## One Minute Washer

The ONE MINUTE WASHER washes cleaner than other machines on account of twice the agitation of clothes being secured through any given movement of the operating handle. This principle also creates more suds, thus meaning a saving in soap.

The ONE MINUTE WASHER without dispute to be the easiest running machine on the Canadian market. The principle of employing reciprocating motion through com-

## SEEDS FOR SALE

We are now in a position to offer the best quality of

**LUCEN RED CLOVER, ALSIKE, TIMOTHY  
LAWN GRASS AND MIXED SEEDS**

That has ever been offered here. We are taking the trouble of forwarding to the department for analysis and we are only going to sell seeds that will comply with the Government Act, and we ask the farmers to see our seeds before they buy, as the new Inspectors' Act comes in force April 1st and is a very right one. We advise the farmers to take pains in showing their seeds.

## Canadians Eat Eggs from Many Countries

We Bought over Nine Million Eggs from the United States Last Year and Large Quantities from China

Canada imported 896,324 dozen eggs during the fiscal year ending March 31, 1916. From the United States alone 757,316 dozen eggs came to Canada. China sent us 87,075 dozen, while small quantities came from Great Britain, France and Japan.

Our egg exports amounted to 164,835 dozen, but only 39,917 dozen went from Canada to the United States, so that we bought from the Americans 717,399 dozen more eggs than we sold to them. Canada sold 33,465 dozen eggs to Great Britain, 20,947 dozen to Newfoundland, 10,700 to Bermuda, 2,196 dozen to the British West Indies, 44,100 dozen to Cuba, 12,555 to St. Pierre and a few dozen to British Guiana, Mexico and China.

Deducting our total exports of eggs from our total exports of eggs it will be found that Canadians consumed 728,489 dozen more eggs than the total production of eggs in Canada.

The duty on eggs coming into Canada is three cents per dozen. If the Reciprocity Agreement goes into effect this duty will be removed and the importation will greatly increase.

A board of tariff experts recently appointed by the United States Government to compare Canadian and American prices, has reported on the price of eggs at Buffalo, Toronto, Burlington, Vt., Montreal, Lancaster, N.H., Sherbrooke, Que., Ogdensburg, N.Y., Prescott, Ont.

Bangor, Eastport and Calais, in Maine and St. Stephen, N.B.

The statement of prices prepared is for the month of January, 1911, and the result of the enquiry is shown in the following table:

Place	Wholesale Price per doz.
Buffalo, N.Y.	36
Toronto	40
Ogdensburg, N.Y.	30
Prescott, Ont.	32
Lancaster, N.H.	27
Sherbrooke, Que.	32
Burlington, Vt.	27
Montreal, Que.	35
Bangor, Me.	30
Calais, Me.	28
Eastport, Me.	26
St. Stephen, N.B.	33

It will be noted that the prices in Canada were considerably higher than in the United States.

Reciprocity will give Canadian farmers the privilege of selling their eggs in the United States at lower prices than they get for them in Canada, and it will give farmers of Australasia, the United States and twelve other foreign countries the right to send eggs into Canada free of duty.

The report of the United States Government experts also deals with the prices of other farm products in the two countries. The Canadian Century will publish figures in future issues and those who read them will be convinced that Canadian farmers have nothing to gain by Reciprocity with the United States.

## Conviction of Rev. J. M. Haith Quashed

Proceedings were begun before the Chancellor in Chambers at Osgoode Hall, on Friday, March 10th, to quash a conviction for carrying firearms, recorded against Rev. J. M. Haith, a Methodist minister of Delhi, Ont. Mr. Brewster, M.P., appeared for the clergyman, and explained that he was assisting an officer to raid an alleged house of ill fame, when he noticed a man escaping from the house, and in order to frighten him discharged the pistol. The constable knew he had the pistol, and at the trial said that Mr. Haith was a better man than any of the Delhi constables. He thought he had the power to authorize him to carry the pistol. The fine was \$5 and \$17 costs or 30 days. Mr. Brewster questioned the magistrate's jurisdiction, and raised other technical objections. Friday, March 17th, Chief Justice Falconbridge quashed the conviction and fine of \$5 and costs inflicted upon Rev. Haith. He was invited by the Delhi police to accompany them in a raid on a discharged pistol to frighten some men who were running away. The police approved of his carrying the pistol.

