How dear to our heart is the steady sub-  
scriber. Who pays in advance at the birth of each  
year, Who lays down the money and does it  
quite gladly. And casts round the office a halo of cheer.  
He never says, "Stop it; I can not afford  
it." I'm getting more papers than now I can  
read.  
But always says, "Send it; our people all  
like it." In fact we all think it a help and a need.  
How welcome his check when it reaches  
our sanctum. How it makes our pulse throb; how it  
makes our hearts dance. We outwardly thank him; we inwardly  
bless him—  
The steady subscriber who pays in ad-  
vance.

The trouble with the average man  
is that his ideals are higher than his  
salary.

Few of us become round-should-  
ered from carrying other people's  
burdens.

Miss Hattie Green of Hamilton vis-  
ited over Sunday the guest of Mrs.  
Wm. Trousdale.

Society has again shaken off its  
sackcloth and ashes and is once  
more on pleasure bent.

We often wonder what has be-  
come of all the men who are going

they once patented.

to compose a sentence containing  
the word "Dynamite." This is the

Sue won't kiss Mr. White, but  
Dina might."

Legendary lore asserts that wo-  
man's privilege of proposal on one  
day in every Leap year was obtained  
by St. Patrick, owing to the lady's  
cajoling. That right is, properly  
speaking, confined to the twenty-  
four hours of February 29, though  
custom has it in later years that the  
whole of Leap Year is accorded the  
privilege.

Constipation brings many ail-  
ments in its train and is the primary  
cause of much sickness. Keep  
your bowels regular madam, and  
you will escape many of the ail-  
ments to which women are subject.  
Constipation is a very simple thing,  
but like many simple things, it may  
lead to serious consequences. Na-  
ture often needs a little assistance  
and when Chamberlain's Tablets,  
are given at the first indication  
much distress and suffering may be  
avoided. For sale by all dealers.

When you consider that this is  
leap year, the shortage in the sup-  
ply of Easter brides is a matter for  
comment. People who know tell  
us that this is an off year, and that  
there will be few trips to Europe  
for the clergy.

In April Canadian Home Journal  
is a short story of which the humor  
and sardonic psychology will be en-  
joyed by the reader, especially the wo-  
man who has had the experience of  
spring sickness in the family. It  
also deals with gardening for ladies.  
The number is one of the most in-  
terest yet published.

When a medicine must be given  
to young children it should be plea-  
sant to take. Chamberlain's Cough  
Remedy is made from loaf sugar,  
and the roots used in its prepara-  
tion give it a flavor similar to maple  
syrup, making it pleasant to take.  
It has no superior for colds, croup  
and whooping cough. For sale by  
all dealers.

People talk about midnight oil as  
if it had some virtue attached to it.  
In truth, four times out of five the  
midnight oil means overwork or it  
means that you have neglected  
some duty which should have been  
attended to before the sun went  
down. Unless each night recovers  
the ground lost in the exertion of  
the day before, you are commit-  
ting suicide at all.

A more delightful holiday than  
Good Friday could scarcely be im-  
agined. It was the first real spring  
day of 1912, and was as welcome as  
it was pleasing. Warmer weather  
was predicted on Thursday, but few  
dreamed that the weather man had  
in his repertoire so fine a sample.  
The day broke clear and the ther-  
mometer jumped rapidly. Over-  
coats were a burden, and were dis-  
carded to the enjoyment of pneumo-  
nia germs and fellows of their tribe.

Of all the festivals in the church-  
es' year there is none as joyous and  
happy as Easter. On Sunday thou-  
sands of hearts offered praise and  
prayer to the Unknown God. Easter  
brings with it all that is beauti-  
ful in the message of love and par-  
don. So, too, it is only suitable that  
all that is beautiful in nature should  
be used to help make more perfect  
the service of that day.

## Common Expressions Od- dly Applied.

"Beaten out of \$5, said a gold leaf  
dejectedly.  
"I hope I make myself perfectly  
clear," said the water as it passed  
through the filter.  
"Experiences like this tend to  
harden one," the egg said as it was  
dropped into boiling water.  
"A little of this goes a long way,"  
remarked the aviator aloft as he  
flicked the ash off his cigar.  
"I'll stay and see the thing out,"  
said the man who was at the dent-  
ist's to have a tooth pulled.  
"I'm against those long hatpins  
for women," the man in the car  
said as he wiped his bleeding jaw.

## CHURCH NOTES.

**METHODIST CHURCH**  
Considering the unfavorable condition  
of the roads and weather the Easter ser-  
vices were well attended. The congrega-  
tions were delighted with the floral de-  
corations. Special music was furnished

ing the beautiful and appropriate solo,  
"Prince Immaculate" at the evening service.

## Lecture on Tuberculosis

The illustrated lecture given in Cham-  
ber's Hall on Monday evening by Mr.  
Watson of Toronto, Field Secretary of the  
National Sanitarium Association, proved  
exceedingly interesting and instructive.  
The great danger of spreading and con-  
tracting this disease which is now known  
as the White Plague and the means avail-  
able for avoiding and treating it were  
vividly described by the lecturer who is  
a fluent speaker and very conversant  
with the subjects. Incidents in the  
hospitals at Weston and Toronto with  
splendid views of the hospitals themselves  
were interesting features of the evening.  
Mr. R. A. McCarter manipulated the  
antern in a most satisfactory man-  
ner. Messrs D. C. Allen and Andrew Mil-  
ler announced the sum of \$6.97 received  
by the collection. The amount was  
supplemented by Wm. Parkinson and  
other friends of the good cause by way  
of subscriptions to that amount, \$50.00  
has been generously given by the people  
of Jarvis and vicinity. The absence of Dr.  
Jaques, the chair was occupied by Rev.  
A. C. Eddy.

## The Deadly Fly

In view of the plague of flies at Ram-  
sey (Huntingtonshire) last summer, the  
medical officer of health (Dr. E. Llewel-  
lyn) in his annual report gives the follow-  
ing as a "reminder for the coming sum-  
mer."  
The fly comes gaily upon us,  
His feet all gummed with poison-ous;  
And, singing clear his song so sweet,  
Alights and cleans them on the meat.  
He gathers scarlet fever spores,  
And leaves them on the walls and floors.  
He is not proud, and oft will stoop  
To carry heavy loads of "gloop."  
And place it where its awful death  
May come and go with baby's breath.

A contemporary says industrial co-part-  
nership is another name for profit sharing.  
In a way it is. But what puts it to every  
severe strain in when there falls to come  
profits to share. While there are plenty  
of profits to share, things usually get on  
well. But it is quite another matter to  
make all concerned enthusiastic in shar-  
ing losses.
