SOWING HIS WILD OATS

REAPING A HARVEST OF SORROW

How many young men can look back on their early life and regret their misdeeds. "Sowing their wild oats" in various ways. Excesses, violation of nature's laws, "wine, women and song"—all have their victims. You have reformed but what about the seed you have sown—what about the harvest? Don't trust to luck. If you are at present within the clutches of any secret habit which is sapping your life by degrees; if you are suffering from the results of past indiscretions; if your blood has been tainted from any private disease and you dare not marry; if you are married and live in dread of symptoms breaking out and exposing your past; if you are suffering as the result of a misspent life—**DRS. K. & K. ARE YOUR REFUGE.** Lay your case before them confidentially and they will tell you honestly if you are curable.

YOU CAN PAY WHEN CURED

We Treat and Cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD and URINARY COMPLAINTS, KIDNEY and BLADDER Diseases and all Diseases Peculiar to Men.

CONSULTATION FREE. Books Free on Diseases of Men. If unable to call, write for a Question Blank for HOME TREATMENT.

JARVIS, ONT., NOV. 1 1911

Western Notes

Winnipeg, Man., Oct. 30., 1911.—The West is up in arms over the census figures. With the exception of Regina, there is not a city in Western Canada that does not feel that it has a just grievance in the announcement of the population figures that are no much below what these cities have considered their right in matter. The Regina exception only serves to make the feeling in the other cities stronger that mistakes of a serious nature have been made, and Edmonton, Saskatoon and Moose Jaw have decided to take new counts to determine whether the government figures are right or wrong. Unbiased opinion is strongly to the effect that something must be out of line and that the civic, directory, and immigration figures cannot be so far wrong as the government count makes them appear. The Winnipeg Development and Industrial Bereau called attention sharply to the fact that many persons were being missed by the enumerators at the time the census was being taken, and this body will now consider the matter of taking a new census of Winnipeg,

Immigranion figures—in which there can hardly be any serious errors—point sharply to the fact that people have been pouring into Western Canada in large numbers.

Mr. J. Bruce Walker, Commissioner of Immigration, Winnipeg, reports that statistics complied to date show that for the first eight months of 1911 immigration into Western Canada totals 270,757. Many of these new settlers are prosperons farmers from the United States, who have sold their valuable farms there and bought cheaper land in Western Canada. A large proportion of them have secured farms in the agriculture province of Saskatchewan, where they will make their homes in the future.

Manitoba, too, has made big gains in city and country population. In fact, Winnipeg, has grown so rapidly that it is not possible for the diarymen to keep the milk supply up to the demands that are made upon them. In spite of excellent season for pasture and hay, the diarymen about Winnipeg are away behind their trade demands and there is to be a movement made to induce more diarymen to take up this industry in a field which offers convincing proof of being underworked. It is an ascertained fact that diarymen who started in business no more than five years ago, with but a few hundred dollars, are to-day well-to-do and in possession of thousands of dollars' worth of property and big and growing trade.

Revised figures show that the grain crop of the West was somewhat damaged by various causes, but is still an enormous one and immensely valuable. Deducting the total losses leaves the crop figures for the three provinces of Manitoba, Saskatchewan and Alberta at: Wheat, 169,725,000 bushels; oats, 185,570,000 bushels; barley, 33,000,000 bushels; flax, 6,620,000 bushels. Fifty per cent. of the threshing hod been done in Manitoba on October 20, twenty per cent. in Alberta, and ten to fifteen per cent. in Saskatchewan.

A movement that promises to become of great importance in the further development of western cities and town is that of organizing a central association of the executive secretaries and commissioners of publicity departments thoroughout the west. During the past few years the publicity departments have been engaged in a work that has figured largely in the developement of the western country. Naturally there have been many big problems come before the different cities and towns in connection with the expenditures of money for the publicity purposes and the movement on foot is one for co-operation and united action between all live Secretaries of Boards of Trade and Publicity Commissioners, and these will be invited to hold a congress at Winnipeg in January, 1912. The scope of the Western Association of Executives will extend from Port Arthur to Victoria.

