BELFAST DID

Winston Churchill's Speech Was Well Received.

Much Excitement and So on But No Trouble

Charchili Hit in Face With Suffragette Flag.

Belfast cable: Winston Churchill has come and gone with every bone in his body intact after making his advertised Home Rule speech in a tent on the football field to an enthusiastic crowd. There were no hostile elements in this assemblage except a few suffragettes, whose interruptions were made on account of their personal dislike of Mr. Churchill, and were suppresed by the police.

The predictions at bloodshed, which had caused the Government to quarter five thousand troops in Belfast, were not fulfilled. The Orange workmen par-aded the streets in front of the hotel where Mr. and Mrs. Churchill were stopping, both before and after the delivery of his speech, carrying an effigy of the Pirst Lord of the Admiralty and singing Pitish songs, but they did not come in contact with the Nationalists. These he paraded and cheered enthusiastically and sang "The Boys of Wexford" and her Nationalist congs.

There were some hostile demonstra-

tions at Larne when Mr. Churchill arrived there in the morning, and again then he left that place on the steamer the night, but no serious trouble. The wife were booed on several occasions, when a mob attempted to overturn motor ear, in which Mr. Churchill and his wife were going to Celtie Park, the police and detectives, who accomphnied the Cabinet member in other tomobiles, rushed up and quickly disand the rioters.

A drenching rain fell throughout the day, and this and presence of troops bounand, and the disposition of the reple to heed the advice of the Proam any hostile acts, prevented any norder, much to the relief of the Govent and the Unionists, who were holly frightened over the prospects of a tragic outcome of the affair.

Mr. Churchill was again hooted by a tig crowd at Larne to-night, and there yells of "You are worse than ad!" The steamer was sent off th a tumult of groans and hisees. ter Mr. Churchill landed in Stranzaer, otland, a suffragette whacked him in the face with a flag of her organiza-ten, saying as she did so, "Take that, you cur." THE POWER THAT DRIVES THE HUMAN FACTORY

Dr. Williams' Pink Pills Help the Blood and Make You Well.

The human body is the busiest factory in the world. There is no eight hours day, no slack season, no holidays, no cessation of labor at any time. Day and night work is being carried on in the workshop of your body, and it never ceases until the engine—the heart—

stops forever.

The factory of your body has its motive power, without which it would have to close down at once. That motive power is the blood, healthy, rich, red blood which keeps your whole sys-tem efficient and which drives away all diseases that may attack it.

Good, red blood is the chief controller of every action; the source of all the energy you possess. It builds up every substance of your muscles, nerves, sinews and flesh. It removes the waste and poisonous products con-stantly created in your body, which, if allowed to remain set up disease and weakness of every kind. Good blood gives energy and vitality to the nervous system, sesides regulating the function of the stomach, intestines, liver, kidneys and other organs of the body. Briefly, on the purity and richness of your blood the health of your whole

body depends. Often the blood begins to fail and becomes loaded with waste matter and charged with poisons. Then it is that the motive power of your bodily workshop goes wrong, your physical machinery becomes disorganized and you fall ill. You become anaemie; maybe the nerves break down, or you begin suffer from indizestion, neuralgia, gen-eral debility, severe headaches, pains in

the back or side, rheumatism, even paralysis. In all failures of the blood Dr. Williams' Pink Pills are the best known remedy. These pills actually make new, rich blood, which brings health and energy to every part of the body. Thousands and thousands of people, not only in Canada, but all over the world, testify to the truth of this statement. The following is a bit of proof. Mrs. Fred Stricker, jun., Moosefield, Ont., says: "A few years ago I was a physical and nervous wreck, I had pains throughout my whole body. I had no appetite and tuting in their places public amusement

my stomach felt as if there was a big lump in it. The least exertion would make my heart beat violently, and I would be attacked with trembling spells, and such a weakness that my breath would come in gasps. I was under a doctor's care for nearly two months, but er in the streets outside, and no one got very little relief. I then tried other diging credentials. During the confer-crites the crowds could be heard sing-ing the National Anthon The Confer-Pink Pills and this was the first medieine that reached the root of my trouble. After taking the pills a few weeks in an orderly manner. They did so I was much better, and by the time ? had taken ten boxes I was entirely recovered. I now always keep the pills in
