LESSON I .- APRIL 2, 1911

Elisha Heals Naaman the Syrian,-1 Kings 5: 1-27. Commentary.- I. Naaman's malady

(v. 1). I. Naaman—The name is Hebrew as well as Syrian, and meau, "pleasant," "beautiful." Captain—He was com-mender-in-chief of the armies of Syria. A great man with his master-He stood him in the estimation of Benhadad, king of Syria, because of his successes in war, There is a tradition, evidently without foundation, that Naaman was the man who, in the battle between Syria and Israel (f. Kings 22, 34), drew his bow at a venture and slew Ahab. Honorable -Honored. A mighty man in valor-He was possessed of unusual courage and skill. As the warrior in that age engaged in hand to hand combat with the enemy, he must have physical strength to be successful, and Naaman must have bene strong physically before he was affected with the leprosy. But-A word of wonderful significance in this nurrative and in almost every phase of human experience. With all his great ness, his skill, his bravery and success Naaman was a leper. This would be his ruin. It was only a question of time with him when he would become an outcast. He was a leper-The disease of leprosy was, and is still, one of the most dreaded of all physical maladies. It was widespread, being found in many lands and climes. It was also considered incurable. I was considered contagious and the Jewish law required those afflieted to dwell apart.

II. A Remedy Suggested (vs. 2-4). 2. By companies Troops of Syrians entered the territory of Israei upon marauding expeditions to secure whatever plunder they were able. Brought away eaptive To be held as a slave. A little maid This young Israelitish girl was torn from her loved ones at home and taken into a strange country and among a strange people. Only those who have had the experience can realize the suffering and the heartache of such a calamity, yet this girl, trained in the religion of Israel rose above her surroundings and made known her faith in God. "Like Joseph in Egypt, and Daniel in Babylon, this captive girl becomes the instrument of making Jehovah known among the heathen."-Whedon. Waited on Nasman's wife The service was far different from that required of slaves in more modern times. This girl was upon familiar terms with her mistress, and felt an interest in the welfare of her master. 3. Would God - Would that. -R. V. Expressive of deep desire. My lord-Naaman. The prophet that is in Samaria. - Elisha. The Jewish girl had been familiar with the remarkable career of this servant of Jehovah. Would resover him-Literally, "gather" him from his leprosy. An allusion to the Israelitmmp and then gathering them in after the jerroev was healed.

Go to, go-An expression calling for im- a thousand miles further to a place mediate action. The king at once open- where he would find an extraordinary ed the way for Nasman to apply to the medicine, he would have gone. Invalids king of Israel for relied. Departed, and take much trouble and spend much mon-Jehoram. We cannot estimate the who advertises his pretensions. Many value accurately. The money was probably weighed, and "talents" and "pieces" or shekels, were standards of weight. "A silver talent was worth \$1,944, in all \$19,440. A gold shekel was worth \$9.75. in all \$58,500."-Bible Treasury. According to this Naaman took nearly \$78. 000. Raiment-Doubtless it was clothing of great value. 6. That thou mayest recover him-The king of Syria considered it fitting to make the request directly to the king of Israel, who would at once he able to give Naaman all needful information. 7. Rent his clothes -In token of his distress of mind . Not only was Jehoram powerless to hea! the disease, but he was not even sufficiently familiar fith Elisha to direct the leper to him. The king knew that the leprosv was incurable.

8. Elisha...heard—No doubt the coming of the Syrian general with his retinue, and the fact that the king had rent his clothes, caused a sensation in Samaria, and the news came speedily to Elisha, who appears to have had his home in the capital city. wherfore-A rebake to the king for not knowing of the presence and power of the man of God. a prophet in Israel-It is to be shown that the God of Israel was the true God, for the good of the King of Israel, as well as for the good of Naaman and the kingdom he represented. Jehoram had neglected the worship of Jehovah and needed to be reproved. 9. at the door of the house of Elisha-It was a magnificent retinue that halted at Elisha's door. 10. sent a messenger There were two reasons why Elisha did not personally appear to Nasman. He desired the captain to realize that it was by the power of Jehovah that the cure would be wrought and not by human means. He also wished Naaman to humble himself and accept the simple conditions proposed by the prophet. seven times-"The sacred number seven was used in the Levitical observances connected with the cleansing of healed

