Russia's Corn Cargoes Not Subject to Capture

Under Certain Conditions Laid Down by Her.

Depends on Declarations of Paris and London

St. Petersburg, Oct. 16 .- The text of the Russian note to Turkey regardings the free port of Russian corn was mad public to-day. In reply to a verbal remonstrance, Turkey had said that sac intended to act according to the Declaration of London in 1909.

As this was considered unsatisfactory to Russia, this government presented a written demand, wherein it was pointed out that Russia basing her position upon the Declaration of Paris of 1856 and articles 24 and 33, in the Declaration of London, considered that cargoes of corn were subject neither to arrest nor confiscation when addressed to Russian ports in the Black Sea or to Italian ports, so long as the cargoes were not destined for the Italian field forces or Italian official consignees.

The note includes: "Any attempt to arrest and contisente the above-mentioned cargoes Russia will regard as a violation of the rights of Russia, and the government gives warning of the heavy responsibility Turkey will incur in such cases."

Turkey has not replied, but as ships with corn have not been molested it is presumed that the Ottoman goverument intends to observe article 34 of the Declaration of London.

Article 24 of the Declaration of Lonion describes articles including foodstuffs and grain which may be treated as conditional congraband of war. Article 33 explains "conditional contraband" as articles liable to capture if shown to he destined to be used for the purposes of a war in progress. Articles 34 sets forth that the destination referred to in the preceding article is presumed to exist if the shipments are consigned to an enemy or the contractor of an enemy. but where these presumptions do not arise.
