VISIONS.

I see a great stir in an Eastern sky: the fountain is playing in a secluded court; flowers, perfume, rest are here, shoice friends one expected; choice food, wines, and fruits are prepared. Mark the delicate salutations, the refined manners, the stately bearing of the chosen. The servants give rapid glances and silent smiles, but must not be thought to be observers. The subjects of conversation are well chosen. There is gladness, freedom and absence of care. The Bon of Man is an invited guest. The host did not know half the dignity, beauty and fame of the occasion; the elf-centained man thought well of him self as he bestowed patronage upon time he did not understand, and when the quest departed he was considered debtor to the provider of the feast.

Look again at the sacred chest on the marble steps of the Temple precincts. Great men giving great gifts with wonderful complacency; what satisfaction in the mental area, and what a warm contentment.

CO-OPERATIVE FARMS FOR WO-MEN

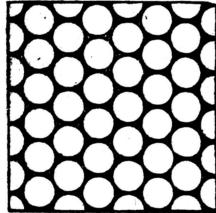

The desirability of establishing women's co-operative farms in the United Kingdom has been seriously considered, and should the present plans mature, the first experimental colony will be located on a farm of 223 acres in Sussex. The breeding and care of horses, cows, sheep, pigs, poultry, and rabbits, the cultivation of fruit, vegetables and flowers; and the raising of ordinary farm crops will be undertaken. It is believed that a ready home market will be found for the products of such a farm, as statistics show that about \$175,000 is annually paid in the United Kingdom for tame (or "Ostend") imported rabbits and nearly \$70,000,000 for butter consigned from Denmark, while the value of imported bacon and pork approximates \$40.-000,000 annually. In addition, millions of dollars are expended each received from abroad.

The movement has this two-fold purpose-to provide young women any of the English over-sea possessions with thorough training in all branches of farming, and also with an adequate knowledge of domestic economy, and to furnish congenial employment in the United Kingdom to members of that increasing body of women who feel a desire to cultivate the land but lack the experience and the facilities for doing so. It will doubtless prove to be not one of the last interesting of the many experiments which are being made to induce a greater number of the English people to turn away from the crowded employments of the cities to the practice of agriculture.-Consular Report

Tells How to Cure Quickly.

"Even when I was young I was not robust and healthy like other girls. I suffered from headaches, and had sort of blue feelings that deprived me of the joyful spirits and pleasures other girls semed to get. After I married I found could not throw worries off like other women, and those dull feelings of despondency and weariness made me very unhappy. There was no cause to feel so and my doctor said my liver was sluggish and this accounted for my poor color, my tiredness, languor and despair. The pills the doctor gave me were too purgative, made me weaker, because they were too active for my constitution. Dozens of my friends recommended Dr. Hamilton's Pills, and they were so mild and helpful. Well, I never used a pill that acted so quietly as Dr. Hamilton's. They were so comfortable to use, I was afraid they might not help. But in a week I knew they had been actively engaged in cleaning up my system. They did the work of a tonic and blood medicine combined. I improved to a marvellous degree with Dr. Hamilton's Fills, and I now maintain the most perfect kind of health by using them just once or twice a week.

It is Mrs. E. V. Erlanger, well known at Gloucester, who relates the above experience. She proved what you and all others, men and women, can provethat Dr. Hamilton's Pille are best for restoring health and best for keeping the system in perfect running order. #### Affinity.

Shall I seek my opposite, In thought and word and deed? And thus make up a composite A cross of thought and creed. Shall I seek a soul like me? Like two peas in a peck, With a flowing tide of sympathy, To beautify her neck.

Or shall I be fully satisfied. With being incomplete;
And have my soul rest satisfied,
By words breathed low and sweet.

Or shall I seek for hidden part Of my own person true,
And let old Cupid launch his dart
And bring the girl to view.

Ah, me, it is a dreadful thing When tides of love run low; And no one on the bank to sing A freshening grace bestow.

They look for money, rank and pride,
And thousands in a year; O, give me just a buxom bride, With face and conscience clear.

They say that love is half asleep,
And taxed with worldly care;
To find we must go very deep
In regions pure and fair. And I will follow simple paths And I will follow simple pains
And time my heart strings strong.
Maybay I'll catch the other half,
And life shall be a song.
