get students for the ministry, and had been successful. The ordinary revenue for the year has a little more than covered the expenditure; but there is an accumulated deficit from the two preceding years of \$2,225.92, and with the completion of the staff about \$3,000 of additional revenue will be required annually for the future. The congregational contributions have this year amounted to \$2,536.94, an increase of \$241.43 over the previous year. It is hoped that the revenue from this source may be increased still further in future years. The sum of \$7,326.49 had been added to the Endowment Fund, and the efforts to increase this fund are still being continued among the friends of the institution.

That something like an adequate salary for ministers must be provided if good men are to be secured was the outspoken statement of Principal A. Patrick, who presented the report of the Manitoba College, Winnipeg. There was a great need for men in the ministry, the highest of all vocations. But to get the best men the Church had to provide what it was not accustomed to do, something like an adequate stipend for ministers. The intellectual standard of the ministry should be maintained and raised, but what was just as much needed was the spiritual inspiration and personal devotion.

Rev. Dr. W. T. Henridge, Ottawa, in moving the adoption of the report, referred to the fact that of the students in Manitoba College, very few came from the west. Was the reason that the west was more materialistic than the east? The financial statement shows that when the books were closed at the end of the financial year, on the 31st of March, there was a deficit in the ordinary fund amounting to \$1,940. This adverse increase was due to the considerable increase in the expense mentioned in the last report to the assembly.

That the propaganda of the last few years was bearing fruit in an increased number of students entering for the ministry, was the statement of Principal A. Gandier, in presenting the report of Knox College, Toronto. There is a small surplus from last year. This, however, must be applied to the reduction of the large deficit which has been the result of shortages in former years, amounting to \$11,220. The endowment fund now amounts to \$18,641.27, and the revenue produced by it for the past year has been \$13,360.

The smallest number of graduates in theology ever recorded in Queen's University was reported by Principal Gordon. There had been five, but the graduating class dwindled down to three. The financial statement showed an accumulative deficit of \$11,609.67.

PLAN OF CO-OPERATION. Perhaps the most important event of the home mission year was the preparation by a committee representing the Presbyterian, Methodist and Congregational Churches of a plan of co-operation, which, if loyally carried out, will put a stop to the unnecessary duplication of mission effort and the appearance of unseemly rivalry in religious work by the churches concerned.

Two Deaconesses were appointed during the year, one at Prince Rupert and the other in Winnipeg. Their work justified their appointment. Last year the Assembly decided that the principle of Synodical instead of Presbyterial representation on the Home Mission Committee should be made applicable to the three eastern Synods.

AUXILIARIES ORGANIZED. One hundred and twenty-five new auxiliaries and mission bands were organized by the Women's Home Missionary Society during the past year, and the total number of auxiliaries and bands is now 540. The year's income was \$30,784, an advance upon the previous year of \$7,152, and the estimated expenditure for the current year is \$40,468. Besides continuing to support eight mission fields at a cost of \$2,000, this society made a special contribution of \$400 to a field in Algeria to assist the people in the erection of a church.

The churches of Great Britain and Ireland, recognizing the large increase in the financial burdens of the church that is necessitated by the efforts to provide the ordinances of religion for those who have emigrated to Canada, are still extending assistance that is very gratefully appreciated. The contributions received from the British churches during the year amounted to \$5,274. Special mention has always to be made in the home mission report of the magnificent contributions of the American Presbyterian Church in the City of Montreal. Although ecclesiastically identified with the Presbyterian Church in the United States, the generous-hearted members of this congregation have for years been enthusiastically loyal in their support of Canadian home missions. Their contributions for the past year amounted to \$5,250.

Knox College Missionary Society is again taking charge of forty fields; seven are being supported by Queen's Missionary Association and seven by the Montreal College Missionary Society. The number supported by the Manitoba College Society has not yet been reported. The work that these societies are accomplishing is equivalent to a contribution to the home mission fund of nine or ten thousand dollars per annum.

SHOT HIMSELF.

Cobalt, Ont., despatch.—Peter Laird, a carpenter, aged 59 years, shot himself through the heart with a shotgun last night in his own shop in New Liskeard. Death was instantaneous. Laird had been despondent for some time, which is the only reason assigned for his rash act. The deceased had lived in New Liskeard for the past five years. He leaves a widow, but no children.

FATHER TEEFY DYING.

Toronto despatch.—Rev. Father Teefy, who has been seriously ill for some days past at St. Michael's Hospital, is at the point of death, and all hopes for his recovery have been abandoned. At an early hour this morning it was reported that it was only a matter of hours.

