

BANK OF HAMILTON

Capital Paid Up \$ 2,750,000
Reserve and Undivided Profits 2,250,000
Total Assets \$5,000,000

The Bank of Hamilton invites Savings Accounts—and has eliminated all undue formalities, both in the opening of such accounts and in the making of withdrawals.

A chartered bank is the logical place for the safe-keeping of the fund you wish to accumulate for old age or to make provision for unforeseen needs. Interest paid on deposits of \$1.00 and upwards.

J. A. CAMPBELL, Agent,
Jarvis Branch.

Head Office:
HAMILTON

THE OLD RELIABLE

WISHING to remind his numerous customers that the time for paying their bills are now when they are selling their grain or stock, as our bills must be paid as the wholesale houses wants their money from us.

The Jarvis Record.

JARVIS, ONT., NOV. 15 1911

The Rev. Irl R. Hicks 1912 Almanac.

Before the great Drouth of 1901, the Hicks Almanac gave timely warnings. For over two years prior to 1911, the Hicks Almanac again sounded a warning of drouth danger. And so for forty years this same friend of all the people has steadfastly refused the offers of speculation and continued to warn the public of the coming dangers of storm and weather. As they should have done, the people have nobly stood by Professor Hicks, their faithful public servant, who has grown old in their service. Send only one dollar to Word and Works Publishing Company, 3401 Franklin Avenue, St. Louis Missouri, and get his Magazine and Almanac both for one year. The Almanac alone, a fine book of 150 pages, is only 35c. by mail. Let everybody respond and receive the warnings of our National Seer for the coming year.

Winter Seed Fairs.

Seed grain growers should avail themselves of the opportunity for advertising afforded by the winter exhibitions at Guelph (December 11-16) and Ottawa (January 16-19). In the general class prizes \$1, \$2, \$3 and \$5 are offered for two-bushel lots of seed grain representing seed for sale. In addition to that, through the Ontario Fairs Association, large prizes are offered to winning competitors in the field crop competitions. In oats, for instance, ten prizes are offered, from \$3 to \$25. Young Street, York County, divides the districts for showing at Guelph or Ottawa.

This season there is bound to be a big demand for seed grain at good prices. The hot wave which passed over Ontario while the grain was filling caused a lot of it to shrink, and plump, well-filled grain will consequently be at a premium. This is shown by the price of barley.

As these fairs are attended each year by an increasing number of visitors, they give a splendid opportunity for buyers and sellers to meet and arrange their deals. Members of the Canadian Seed Growers' Association should be alert and put up strong exhibits. As soon as fall work is well enough advanced, farmers should get their seed ready. It would be well to apply at once to A. P. Westervelt or E. D. Elderkin, Parliament Building, Toronto for the two prize lists.

The Canadian Voting Machine Co. Ltd.

Authorized Capital \$100,000—No Preferred Stock

Incorporated Under the Ontario Companies' Act HEAD OFFICE, NIAGARA FALLS, ONTARIO

Shares \$50 Each

THE above company are issuing a limited number of shares. Shares to be sold at par, \$50 each. Spare the time to thoroughly consider this proposition and what it means to you. It is treasury shares we are offering, and every dollar received will be expended towards making this property a sure paying concern and every shareholder's interest will be protected.

Many people have been skeptical of our Voting Machine, because all other voting machines in Canada have proved a failure and could not be adopted, but a change of heart has come about in the splendid opportunity of our Voting Machines being adopted.

As it is perfect in all that is claimed for it, it is something that this Country has been looking for for years.

It is a secret ballot box and every one who has seen our machine work, readily sees that it is what we claim for it.

It is a secret ballot.
Any one can vote even the blind.
You cannot spoil a ballot.
You cannot vote twice.
The voter is the last man to handle the ballot.
Ten can vote per minute.
Four (4) correct counts given against each candidate.
Correct returns given in thirty seconds after the close of the poles.

We are going to conduct a general foundry and machine business to manufacture all kinds of machinery, tools, lawn mowers and implements. It is expected that this stock will be taken up very rapidly. We have only a limited amount of stock for sale, this will give the early investor an opportunity to secure his stock at a comparatively low figure.

There are no other concerns to-day in Canada manufacturing Voting Machines.

The Company will not be put to the necessity of costly experimenting to make the machines commercially practical. They are so already.

Over 10,000 practical men have examined our machines and all, with one exception, pronounce it perfect.

The law has been passed allowing municipalities to make use of this voting machine in their elections. This clears the way for the sale of the municipal machines and makes their introduction easy. This is a step forward. We must keep up with the progress of the age. The fate of the unreliable ballot box is sealed and a better order of things promised. No one man will be able to control this stock as one man cannot get more than 20 shares of this stock.

Our Offices are located in the Club Rooms, Jarvis

All are welcome to see these machines in operation. Those interested in taking stock must come early before it is all taken up as we have only a limited number of shares to sell. Shares \$50 Each.

T. F. EDWARDS, CHRIS. NELSON, Representatives, Jarvis, Ont.

Which is Your Choice?

Stopy, leaky wooden troughs, or clean, durable Concrete?

Wooden drinking troughs are about as reliable as the weather.

They are short-lived and require replacing every few years—not to mention continual patching to keep them in repair.

The best of wood cannot withstand for long, constant dampness and soaking. Its tendency to rapid decay soon shows itself in leaks and stagnant pools of water around trough.

Contrast with this the durability, cleanliness and well-ordered appearance of Concrete.

Which?

The dampness which destroys lumber only intensifies the strength and hardness of Concrete.

You can repair a wooden trough with comparatively little cost; but it takes a powerful explosive to put a Concrete water tank out of business.

Which

is your choice—expensive-producing Wood, or money-saving Concrete?

We'd be glad to send a copy of our book, "What the Farmer Can Do With Concrete."—Free—if you'll ask for it. It tells the many uses of Concrete in plain, simple language—tells how to make

Barns	Hens' Nests	Stables
Chimneys	Washing Posts	Stairs
Drains	House Blocks	Stairs
Dipping Tanks	House Steps	Steps
Foundations	Poultry Houses	Tanks
Fence Posts	Root Culture	Troughs
Fencing Poles	Silos	Walks
Gutters	Shower Walls	Wall Curbs
