The dampness which destroys lumber only intensifies the strength and hardness of Concrete.

You can impair a wooden trough with comparatively little use; but it takes a powerful explosive to put a Concrete water tank out of business.

**Which**

is your choice—expense-producing Wood, or money-saving Concrete?

We'd be glad to send a copy of our book, "What the Farmer Can Do With Concrete."—Free—if you'll ask for it. It tells the many uses of Concrete in plain, simple language—tells how to make

**Which is Your Choice?**

*Sloppy, leaky wooden troughs, or clean, durable Concrete?*

Wooden drinking troughs are about as reliable as the weather.

They are short-lived and require replacing every few years—not to mention continual patching to keep them in repair.

The best of wood cannot withstand, for long, constant dampness and soaking. Its tendency to rapid decay soon shows itself in leaks and stagnant pools of water around trough.

Contrast with this the durability, cleanliness and well-ordered appearance of Concrete.

**Farm Help**

The time for engaging farm help is here. The general practice with most farmers is to engage for the summer months only. One reason for this is that the farmer does not know who he is getting and prefers to chance it on a short 3 or 4 month engagement rather than have loaded him some worthless fellow who cannot be trained for any kind of work, and, in addition, may be a moral parasite. If, however, a farmer can be reasonably sure of his man a yearly agreement will pay in the long run. A month on trial and a yearly engagement to follow if things are satisfactory, is the best plan for all concerned. The man who will take more interest in his work and the farmer will profit by getting some good out of his help. If he has gone to the trouble of training him. There is another side to the case also. After a man has worked all summer and has been paid off, he drifts into the town or city, for the very good reason that he has no place else to go. There he may light upon some kind of work during the winter becoming attracted by city life stays there. A farmer may not have much steady work for the hired man to do in the winter though on every farm there are sufficient odd jobs in addition to the chores that will keep him going pretty steadily.

**Women Suffer**  
More than Men

Women have more than their share of the aches and pains that afflict humanity. They must "keep up" in spite of constantly aching backs, or headaches, dizzy spells, etc. Mrs. Edward Calwood of 123 S. Harold St., Fort William, Ont., says: "I suffered with dull miserable pains, soreness across my back and in my sides for months. They would catch me so badly at times that I could scarcely move around. I would have dizzy spells and altogether, felt generally run down. After using a number of remedies without finding relief, I learned of Booth's Kidney Pills and found them an excellent remedy. They not only relieved me of the miserable pains and soreness in my back but cured me of my kidney trouble."

Booth's Kidney Pills cure Backache, dull shooting pains, thick and cloudy urine, gravel or stone, rheumatism and all diseases of the kidneys and bladder.

All druggists and dealers 50c. box, or postpaid from The E. T. Booth Co., Fort Erie, Ont. If you derive no benefit your money will be refunded. Could we say more? Sold and guaranteed by T. E. Morrow.

Grasping At the Shadow

Many a man has frequently been persuaded or tempted to withdraw from a savings bank the hard-earned savings which he has, perhaps for years, been laying aside to keep him in his old age, sometimes a friend who applies to him for a temporary loan—"just for a few weeks," the inducement to part with his money being the offer of a handsome bonus, but more frequent is he the victim of the silver-tongued exponent of some get-rich-quick scheme. Experience teaches us, however, that too often does the borrower fall in his probably good intentions, and the lender lose the amount lent as well as the interest which his money would have earned had he left it in the savings bank, and that in 99 cases out of a 100 does the get-rich quick scheme fail to materialize—in grasping at the shadow we have lost the substance. The Canadian Government Annuities Act protects a man against improvident acts and injudicious investments—it safeguards him against himself. Money paid into the annuities fund cannot be alienated or used for any other purpose, but must remain intact for the object for which the payments have been made, otherwise the end aimed at would never, as has been illustrated above, be attained, and old age would overtake us unprovided for its many trials and tribulations. Further information on the subject may be obtained by applying to the Postmaster, or direct to the Superintendent of Annuities, Ottawa, to whom all letters go free of postage.