## Mr. Kohler on Reciprocity

In the Legislature recently, the Globe says that "For the first time since the debate began the House was treated to an address that were principally straight, unanswerable facts. It came from Mr. J. Kohler of Haldimand, a practical cattleman. He spoke from the standpoint of the farmer, and produced market reports showing conclusively the great benefit that would accrue to Canadian cattle and hog raisers by a free entry into the United States cattle markets and their vastly higher prices."

"One of the best contributions to the debate up to the present time came from Mr. Kohler, who followed Mr. Brewster. Mr. Kohler devoted himself entirely to the reciprocity agreement as it affected the farmers, and made out an exceptionally strong case. Fortified by an imposing mass of statistics he proved conclusively that the removal of the duties on cattle and hogs will make for a splendid development in the live stock industry."

"Mr. Kohler quoted the prices received for cattle and hogs on the Toronto market during the past few years and compared them with those on the Buffalo market showing a difference in favor of the latter market ranging from 25c. to \$1 a hundred weight. Hogs for the Toronto market had to be fattened in a mould, so particular were the buyers here. If they were the least bit heavier than the buyers wanted they were refused, except at a lower weight as 'heavies.' For the Buffalo market the farmer could fatten his hogs as he desired and secure a good price for them."

Winnipeg, March 27.—The cable intelligence that the Privy Council has ruled that the Railway Commission is all powerful with regard to grades and level crossings was received with much satisfaction here, as in the entry of the Great Northern into this city it faces a similar problem to that obtaining at Toronto.

## Brooklyn

(Continued from last week)

During the high wind on Monday Albert Ross's straw stack was blown over on his cattle, one cow being killed and one injured. Mr. and Mrs. J. Basile and family spent Sunday at Chesapeake as guests of Mrs. J. Silverthorn. O. Weidrich and Miss O. Richards spent Sunday the guests of D. and Mrs. Macdonald. Miss Eda O'Leary is spending a few days at Nantuxie the guest of Mrs. J. O'Leary. Miss Pearl Macdonald spent Wednesday night with her friend Miss Hazel Rockafellow. On Monday while John Snowden's cows were getting a drink at the creek two of them broke through the ice, one being chilled so badly that it may die.

## Falling Hair

Mrs. James Harris of Wapelle, Sask. says: "I have found Parisian Sage to be the best scalp and hair tonic and dressing I have ever used. My hair had been coming out in combs full and was very dry and brittle and the scalp was always itching and full of dandruff. I have used two bottles of Parisian Sage and it has stopped my hair from falling, the itching and dandruff have disappeared and my hair is fine, soft and glossy. I would not be without this fine Hair Tonic for many times the price."

For women, men or children Parisian Sage is without any doubt the finest preparation for the hair. Daintily perfumed, it is free from grease or stickiness and ought to be where every member of the family could use it daily. Large bottles 50 cents at all druggists or from the proprietors, The Giroux Mfg. Co., Fort Erie, Ont., postpaid. The girl with the Auburn Hair is on every package. Sold and guaranteed by T. E. Morrow.

## The Style Subject

The value of good style in the clothes you select cannot be overestimated. To give clothes that certain touch of correctness which you are desirous of seeing in your garments, is distinctly a question of ability on the part of the maker of the clothes. The quality is largely a matter of honesty.

We believe you will get what you pay for, in the matter of fabrics and linings, if you buy clothes of a reliable make, but if you want style combined with quality, it is a question of ability, not honesty. The 20th Century Brand tailors have the ability—hence the style you always find in these bench-tailored garments.

## "Bench-Tailored" Garments are Very Superior to "Machine Made"

In almost every branch of industrial development the introduction of steam and electrical power and labor-saving machinery has revolutionized the process and cost of production. To a limited extent this is true of tailoring. The sewing machine is used by the best and the poorest of tailors but there are several important operations in the making of a garment for which no satisfactory machines have yet been invented nor are they likely to be. There is the element of personal taste and artistic touch which seems to make it quite as impossible to make good clothes by machinery as to paint good pictures by machinery. The true designer and the true tailor are both artists and their art cannot find complete expression through machinery. This explains why so much "bench-tailoring," which means hand-tailoring, is put upon 20th Century brand garments.