Questions.—Who was king of Israel?
Of Syria? Who was Naman? What can you say of the leprosy? Wha waited on Naaman's wife What did this servant tell her mistress? What did the king of Syria do? Where did Saaman go? What did he take as a pressent? What did the king of Israel do? What word did Elisha send to the king? What did the prophet tell Nasman to do? Why mas Nasman angry? What did his servants say to him? What did Naaman finally decide to do? What was the results What was Gehazi's

PRACTICAL APPLICATIONS. "Naaman was a leper" (v. 1).Naaman was "captain of the host," he had position and power; he was 's great man with his master," the king loved and trusted him; he was "honorable;" by him the Lord had brought deliverance to his country; he was "a mighty man in valor," he had won many laurels on the field of victory. "but he was a leper." Leprosy is a type of sin, an awful thing from which God is willing to leanse us. Faith is the first step. Bothleprosy and sin are, I. Loathsome. The most horrible disease, of Satanic invention, an inflamed, ulcerated, disfigured human body is used by God to describe 'a sinful nation." of which he says, "From the sole of the foot even unto the head there is no soundness in it; but wounds, and bruises, and putrifying sores" (Isa. 1.6). 2. Hereditary. The leper's child would be a leper. Jeremiah's lamentation was, "Our fathers have sinned and we have yorne their iniquities" (Lam. 5. 7). 3. Infectious, Contag with leprosy induced leprosy. So with sin "Evil communications corrupt good manners" (1 Cor. 15.33). 4. Separating. In Israel a touch of leprosy rendered a man unclean and he was driven from the camp and wore mourning as for the dead and had to cry, "Unclean, unclean" (Lev. 13, 45, 46). Sin separates from God (Isa. 59. 2; Rev. 21. 27), 5. Destruc-"The wages of sin is death" (Rom. 6, 23), 6. Deceitful. The leper might not suspect for a long time that he was in danger. Sin is treacherous and deceit-(Jer. 17, 19) It does not bring in stant pain and death, 7. Incurable by man. "Am I God to kill and make alive? (v. 7) cried the king. Not even he had

power to heal a leper. Only God. can change those that are accustomed to do evil (Jer. 13, 23). 8. Cured by Gad. James H. Brookes save. "The leper was placed under the care of a priest, not of a physician." When God healed him he might return home (Lev. 14, 1-32). "Elisha sent to the king, saying. Wherefore hast thou rent they clothes? let him come now to me, and he shall know" (v. 8). In his "loving kindness" our heavenly Father sent to us "from

afar" (Jer. 31. 3. margin). He bore with our mistakes, broke down our pride, and at last brought us in submission to his feet, the place of blessing. "Go and wash" (v. 10). The injunction to us is "Let us cleanse ourselves" (2 MI. The Remedy Sought (vs. 5-10). 5. [Cor. 7. 1). "Had he been told to travel

> ev to buy the medicine of some quack are looking to the streams of their own country in preference to Jordan." "His servants said" (v. 13). "Little things test character. Little things make a life great. Be specially conscientions in little things. Triffe not with little sins, Neglect not little duties. He

that is faithful in little is faithful also in much" (Luke 16. 10). "Then went he" (v. 14), Naaman obeved. God healed him. We wash in the word of God when we believe it and obey it. When we walk "in the light" (1 John 1. 7), "according to the saving" (v. 14) of the men of God, by virtue of the atonement. God makes us clean in spirit, soul and body (1 Thess. 5, 23, 24). "Then went he down" (v. 14). Down from the pedestal of his pride (v. 11); down from the high position of his fleshly reason (v. 12); down to learning from his servants (v. 13); down to

the waters of judgment (v. 14).
