The man who devotes energy to shooting off his mouth, and pushes most of the time against the top side of a dry-goods box on some street corner is not much to be believed in. "The man who drinks the red, red wine can never give his lips to mine," is one plank of the platform of an organization being formed by several young ladies. We would suggest as the next plank the following: "The man who quaffs the foaming beer shall never call me his own dear." And then: "The chap who takes his whisky straight, need never at my home stay late."

We do not like to do this but we are in need of the ready cash we have to meet and pay our bills. Ma is in two minds whether to buy her Xmas cake this year or build one herself. I think she will build. Freedom of the Bachelor Girls

The bachelor girl's freedom in one of her most enviable possessions. The home girl often notes it longingly and wishes she could live in a cosy, artistic apartment, some and go as she wishes, enter into whom she likes, all without comment or criticism. But in this very freedom lurks a danger. It is an insidious danger too, and many a girl has fallen into it before she is aware of her peril. And yet this freedom is so precious and can yield her so much pleasure in life, that she should at the very threshold of her bachelor career learn to know when the danger line and so not lose her pearl of great price through ignorance. A girl, now that she is away from the restraining influence of the home folks, thinks she would like to do just one or two little things heretofore forbidden. She does them simply for a lark. The desire arises out of her high spirits, or perhaps just to know the taste of forbidden fruit. But it is an unwise step. These one or two actions may cast a shadow on her good name that years of the most proper conduct cannot remove. It may not affect her immediate circle of friends, who know her. But it may close to her the doors of other circles either in business or society, that she may very much desire to enter. The bachelor girl needs really to give more thought to this matter than she would were the living at home. She cannot do the things that she could when protected by the bulwarks of a domestic abode. Her little apartment is the cynosure of critical and not too friendly eyes.

Now that "good old summer time" no longer causes us to swelter and sweat at our daily grind in the editorial treadmill, and the mercury is nightly indulging in shameless flirtations with zero, while the price of coal and gas is holding close communion with the moon, we are oftentimes sorely tempted to remind some careless caller that:

As hot as boiling tar
Awaits the yapping who quits a room
And leaves the door ajar.

Death of James Hough

Death came with awful suddenness to another of our old residents and ushered him into eternity with scarcely a moment's warning. The subject of this sketch is James Hough, who passed away at the hour of five on Monday evening, at the home of his sister, Mrs. Nora Smithson. Deceased had always enjoyed good health up to within a few hours of his death. He had complained that day of feeling poorly, but it was not dreamed that death hovered so nigh. Mr. Hough, who was in his 72nd year, was born in the township of Scarborough and came to our village when quite a young man and has resided here ever since. He was never married but resided alone at his little home on Lydia street. He is survived by one brother, Andrew, of Toronto, and three sisters, Mrs. McCall of Manistota; Mrs. John Cooks of Simcoe, and Mrs. Smithson of town. The funeral took place Wednesday at Knox church cemetery. The Record extends its sympathy to the bereaved family.
