Census of Crops and Live Stock

Ottawa, May 10.—A bulletin of the Census Office issued to-day makes the following report on the crops and live stock of Canada.

The seeding and growing season for the whole of Canada has opened late this year, and the month of April has been marked by hard frosts. But May has been favorable to cultivation of the land, and the rainfall has been sufficient for healthy vegetation. Fall wheat which is grown chiefly in Ontario and Alberta, showed an average condition of 82 per cent. at the end of April, being 89 per cent. in Alberta and 81 per cent. in Ontario. In Ontario however, the April frosts were destructive in some regions; and from 12 to 34 per cent. of the area sown has been reported as winter-killed.

The central counties, north of Lake Ontario, suffered worst, the average loss as reported being 34 per cent. In the western countries, 27 per cent. of the area in crop has been destroyed. In the southern countries, north of Lake Erie, the loss is 10 per cent.; in the northern countries and districts 12.6 per cent. and in the eastern countries, between the St. Lawrence and Ottawa rivers 15 per cent. For the whole of Canada the area winter-killed is reported to be 21 per cent. and the per cent. condition of the growing crop is 82. About 12 1/2 per cent. of the clover was heaved out by the spring frosts, and the average condition of hay and clover at the end of April was 89 per cent. Alberta shows better than any other part of Canada, its average being 94 per cent. Nova Scotia comes next, with 93.95; and in Quebec, British Columbia and Saskatchewan the condition is over 90. In Ontario it is 86 and in Manitoba 85 per cent.

The percentage of total seeding completed at the end of April was 21.25 in Quebec, 44 in Ontario, 47 in Manitoba, 47.30 in Saskatchewan, 66.61 in Alberta and 76.90 in British Columbia. Manitoba and Saskatchewan had 70 per cent. of the proposed area of spring wheat sown at the end of April, and Alberta and British Columbia 80 per cent. The Maritime Provinces had scarcely made a beginning of seeding operation at the end of April, and in Quebec barely one-fourth of the spring wheat, oats and barley were sown. In Ontario 51 per cent. of the proposed area of spring wheat was in the ground, 44 per cent. of the oats and 42 1/2 per cent. of the barley. The report of the condition of live stock is good for all the Provinces, being 95 for horses, 92.43 for milch cows, 90.56 for other cattle, 93.32 for sheep and 94.51 for swine. Alberta is below 90 for horses, Manitoba, Saskatchewan and Alberta for milch cows, Manitoba, Saskatchewan, Alberta and British Columbia for other cattle, and Alberta and British Columbia for sheep; but generally the condition ranges about 90 per cent.

The Southland Serenaders

The following appeared in the Union City, (Pa.) Times, on March 23rd, 1911: "The Southland Serenaders gave their musical entertainment in City Hall last Monday night as advertised and a fair-sized audience was present, every one of whom was well pleased with the program, which consisted of vocal and instrumental solos, old time southern negro melodies, choruses, etc. and every number was greeted with a spontaneous and hearty applause. Each member of the company really appeared as a star. They gave a double program as they responded frequently with encores. They came here under the auspices of the Junior class of the High School who, after paying all expenses, had a good balance for their treasury. This composed of cultured ladies and gentlemen and should they ever appear here again will call out a big house." This Company will appear in the Music Hall, Jarvis, on Thursday evening, May 18th, under the auspices of the Public Library.