NEWS OF THE DAY IN BRIEF

Canadian Lumbermen Buy White Pine Tract in Michigan.

Drayton Man Appointed High Constable of Wellington County.

Boy Falls and Breaks His Neck in Foundry Yard.

The electrical workers in Toronto threaten to strike.

The Toronto school children will not receive extra holidays on account of the Coronation.

Hon. Dr. Pyne and Hon. Col. Matheson assisted in laying the foundation stone of the new Collegiate Institute, Smith's Falls.

George C. Green, of Drayton, has been appointed High Constable of Wellington county, in place of Major Mercetwater, resigned.

The German imports in 1910 increased \$112,500,000 and the exports increased \$196,250,000 as compared with the figures for 1909.

Signor Marra, an Italian aviator, while flying in an aeroplane at the Aerodrome, Rome, fell from a height of 300 feet and was instantly killed.

Madison Square Garden, New York, was sold to a syndicate, which will tear down the structure and erect a twenty-five-story office building.

Fire in the college residence of the Acadia University at Wolfville, N. S., caused damage of several thousand dollars. The damage is covered by insurance.

Mrs. Gertrude Johnson, wife of Harry L. Johnson, contractor, of Davisville, died suddenly from heart failure at the home of her sister, 42 Davenport road, Toronto.

The Canadian cruiser Niobe was to have left Quebec for Prince Edward Island, but it is detained there for some unknown cause. While at Quebec twice of her sailors deserted.

An examination made at the Provincial Laboratory has revealed the fact that the black spaniel which bit Harvey Dunlop in Scarborough township a few days ago, was suffering from rabies.

James Thomas Riopelle, Grand Trunk Railway conductor at Booth's Mills, was run over and killed by a train. He was an Ottawa man, 36 years old, and leaves a widow with six children.

The graduates of the senior classes at Macdonald Hall, Guelph, were awarded the annual dinner by the junior classes. The graduates were addressed by Mr. J. S. Willison, of the Toronto News.

While Frank Muir, a boy 13 years of age, was playing with a loaded revolver yesterday at his home, 403 Bartlett avenue, Toronto, a bullet entered his chin, but fortunately the injury is not serious.

Cecil W. Sackett, 148 Wright avenue, Toronto, was arrested on a charge of theft. Sackett was in the employ of the Evans-Tucker Company as a traveler, and is alleged to have collected \$210 and neglected to turn it in.

The Anglican Synod at Quebec, after casting fifteen ballots, failed to elect a Moderator. It was finally decided to leave the matter in the hands of the Bishop, who will summon the Synod when he judges it opportune.

As the result of falling fifteen feet out of a window at his home, 10 Inkerim street, John McDonald, ten years of age, is in the Sick Children's Hospital, Toronto, suffering from concussion of the brain and possibly other injuries.

Lord's is doing considerable business with persons taking out insurance against damage from rain at Coronation time. Most of the persons insuring are the owners of stands, letting of seats to view the parades. Ladies are insuring their costly frocks.

An unknown man was picked up dead on the C. P. R. tracks near Warren, Ont. The body was that of a man five feet ten, weighing about 170 pounds, with short, grey whiskers, and fairly well dressed. Nothing was found on the body to identify the man.

The Senior County Judge of Middlesex was asked by the London Board of Works to investigate the charge that Patrick Mulhall, foreman of No. 4 Ward, had city laborers work on his house and city teamsters supply him with gravel at the expense of the corporation.

Albert Catena, a four-year-old boy, 74 St. Clarens avenue, Toronto, was killed while playing in the yard of the Canada Foundry Company. With another little boy he was walking along a boiler pipe when he slipped and fell against another pipe, breaking his neck.

Canadian lumbermen were the principals in a deal of over a million dollars just completed in Michigan, when the largest tract of standing white pine timber in the State was acquired. The lumbermen were W. D. Lammis, of Toronto, Henry J. Bartlett, of Orillia, and George Gordon, M. P. of Sturgeon Falls. The property is situated at Sheldrake, Michigan, and was the property of the Calumet & Hecla Copper Mining Company.

GUilty OF PERJURY.

Woodstock despatch.—James Young, a local an, who ran off to Ingersoll with a girl in her teens a few weeks ago, was brought back with his young bride and compelled by the court to live apart from his wife, who went to live with her parents. It was charged that he had sworn falsely to the girl's age, and today he was tried for perjury and was found guilty. The magistrate suspended sentence on condition that the marriage be solemnized in the regular way, that he work steadily from now on and support his wife, and that he provide bonds to the amount of \$200 for his future good behavior.

