January 26th 1912.
Council met pursuant to adjournment. Members present were Lewis, Carter, Allen and Booth. The Reeve Mr. Holmes was detained by the storm.

Allen-Carter-That Thos. Lewis act as chairman in the absence of the Reeve.—Carried.

Allen-Carter-That Messrs Booth and Lewis be a committee to carry out the provisions of the snow by-law with power to engage any person or persons to assist in having the snow removed from the streets as provided by the said by-law.—Carried.

A by-law to appoint a clerk and treasurer for the ensuing year was read a first, second and third time and duly passed appointing C. E. Bourne as clerk and Jas. Noble, Treasurer.

Carter-Allen-That this council adjourn till the 27th of January.—Carried.

Thos. H. Lewis, C. E. Bourne, Chairman, Clerk.

Hicks' Forecasts for January.

A regular storm period, central on the 7th, covers the 10th to the 9th. This period under the Venus influence, promises to take up the disturbances immediately preceding it, causing a prolonged spell of stormy, disagreeable weather. The period will culminate on and touching the 9th, in possible thunder and rain, with high north gales. A very low barometer at the first stage of these storms will be warning of a great and far-reaching cold wave, which will prevail generally, and far into the south, from about the 9th to the 12th.

A Reactionary storm period is central on the 12, 14 and 15, at which time the general cold will relax, the barometer will rise and conditions with rain and snow will be common across the country. Prolonged clearness and threatening weather will follow this period, as a result of the Mercury and Mars conjunctions. A regular storm period covers the 17th to the 21st, central on the 19th, with heavy rain and snow.

The Mercury period is central on the 21st, and the Mars period will also begin its present phase at this time. The moon will be in opposition to Saturn south declination. Watch your barometer as this period develops. If it falls to very low readings, severe winter gales will surely follow; rains will mean to decide active slush, blizzards will rush down from the north, and a furious cold wave will wind up the season, about the 25th to 26th. Don't forget this period, or neglect such precautions as we might save you great suffering and loss.

As seismic wave will pass through many parts of the earth within three or four days of Friday the 19th. The Mars influence of the 19th, and the weather will "set the pace" for storm and weather for six or eight weeks to come. In the meantime the same general character of stormy weather prevailing at this time will be characteristic of storms and weather through February and far into March.

Women's Institute

A few evenings ago, over the ice and snow a way we flew, a mile or two To a country home to have some fun.

A supper given for the sociability of the members and their families to meet and spend a pleasant evening at the home of Joseph Aude, Sandusk, on Friday evening, Jan. 5th, 1912. On arriving we found about 50 guests. Tables were set with all the delicacies of the season and decorated with prim roses. After the guests had done ample justice to the good things provided the program for the evening, on behalf of the Institute, spoke at the ladies work in the Institute. The Misses Westerber's furnished music on the violin and piano. Miss Nina Pond gave a recitation from a Santa Claus, while Miss Thompson favored us with a couple of solo. Ivan Aude rendered two piano solos. Mr. Peacock from the Northwest, N. McCarty, Wm. Terry and John Walker complimented the ladies on the excellent supper. Mrs. Byron Pond moved a vote of thanks, seconded by Mrs. Westerber, to Mr. and Mrs. Aude for the use of their home. J. E. Pond gave a short speech, and after a vote of thanks had been tendered the Institute all joined in singing the National Anthem.

A lady present writes the following remarks, regarding the Institute: "Their motto being for Home and Country, their work and aim for the improvement of their homes and ennoble the minds of the boys and girls. To do this the ladies must have some help and encouragement from their husbands. Do husbands appreciate what their wives do for them, the rearing of children, keeping and doing for the home. Wives have duties and cares a husband can lighten—a kind word costs nothing, and a word of praise makes a load of care fade away like a snow bank in the spring. Men have great influence over children, can see the mother spending steps on them that can be saved by encouraging children to being helpful in the home. Duty in a home keeps a woman indoors. Does she need recreation? Does she need rest? Many a silver piece or a dollar could be saved if a mother could feel she had time to rest the mind and body from the daily routine of a home. Give her a rest or send her away for a change, she will come back more cheerful, the mind and body refreshed to take up the cares of life. Life grows monotonous with no change, no outside brightness to keep the mind awake to what is going on about us. Men have their outings—driving in the air, meeting neighbors and friends—and a much better chance to be healthy than the woman in the country. Ventilation is good in the home, so also is the rest cure and the little outdoor sunshine drives away irritation, floods and care. Homes would be better if both men and women would try and ennoble their own minds as well as the children and the country will be better when duty is made a pleasure not a grind—grind with work all the time.

A fast young man moves faster on a down grade.

Sandusk

Hair That Fascinates.

Who Wants Lustrous Hair Full of Life and Beauty?

Start now madam, this is just the month to begin to acquire a glorious head of hair of which you will be justly proud during the social events of wintertime.

If you haven't used Parisian Sage you aren't on the high road to hair beauty. Parisian Sage is the most delightful preparation that destroys the dandruff germs and by so doing removes in a short time the cause of dandruff, falling hair, itching scalp, faded and lifeless hair.

Dandruff germs are obstructionists; they prevent the hair from receiving its proper nourishment by rovenously destroying the same. Use Parisian Sage for one week and note the wonderful improvement. T. E. Morrow guarantees it, 50 cents a bottle.

There is seldom any money in a hand.
