Feb. 21st was Ash-Wednesday,  
and a certain number will crucify

Surely there are enough publish-  
ing houses in Canada to supply the  
Sunday Schools of this country with  
Sunday school papers. At present  
the majority of the schools here are  
flooded with American publications.  
They cover the ground, no doubt,  
so far as the lessons are concerned,  
but these miscellaneous contribu-  
tions, and the stories and biograph-  
ical sketches, are unmistakably of  
American origin. It is high time their  
influence on the plastic mind of the  
children was challenged.

It seems to be the easiest thing

For instance, you could resolve  
to be kind in your dealings with  
everybody during Lent. It would  
be quite a sacrifice on your part, no  
doubt. Still, it's worth your while.

Don't feed your hens moldy grain.  
A hungry hen may eat such rot,  
but in the morning may be not,  
while you who sought thus to save

A despatch from St. Catharines  
says:—A forerunner of the cost of  
canned goods for the coming season  
is apparently set forth in the present  
contract prices the factories are  
making with the growers. For to-  
matoes thirty cents a bushel is the  
prevailing figure; last year it was  
twenty-five. Strawberries are 1.40  
a crate; before \$1.25. Raspberries,  
\$2.25 a crate; before \$1.85. Peas  
are \$34 a ton, while corn is \$8 a ton.

Ernest Meldorf, who has been en-  
gaged as miller at the Jarvis grist  
mill for over three years has severed  
his connection there to accept a  
similar position at Ailsa Craig. Dur-  
ing Mr. Meldorf's residence among  
us he has not only earned the honor  
and respect of his employer and  
mill hands but he has won the es-  
teem and confidence of all with  
whom he came in contact and we  
recommend this trustworthy young  
man to the people of Ailsa Craig.  
Mr. Meldorf was in Craig this week  
and while Mrs. Meldorf and babe are  
spending a few days in Berlin. We  
are indeed sorry to lose this estim-  
able young couple from our village  
but we join with the many friends  
in wishing them every happiness  
and prosperity in their new home.  
Mr. Meldorf's successor will be Mr.  
Attwood of Millbrook.

We are afraid the winter wheat

the way to have good neighbors was  
to be a good neighbor yourself. And  
we believe the man was right.

Monday's weather was one of  
those delightful little surprises that  
the weather man springs on us all  
too frequently. He is quite a joker.

Miss Alice Britton of Bridgen is

Mrs. E. T. Carter is in Hamilton  
this week. We understand Mr.  
Carter is getting along nicely and  
that he will undergo another opera-  
tion at the week end.

Mrs. Frank Ross, after an extend-  
ed visit here with her parents, Mr.  
and Mrs. Wm. Chambers, and other  
friends, left to-day on her return  
journey to her home in Notre Dame,  
Sask.

It is curious how prone many are  
to go "up in the air" on the slight-  
est provocation. Once and again,  
the changes are rung on the pro-  
spect of a coal famine, milk famine,  
bread famine, etc., and yet none of  
us as yet has starved or frozen to  
death.

If there is a sunny side or a bright  
side or a clean side to a man's char-  
acter we should see it during Lent-  
en season. If a man can't take time  
to do a little self-examination and  
to practise a little self-control or  
self-sacrifice during Lent, he is al-  
most past praying for.

Misses Veta McMurphy and Hat-  
tie Meill of Garnet were in Toronto  
last week. While there they had  
the pleasure of hearing the Schu-  
bert choir. They also attended  
Toronto Symphony Orchestra and  
listened to the great Virtuoso Vi-  
olin player, Kubelik.

Indecision is a besetting sin of  
mankind. To it may be traced prac-  
tically all of the disappointments  
visited upon us. We have opportu-  
nities but we fail to embrace them.  
We wait for a more convenient time.  
We fancy that something better  
may be presented to us later on.

The happiest people in the world  
are those who endeavor to make  
others happy. He that gives a cup  
of water to cool the fevered brow,  
in the spirit of love, gives more and  
greater happiness than he who  
gives of his abundance to receive  
glory of men. The most unhappy  
people are those whose selfishness  
is greater than their charity.

Hitherto, this winter, the railways  
have enjoyed practical immunity  
from weather interruptions to traf-  
fic, but old Boreas set out to make  
up for lost time, and from all over  
the country come reports of trains  
stalled and running late. Snow  
plows and snow shovels are in de-  
mand, and in many places the coun-  
try roads are completely blocked.