THE CORONATION

Principals in the Ceremony Were Present in Westminster Abbey.

London, June 12.—The Coronation preliminaries occupied much of the attention to-day of the officials who have the ceremonial in hand. Early this morning there was a rehearsal of the procession from Buckingham Palace to Westminster Abbey, and later a rehearsal of a portion of the Coronation ceremony in the Abbey. This was attended by the Duke of Norfolk, the Earl Marshal, and an array of peers and peeresses, who will be engaged in the principal roles in the actual ceremony, including Lord Roberts, Lord Kitchener and Lord Rosebery.

At the Crystal Palace this afternoon Prince Arthur of Connaught formally opened "The Pageant of London," which proved a gorgeous spectacle, illustrative of London's day. Social functions in connection with the Coronation for the benefit of various charities or for the entertainment of visitors are daily becoming more numerous. The Duke and Duchess of Roxborough to-night entertained the Duke and Duchess of Connaught and Princess Patricia at a dinner and dance at Chesterfield House. The dinner was attended by 30 guests, but the dance brought together a large and brilliant assembly. Several of the colonial Premiers attended an at-home given at the home of the American Ambassador.

ACCIDENTS IN CAMP

Toronto Soldier Severely Injured By Fall of a Pole.

Y. M. C. A. Has an Important Part in Proceedings.

Niagara-on-the-Lake despatch.—Camp proceedings yesterday were marred by a serious accident, when Private John Hooper, of Toronto, a member of the 2nd Engineers, was so badly crushed by a falling telegraph pole that he had to be sent to the Toronto General Hospital for treatment. Hooper and a number of others were unloading several 60-foot poles for use by the engineers in their bridge and other work, when one of them tumbled from the wagon and struck him. He was released as soon as possible, and removed at once to the Field Hospital, where it was found that several bones were broken, and, as internal injuries also were feared, it was thought better to send him to Toronto at once.

Pte. S. Johnson, of the 20th, was sent home, suffering from Bright's disease. Pte. Birchell, of the same regiment, fell and injured one of his arms.

Owing to the illness of Mr. J. Fraser, the camp post-office is now in charge of J. J. Kelly.

The parade states of all units were finally completed to-day, showing 2,110 men of all ranks.

The Engineers got down to real work to-day, and started the construction of an observation tower. This is built with telegraph poles bound together with ropes and must pass inspection by the officer commanding. When the tower is erected it is the intention of the Engineers to place a powerful searchlight on the platform at the top, and an effort will be made to get into communication with Toronto.

The heliographers were able to get in some good work to-day as there was a strong sun. Messages were sent across the common, and something of a record was made when Lieut. Dyas sent a 20-word message in a minute and 17 seconds. On Saturday a detachment of men will be sent to Queens-on-Heights, seven miles away, and will exchange signals with men on the common here.

On Sunday morning the regular open-air church parade will be held. The athletic and sporting events which are being held under the auspices of the Y. M. C. A. are proving so attractive that General Cotton has appointed Capt. Hendrie as athletic officer, and he is assisting T. E. Best, of Hamilton, who is in charge of the Y. M. C. A. More than a thousand men watch these events each night, and it has a great deal to do with the decrease in the amount of drinking in camp. Three baseball games are played each night, as well as two football games and two athletic events. In the baseball games already played the 12th defeated the 20th, 11 to 10; the 12th A. M. C. defeated the second team from the 20th, 18 to 0; and the 15th A. M. C. got the best of the 34th by 8 runs to 7.

On Saturday evening Mr. Charles Walters, champion fencer of Canada, will referee the fencing bouts, and will also give an exhibition.

On Monday the shooting for efficiency pay will commence. All this week the men have been practising at the ranges getting used to the Ross rifles.

TOWNS WRECKED.

Earthquake Shocks and Volcanic Eruptions Destroy Towns.

Guadalajara, Mexico, June 12.—The volcano Colima became active yesterday and to-day is emitting smoke and lava. The towns of Tonila and San Andres were badly damaged by the disturbances, portions of them being destroyed. A relief train has been sent to the scene from here.

Mexico City, June 8.—Despatches from Tuxtepec, a few miles east of the volcano Colima in the southern part of the State of Jalisco, say that Zapalan suffered severely from yesterday's earthquakes. The number of victims is said to be large. A church and a number of houses were thrown down, and other dwelling places rendered unsafe. Thousands of persons are homeless.

