FIERCE ATTACK ON AN ITALIAN COLUMN to Neglect the

Large Body of Turks and Arabs Fall on Men on the March.

Tripoli, Jan. 22.—A terrific attack | should the Turkish troops be withdrawn Arabs yesterday on an Italian column which was on the march about ten miles from the town of Tripoli. The Italian troops, which consisted of detachments of all arms, left Tripoli early in the morning on the way to Ghirgarish, a small oasis situated about 15 miles along the coast to the west of the town, and surrounded by a number of Turkish forts, which had hitherto given shelter to Arab irregulars. Suddenly, as the soldiers were marching along the road, which runs parallel to the coast, they were attacked in a series of onslaughts by a large force of Turks and Arabe.

The Italians immedately took up position and threw up field entrenchments. The enemy continued its attacks throughout the day, but finally retired. Details of the losses have not yet been reported

TO MARCH INWARDS.

Tripoli, Jan. 22.—The military situation in Tripoli during the past month has to all appearances not undergone any change. All the fighting that has occurred has been begun by the Turks, who have repeatedly attacked the Italian troops at different points, and have just as often been repulsed.

As a matter of fact, however, the Italian commanders have been using time as an ally. They have been busily engaged in strengthening the positions held by their troops and preparing for a great advance into the interior.

Transportation plans on an enormous scale have been gathered together here and material for the construction of a railroad into the desert is arriving in

large quantities.

The only possible danger of the plans of the Italian staff being upset is that peace may be declared at an early date. The Arabs do not understand the reasons for the Italian delay, and they are impressed with the idea that the Italian army is unable to encounter effectively the insignificant number of Moslems op-posing "Under the circumstances even

Tunis, Jan. 22.—Some Italian destroy ers to-day seized the French steame Manouba, bound to Tunis, from Marseil les. The Manouba is a mail boat, be todging to the French Line. The steamship company declares that the Manouba was not carrying contraband of any kind. In spite of this the vessel was arrested and taken to Caglaari, in Sardinia.

Chinese Republicans' Offe to Yuan Shi Kai.

Fighting May be Resumed on January 28.h.

Nanking, China, Jan. 22.—It appears now to be absolutely certain that lighting between the revolutionists and the imperialists will be resumed on the morning of January 28th, unless Premier Yuan Shi Kai concedes the demands of the republican government.

A most important step was taken by the Republican Government to-day, when it telegraphed an ultimatum to Premier Yuan Shi Kai at Peking. The terms of the document are very drastic and are substantially as follows: In the first place the abdication of th

throne and the surrender of the sovereign powers are demanded. In the second place no Manchu

participate in the provisional government of China In the third place the capital of the provisional government cannot be estab-

ished at Peking. In the fourth place Premier Yuan Sh Kai cannot participate in the provisional government of China until the republic has been recognized by the foreign pow-ers and the country has been restored to

peace and harmony. To-day's decided action by the Republican Government is due to Premier Yuan Shi Kai's demand that Dr. Sun Yat Sen resign the presidency, permitting Yuan Shi Kai to exercise sovereign powers until the National Convention, which is to be called to decide upon the form of government of China, shall have reached a conclusion. In the meantime, Premier Ynan Shi Kai desires the court to retire emporarily, transferring its powers to

The court, however, objected to leaving Peking until the National Convention had reached a decision.

Otawa despatch: To have the story f his tragic death by freezing spread about and currently believed and to come out of the bush and find coffins awaiting for the bodies of himself and his companion was the somewhat unique experience of William A. Muir, formerly of this city, who was reported last week as having lost his life with a companion named Joseph Legault, on Night Hawk Lake, in the Porcupine country. Muir has joined his wife and children at their home in Haileybury and his relatives in Ottawa to-day received a letter from him in which he describes his experience and tells how the etory orig-

Murr says he and Legault were on their way into Thomas township with a toboggan loaded with provisions. The thermometer stood at 51 below zero. They met another prospector, Dick McGregor, who was coming out with his face badly frozen. McGregor advised the two men of the danger of making the journey, but being experienced prospectors they decided to go on to their camp. Next day an indian crossing the lake came upon the bodies of two sleigh dogs which had died of the cold. They were partly covered with snow and the Indian assuming that they were human bodies made no further investigation. He met McGregor and related his story of the finding of the frozen bodies of two men. McGregor naturally concluded that the bodies were those of Muir and Legault and the report rapidly spread through the mining country.