Winnipeg building figures continue to be of astonishing proportions. Winnipeg has expended in the past six years and nine months endinfi September 30, 1911, $75,461.175 in new buildings. This represented 23,451 buildings, and probably no city on the continent can show a better balanced distribution for a solid growth than has gone into the wholesale houses, business blocks, churhes, schools and handsome homes and apartments of Winnipeg. During the nine months of yeal 1911 ending September 30th, $2,333,300 was spent for fine apartment blocks, the average cost of the eight largest being $96,000 each, and of the fifteen largest $76,333 each; eighty-seven factory and warehouge buildingf were erected in the nine months at a cost of $2,487,400, and schools, churches and hospisals that cost $1,018,500 were also built. Prosperity is indicated in the handsome private homes of citizens that have been erected from January to October, 1911. Twenty-four of these residences have cost on an average $18,270 each, while there have been one hundred and sixty-three homes built costing between $5,000 and $10,000 each, and four hundred and seventy-two houses that cost over $3,000 each.

Winnipeg's civic power plant was put in operation last week and current for lighting was successfully transmitted from the big Point du Bois station on the Winnipeg River. The city is thus enabled to do its own lighting and is rounding into shape to serve a long list of waiting customers who have signed contracts to use civic light and power at prices much below those that have prevailed in the city heretofore.

The progress of railways is strongly marked at Winnipeg and other western points In Winnipeg the new Canadian Northern Railway frieght sheds are to be completed ready for occupation by the end of this year, according to a statement made by R. Dickson, architect. This building will be 300 ft long, by 400 wide, and will include offices and customs bond rooms. Freight sheds proper will be arranged on the continous door system.

The Canadian Northern Railway has placed orders with the Dominion Steel Coporation for 60,000 tons of steel rails.

The order calls for delivery at rate of 15,000 tons per month.

Beekeepers Convention

The Annual Convention of the Ontario Beekeepers' Association will be held in York County Council Chambers, Toronto, from Wednesday to Friday, Nov. 15th, 16th and 17th. This convention is held during the week of the Ontario Horicultural Exhibition. Persons attending this exhibition can secure single fare return rates as follows: Where the single fare does not exceed $2.50 a retnrn ticket can be secured for the single tare, plus 25c. for an admission coupon. These tickets are good going Nov. 13 to 18, and returning to the 20th. Those who live outside the $2.50 limit or who wish to go earlier or return later can secure a single fare return rate by purchasing a single fare and securing a Standard Railway Certificate. This arrangement is good going from Nov. 11th to 15th and returning to the 22nd. This Railway Certificate must be endorsed by the Secretary at the Exhibition and must be exchanged for a railway ticket for the return trip at a cost. of 25c.