HIS SAD END

Rev. H. S. Magee, of Toronto, Dead at Elmira, N. Y.

Body Found by Attendant of Gleason Health Resort.

Elmira, N. Y., despatch.—Some time between midnight on Wednesday and noon to-day Rev. H. S. Magee, a well-known divine of Toronto, Ont., strolled out into the woods from the Gleason Health Resort, on East Hill, and hanged himself, the body being found by an attendant, who was walking in the woods about 11 o'clock this morning.

Rev. Mr. Magee was well known at the resort, having visited the place on other occasions, and on the afternoon before his body was found he had taken a pleasant automobile ride about the streets of Elmira with Mr. Gleason.

Mr. Magee appeared to be in a normal condition when last seen by those about the resort. Mr. Gleason stated that his guest had not let drop the slightest hint of contemplating such a deed.

When he did not come to breakfast this morning some of the attendants went to his room and found that he had not been occupied during the night.

No particular attention was paid to the absence of the guest, as he said something about having to return to Toronto to attend to some business. No search was made, but an attendant walking in the woods south of the house about 1:30 o'clock came across the body, which had evidently been lifeless for several hours.

Coroner Loop was notified and took possession of the remains, which are being held pending the arrival of relatives from Toronto.

Toronto despatch.—Rev. H. S. Magee, was associate secretary of the Methodist Church of Canada.

Mr. Magee was at the sanitarium in Elmira on advice of Dr. Moore, as he was in a state of neurasthenia, partly due to hard work, but he was untiring in his zeal, but partly also to financial worries occasioned by misfortunes to a relative in mining matters.

He was well known all over the Dominion, having travelled in the interests of moral and social reform, conducting institutes and addressing meetings from Newfoundland to British Columbia.

Dr. Moore has gone to Elmira to bring back the body on Saturday. Interment will be at Oakville.

BURNED AT STAKE

Middlesex Man Consigned To Horrible Fate By Mexican Bandits.

Wife Driven From Home By Desperadoes—Word From Comrade.

London, June 12.—That Robert Swaisey, who was born in Middlesex County, within ten miles of London, was burned at the stake in Mexico by bandits during the revolution because he refused to give them money they knew he had, is the information sent to The Free Press by I. C. Whiting, of the Hotel St. Francis, Vancouver, B. C.

The story of the burning in all its horrible details was related in despatches received some days ago and a newspaper clipping sent by Mr. Whiting tells that at Trinidad, Col., a sister of Mrs. Swaisey had received confirmation from Mrs. Swaisey.

Mrs. Swaisey states that at the time her husband was captured she was driven from her home and without food and shelter for fifty hours, but finally reached the camp of friendly Americans.

Mr. Whiting writes that he was associated with Mr. Swaisey for many years in Mexico, and that he (Swaisey) had told him that he was born and lived until a young man near London. The two men were on the same railroad, and Swaisey had been general roadmaster of the Inter-ocean at Pueblo. Later Swaisey was sent to Irapuato, about 300 miles north of Mexico City, to build a new piece of road.

Mr. Whiting writes that he knows Swaisey has relatives in the vicinity of London and that he thinks his old comrade's death should be made known to them. It was in the County of Middlesex that Swaisey was born.

Mr. Whiting left Pueblo about one year ago and went to Vancouver, where he is now living. He was born near Barma.

MARYS' GIFTS.

Part of Them to be Devoted to One of the Queen's Charity.

London, June 12.—The Queen at Buckingham Palace, to-day was presented with a cheque for £12,500, which was subscribed in small sums by her namesakes of the empire as a coronation gift. The Queen wished to devote the amount to charities.

The collection committee was insistent that the gift was a personal one, and the Queen therefore consented that a part of it should be devoted to the purchase of a diamond insignia of the Garter and for portraits of King George and the Prince of Wales. In her letter of acceptance of the gift the Queen says:

"I look forward with special satisfaction to devoting the remainder of the noble gift to a charitable object in which I am greatly interested."

The Queen has not divulged the name of the charity. Subscriptions are still coming in. The greater part of the amount was subscribed in England. The overseas contributions were headed by Canada, whose Marys sent £700.

NERVY CENSUS MAN

Toronto Enumerator Tried to Kiss the Servant and Make a Date.

Toronto, June 12.—The census enumerators have their troubles all right, but so have some of the questionnaires. At least one recent arrival in the city has her own opinion of the class of men employed by the Dominion Government.

The incident occurred on one of the good residential streets in South Parkdale. The members of the family were all out, and this fact was communicated to the census man by the young Scotch domestic when she answered his peal at the bell.

