

ARE YOU DYSPEPTIC?

Then Wake Up to the Fact To-day That Your Trouble is Curable.

If all dyspeptics would only quit using "relief-measures," and get right down to first principles, the world would be much happier. Cure the cause of your dyspepsia—then you WILL get well. But you will have lots more to do than sweeten the breath with a peppermint or charcoal lozenge—they never do—never can cure.

THE USUAL ROLE.

Charles M. Schwab, in a recent interview in New York, pointed out the folly of ignorant speculation. "The average man, with no knowledge of finance," he said, "has no business to speculate. Let him do so and his case is Jones' all over again."

NERVILINE

Swift Cure for Croup

Last year two of my children were taken with croup. They coughed something dreadfully, and were too sick to do anything. I applied Nerviline to the throat and chest and gave it internally. "Carrhazone" No remedy could have worked more satisfactorily. I can recommend mothers to use Nerviline; it's a fine liniment."

OLD BUT NOT IN RUINS.

Mrs. Langtry—Lady de Bathe—has returned to the stage. Apropos of this fact, a veteran dramatic critic of Chicago said: "I met Lady de Bathe last year at the races at Ascot. She is still very beautiful, and I ventured respectfully to tell her so."

SAVED IN HIS OLD AGE.

Annapolis, N. S., May 11, 1902.—I am seventy years of age and have suffered from Kidney and Bladder trouble for fifteen years. I took doctor's medicine but got no relief. I want to thank you for sending me the sample box of GIN PILLS which helped me.

AS IT USED TO BE.

"Have you got a good part?" asks the friend of the actor who has been engaged to play in Bill Shakespeare's company at the Globe theatre.

THE SEQUENCE.

"It was very romantic," said the friend. "He proposed to her in the automobile."

DODD'S KIDNEY PILLS

"Do you approve of a curfew law for children?" "I didn't think of it," replied Mr. Barber. "Have been too much occupied with some scheme to prevent parents from spending most of their time away from home."

TO PROLONG LIFE.

Happy Marriage, Daily Bath, Certain Foods, Rest and Fresh Air. To prevent old age coming too soon, the first condition necessary is the possession of healthy glands (chief among them being the thyroid, the adrenals, the pancreas and the liver), and this depends upon heredity.

THE MODERN WAY OF HOME DYEING

MORE LINES ABOUT "TIME."

"Time is always moving on; Time is soon may say its gone; Time is rapid in its flight; Time moves on by day and night; Time itself will bear away; Time itself will close the day; Time will not regard our call; Time itself will soon decay; Time itself does a warning gavel; Time it tells us how to live; Time it says prepare to die; Time it bids us look on high; Time it flings the curtain down; Time it did lead us into life; Time will break the cords of strife; Time will say no longer live; Time is given by our surprise; Time from moments did arise; Time in minutes still moves on; Time in hours and days is gone; Time rolls on by month, by year; Time at last will disappear."

AMERICA AND CHINA.

"America and China are now bound together," writes Frederick McCormick in an article "How America Got into Manchuria," in the February "Century."

A WASTED CLEW.

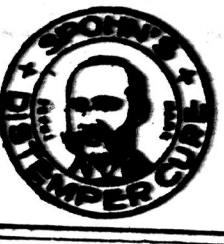

"I lost a pocketbook with a roll of bills to it a few days ago," Charlie Gibson said. "I didn't make a fuss about it and tell the papers, but it was more than I could afford to lose."

THE MOST BEAUTIFUL WORDS.

After an intense contest to decide the twenty most beautiful words in the English language, in which thousands of members of the Y. M. C. A., in New York, Mr. John Shea, a lawyer, has been declared the winner of the twenty-five words submitted by Mr. Shea.

A RADICAL REFORMER.

"Do you approve of a curfew law for children?" "I didn't think of it," replied Mr. Barber. "Have been too much occupied with some scheme to prevent parents from spending most of their time away from home."

"CRIMINAL MATCHES."

A Single One of the Friction Variety Caused a \$300,000 Fire. "Among the many incendiaries destroying the property of the American nation," says Louis S. Amoson in Insurance Engineering, "none is more destructive than the 'criminal' friction match. In Harrisburg, Pa., a short time ago, a friction match dropped on the floor of the cellar, was stepped upon, and resulted in a property loss of nearly \$300,000."

ONLY SQUAWS.

They were only squaws—these women concerning whom a martyrdom comes around from the blizzard-stricken Dakota prairies. Two blighted women of the red men's race, each carrying a papoose, were making their way across a prairie far from any human habitation.

REMARKABLE.

"One of the astronomers claims that he has charged 60,000 new worlds." "By George, it's remarkable," said the fact that he has the use of the largest telescope in the world."

ONLY SOMETIMES.

Mrs. Philip Snowden, the English suffragette, was taken to dinner in New York the other night by a very conservative senator.

NO TRICK AT ALL.

Woggs—So you cut down the household expenses a hundred dollars a month. How in the world did you do it?"

A QUIET PLACE.

"Business is pretty slow here just now," confessed the Squam Corner merchant.

BETWEEN DIFFICULTIES.

"You don't like modern statuary?" "No," replied Miss Cayenne; "if a modern statue's trousers aren't creased it isn't neat looking and if they were creased it wouldn't be artistic."

ELECTRIC FOG HORNS

Which May be Blown Without Effort by Pressing a Push Button. The time honored fog horn and still the one in whose common use on myriads of smaller boats is of the sort that you raise to your lips and blow. Tolerably hard work blowing a fog horn.

LESSON X.—M

Elijah Goes Up to Heaven.—2 Kings 2:1-18. COMMENTARY. I would take up Elijah's life-work was drawing up to enter upon the events of that day. He was still able of further labor. There was still work for God's purpose called for. He was still able to do the work of heaven in God's name. He was still able to do the work of heaven in God's name.
