The way we feel about it—to offer the public the opportunity to transact business under a Warrantee as to worthiness and values on the basis that all goods and service are sold only upon condition that either party to the transaction is at liberty to annul the sale, within a reasonable time by return of goods or money, relying wholly upon the untesting of honor and justice.

To promote in every possible way confidence between buyer and seller, to the end that they may be equally indispensable—one to the other.