Few realize the problem what can-  
cer has become in American city life.  
More people now die of cancer than  
of smallpox, typhoid fever and all  
the other infectious diseases put to-  
gether. About one in thirty of all  
the deaths is due to this cause. It  
is not that cancer is more frequent  
than it used to be, but one-fifth  
more people are alive beyond the  
age of fifty than even a generation  
ago. Every year added to life in-  
creases the chances of termination  
by cancer. Owing to progress in  
sanitary science more people now  
live to the cancer age.

When the golden days of youth  
have fled; when the skating rink,  
the sliding nights on the hill, and  
the sleighing party with the follow-  
ing dance, fail to allure, then has  
much of the romance of winter de-  
parted. There is no consolation  
in leaving warm beds when night  
has hardly yet departed, to dress in  
a semi-frigid atmosphere; the icy  
pavement is a temper destroyer, and  
much rubbing of ears tends to pro-  
fanity. Yet after all, the winter  
season is beneficent. But little more  
than two months embrace the sever-  
est weather. Nature is but  
sleeping, resting, and will wake  
soon, clothing herself in brilliant  
green and bedecking herself with  
flowers of rainbow hues; the earth  
also will be tickled, and will smile.  
And we fickle mortals will rejoice  
with her, straightway forgetting the  
ice and the snow and the frost-laden  
winds; we will be willing to swear  
that this particular section of Can-  
ada possesses the finest, most invig-  
orating climate on earth. And we  
will not be far wrong.

Geo. Veigel left to-day for the

County Council will meet on  
Tuesday next, the 5th March.

Everyone was doing it Sunday.  
Doing what? Shovelling snow.

What a smothery feeling it is to  
get in up to the waist in a snowdrift.

The weather sharp might now tell  
us whether March will march in in-  
sheep's clothing or in a lion's skin.

You are invited to our Spring

Rally after the Sunday services.

### Literary Meeting

The first Canadian evening under the  
auspices of the United Literary Society,  
on Friday evening of last week, proved  
one of the most interesting of the series.  
Mrs. (Dr.) Jaques gave the introductory  
address regarding Canada's physical fea-  
tures, resources, etc. Dr. Jaques dis-  
cussed in an able manner the origin,  
tribal, divisions, history and character-  
istics of the Indians. Mr. Eddy spoke of  
Totemism and the Indian's native religion.

Mr. Eddy's address was supplemented  
by a very interesting description of In-  
dian life and beliefs by R. W. Smith, who,  
having travelled extensively in the far  
north, spoke of what he had himself seen,  
bearing testimony, among other things,  
to the devotion of the Roman Catholic  
missionaries among the Indian people.

Mrs. Arthur Porter gave an interesting  
account of the life of the Indian Chief,  
Tecumseh; while John Parsons, jr., ac-  
quainted himself well in an address on Jo-  
seph Brant. The Discovery of Canada,  
the French regime and the characteristics  
of the French people was the subject  
signed to Dr. Howell. The doctor used  
the blackboard in his address and his re-  
marks were closely followed throughout.

The musical part of the program consisted  
of a duet, "Speed Away" by Misses Shir-  
ley Rodgers and Ethel Snyder which was  
accompanied by Miss Verna Walter.

accompanied by Miss Verna Walter.

Mr. Eddy's address was supplemented  
by a very interesting description of In-  
dian life and beliefs by R. W. Smith, who,  
having travelled extensively in the far  
north, spoke of what he had himself seen,  
bearing testimony, among other things,  
to the devotion of the Roman Catholic  
missionaries among the Indian people.

Mrs. Arthur Porter gave an interesting  
account of the life of the Indian Chief,  
Tecumseh; while John Parsons, jr., ac-  
quainted himself well in an address on Jo-  
seph Brant. The Discovery of Canada,  
the French regime and the characteristics  
of the French people was the subject  
signed to Dr. Howell. The doctor used  
the blackboard in his address and his re-  
marks were closely followed throughout.

The musical part of the program consisted  
of a duet, "Speed Away" by Misses Shir-  
ley Rodgers and Ethel Snyder which was  
accompanied by Miss Verna Walter.