As she afterwards reported to her employer and through him to Census Commissioner Ryan, the young man then pushed open the door and entered the house, endeavoring to engage her in conversation, asked how long she was out from the old country, tried to make an engagement with her to visit one of the amusement parks and wound up by trying to kiss her.

When he was finally persuaded to leave the house the young man intimated to the girl that it would be wiser for her not to mention that he had called and he would call to-day and see her mistress.

"I am alone in the house this afternoon, and if that man calls again I will certainly not open the door to him," said the lady of the house in transmitting the maid's story to Commissioner Ryan, who promised to have the complaint investigated.

MR. MACAULEY

Elected Chairman of the Congregational Union of Canada.

Rev. Mr. Margrett's Statistical Report Showed Growth.

Kingston despatch.—At the fifth annual meeting of the Congregational Union of Canada to-day the election of the chairman for the year took place and the address of the outgoing chairman, Rev. Frank J. Day, Montreal, was delivered.

On the first ballot, Rev. George Selley, Sherbrooke, recording secretary, received fourteen votes, and Mr. T. B. Macaulay, Montreal, twelve. A number of other votes were scattered among several other candidates. The second ballot on the leading two names resulted in a majority for Mr. Macaulay, whose election was announced with enthusiasm. The new chairman, who succeeds the ministerial holder of the office, is a prominent layman, managing director of the Sun Life Insurance Company.

The statistical report was presented by Rev. A. Margrett, Toronto, who explained that the returns were incomplete, as a number of churches had not been heard from. He remarked upon the decrease shown in Ontario as against the large increase in the Western Provinces. The number of churches in Ontario was 58; Quebec, 48; Western Provinces, 36; Maritime, 32; United Brethren, 25; total, 197. Membership—Ontario, 5,365; Quebec, 2,688; Western, 1,978; United Brethren, 1,120; Maritime, 1,053; total, 12,204; increase, 906. Value of property, \$1,547,005; increase, \$225,000. Total debt \$58,788; decrease, \$11,563. Money raised from all sources, \$210,689; increase, \$11,770; average, \$17 per member. Sunday school scholars, 9,458; increase, 876. Young people's society membership, 1,780; increase, 43. Raised by scholars, \$10,000; increase, \$166. Received into church membership, 1,041; from school, 190. Raised for home missions, \$7,709; foreign missions, \$13,000; for colleges, \$2,798.

These figures, Mr. Margrett said, were a decisive answer to those who declared it was either union with other churches or death for Congregationalism. "There is no such thing as bankruptcy in our church," he added. "If we can't make our mark in Canada with these statistics we ought to die."

Five-minute reports from home and foreign missionaries occupied the next session.

The address of the chairman, Rev. Frank J. Day, dealt with the spiritual renascence.

CHILDREN'S DEFECTS.

Inspections Have Revealed Serious Conditions Among Pupils.

Toronto, June 12.—Medical inspection of 14,740 Toronto school children has revealed the fact that 642 have physical defects, 309 have defective teeth, 119 defective vision, 23 defective hearing, 80 defective nasal breathing, and a number affected in other ways. There were 677 diseased children, 62 having measles, 16 chickenpox, 23 mumps, 17 ringworm, etc., and 169 were excluded for contagious diseases.

The nurses' inspection showed 402 young children examined. Of these 127 had abscesses in their teeth, 100 had defective molars, 2,093 had cavities in temporary teeth, and 166 had unclean mouths. The dental inspection showed that 1,195 had teeth filled, and 9,921 had decaying teeth.

The nurses' inspection showed 402 young children examined. Of these 127 had abscesses in their teeth, 100 had defective molars, 2,093 had cavities in temporary teeth, and 166 had unclean mouths. The dental inspection showed that 1,195 had teeth filled, and 9,921 had decaying teeth.

GUELPH'S NEW HOSPITAL.

Guelph, June 12.—P. H. Secord & Sons, of Brantford, who have opened an office in this city, are the successful tenderers for the erection of the Isolation Hospital, including all trades in connection with it, except the heating, which has been awarded to Stevenson & Madill, of this city. The contract was for nearly \$16,000.

Foreign corporations desiring to do business in Corea must obtain the consent of the Government-General, and then establish head offices in that country.

Sweet

"I shall look to her gloves again, the mysteries of love to dabble in farm to the hay, pin get quite burned at Stuart laughed at He was thinking of Wednesday, and could induce his c Margery. His accountable reason like the girl.