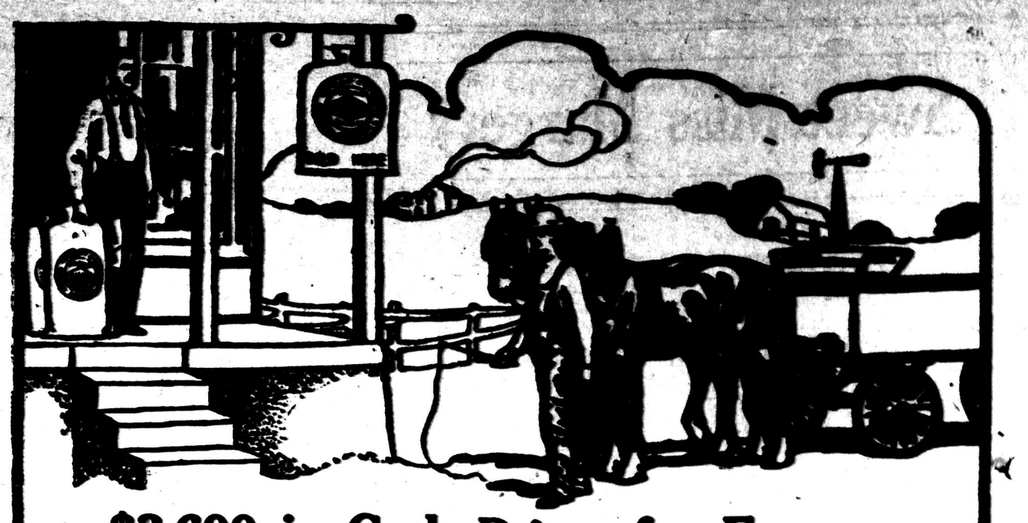
Forestry Notes

PROVINCES PRODUCING SHINGLES

The production of shingles increasee steadily in Canada and in a bulletin to be published by the Forestry Branch of the Department of the Interior this is shown together with the relative importance of the provinces for 1910. Compared with the Canadian lumber cut, the entire shingle industry amounted to less than the value of each of the five most important species—spruce, white pine, douglas fir, hemlock and cedar, during 1910. Considered separately, the shingle production assumes considerable importance especially in British Columbia. This province is far in advance of the eastern provinces as a shingle producer and made approximately half of the Canadian 1910 production of nearly 2,000,000,000 shingles worth over three and a half million dollars. Over one quarter of the shingles were manufactured in Quebec, where the 539,000,000 pieces reported were an increase of 60% over the1909 amount. Ontario and New Brunswick produced nearly equal amounts in 1910, one tenth of the Canadian production being from each of these provinces. 98% of the total production was in the above four provinces, although shingles are made in every province of the Dominion. Nova Scotia, Saskatchewan, Prince Edward Island, Alberta and Manitoba, together produced 2% of the total. The average price of shingles in 1910 $1.80 per thousand, the values ranging from $1.51 for shingles in Novia Scotia to $2.27 in Saskatchewan.

Pencil Boxes, 5c., 10c., and 15c., at Record Office.

Chamberlian's Stomach and Liver Tablets do not sicken or gripe, and may be taken with perfect safety by the most delicate woman or the youngest child. The old and feeble will also find them most suitable remedy for aiding and strengthening their weakened digestion and for regulating the bowels For sale by all dealers.



$3,600 in Cash Prizes for Farmers

WHEN you enter the Canada Cement Prize Contest, your dealer will assist you. Consult him in reference to conditions of the contest. Refer all questions of doubt to him to decide. Confer with him when his experience and advice and his knowledge of our plan would seem helpful.

Don't hesitate about doing this. We have requested him to assist to the best of his ability any farmer in his locality competing in this contest—whether it's a matter involving the application of cement, or how to go about winning one of the prizes offered in this contest. Do you realise that you have as good a chance as the next man to win one of these prizes? There are four for each Province, as follows:

PRIZE "A"—$200.00 to be given to the farmer in each Province who will use during 1911, the greatest number of bags of "CANADA" Cement. PRIZE "B"—$100.00 to be given to the farmer in each Province who in 1911 uses "CANADA" Cement on his farm for the greatest number of purposes. PRIZE "C"—$100.00 to be given to the farmer in each Province who furnishes us with photograph showing the best of any particular kind of work done on his farm during 1911 with "CANADA" Cement. PRIZE "D"—$100.00 to be given to the farmer in each Province who submits the best and most complete description of how any particular piece of work shown by accompanying photograph was done.

Contest will close on November 15th, 1911, and as soon as possible thereafter, prizes will be awarded.

Be sure and get a copy of our Contest Circular, telling all about the contest. Ask your dealer for one or use the attached coupon, if you find it more convenient.

In writing us, mention whether you have received your copy of "What the Farmer Can Do With Concrete," a profusely-illustrated 160-page book, which tells you how to build with concrete, so that you can do much of the work yourself. It's a mighty handy and useful book, and should save you money a dollar. Farmers who have received it, say it is splendid. Write to-night and it will go back to you with Prize Contest Folder, by return mail.

Please send Circular and Book.

Hair Beautifier

Refined Women the World over use it

Every woman knows that there is nothing so good for hair and scalp trouble as Parisian Sage. If Parisian Sage is used two or three times a week it will keep the scalp nice and clean and remove dandruff. It makes the hair lustrous and fluffy, and keeps it from falling out.

We urge every woman who loves radiant and fascinating hair to go to T. E. Morrow's to-day and get a large 50 cent bottle of Parisian Sage. He guarantees it to cure dandruff, falling hair and itching scalp, or money back.

The immigration department has just announced the statistics of arrivals for the month of September, 1911. They total 29,076, as compared with 24,024 for September 1910, or an increase of 21%. Those from the United States number 11,483 as compared with 10,226 for September of 1910, or an increase of 12%, while arrivals by ocean ports were 17,593, as against 13,778 for the same month last year, or an increase of 28%. For the first half of the present fiscal year, that is April to September inclusive, the total immigration amounts to 241,930 as against 204,382 for the same months of last year, or an increase of 18%. Of this number 83,316 were from the United States, as compared with 75,145 for a like period of last year, or an increase of 10%, while 158,614 arrived via ocean ports as against 128,937 for the same months of 1910, or an increase of 23%.
