Long hatpins the unprotected points of which project beyond the wearers head, are no longer fashionable. There are indeed, indications that hatpins may be wholly discarded. Queen Mary, just be-fore she sailed for India, gave orders that all her hats should be fitted with the old fashioned elastic cord. None of her hatpins were invited to the durbar.

Who was and is the greatest woman in all history? Two hundred school teachers recently answered the question, and with enthusiasm and unanimity the judges awarded the prizes to the one who made this reply: "The wife of the farmer of noderate means who does her own cooking, washing, ironing, sewing, brings up a family of boys and girls to be useful members of society, and finds time for intellectual improvement."

Rather a grim bit of evidence concern ing liquor selling is furnished by a manuacturer. Seeking in a certain neighborhood for a new situation for his plant, he announced at the start that he would consider only those towns that license the sale of liquor, and would pledge them selves to continue to do so. The reason he gave is that in no-license communities he has found it impossible to get the ne-cessary women and girl laborers. In such communities women do not have to go out to work; their husbands or fathers sup-

Don't let repairs eat up your profits

Whether they represent actual cash outlay, or only the time of yourself and your help, repairs are waste just the same. When you make an improvement—no matter how small its cost may

be let it be permanent. Then it is a real investment, something on which you can realize in cash should you decide to sell your property; and comething that will pay you constant dividends in convenience, sightliness and comfort as long as the farm remains your own.

Concrete Improvements Are Permanent

They last as long as the very hills themselves. They do not require experts to build them. Their first cost, in most cases. is no more than for inferior materials.
