Night calls, 6th house south of Bank of Commerce

You can buy a ton of steel for twenty-eight dollars. But a ton of steel made into watch springs is worth twenty-eight thousand. The difference? A matter of refinement. Ford Vanadium is the most highly refined steel used in automobile construction—lightest—strongest—safest.

More than 75,000 new Fords into service this season—proof that they must be right. Three passenger Roadster \$775—five passenger touring car \$850—delivery car \$876—f.o.b. Walkerville, Ont., with all equipment. Catalogue from Ford Motor Company, Michigan and Fourteenth streets—or direct from Walkerville.

J. H. Head, Ford Agent Hagersville.

Cheapside

Miss Mousinger, and niece, Jean Mousinger, are spending a few days with friends at Gainsborough and Vineland. The farmers are all busy haying. Mr. Carsons, of Aurora, is visiting with his wife and little daughter at the home of her sister, Mrs. Caldwell Armstrong. Miss Myrtle and Cecelia Fulson, of Toronto, are spending the holiday season with their mother, Mrs. Frank Fulson and family. The remains of the late Andrew Stewart were brought from St. Thomas, Saturday by his son, Adam Stewart, for service and interment at the Baptist cemetery. Rev. Bellamy preached the sermon.

Springvale

Ross Keener returned last week from a few months' sojourn in the west. Mrs. Dickenson of Toronto was a visitor at West Lawn during the week. Word has been received that Miss Cora Howard has arrived at Rapid City, Man. Miss E. King of Birch is a guest of her sister, Mrs. Henry Weidrick. Mr. and Mrs. W. Duxbury and son left last week on an extended visit to the Prairie Province. The regular meeting of the Women's Institute will be held at the home of Mrs. Harry Rowland on Thursday afternoon, July 11. Dr. Minnie McDonald will address the meeting. The members will please note the change in the date, July 11th. Mr. and Mrs. E. J. Bell and family, of Detroit are visiting at the home of Mr. S. A. Gray, and calling on friends in this vicinity. After a short stay in Glandorf and Hamilton, they are leaving for the North-west and will make their future home in Los Angeles. News of the terrific cyclone at Regina has stirred our citizens owing to some of them having relatives in the stricken city. Edward Roach has telegraphed his safety, but Mr. Clare Slack is reported badly injured. His father left for the scene of the disaster Tuesday.

Sandusk

Robert Hill of Pennsylvania visited with his brother Joseph Hill last week. Mrs. John Awe returned to her home in Springvale on Sunday after spending two weeks in this burg. Quite a number attended the Fisherville Garden Party last Thursday night. Thos. Westery visited friends in Nanticoke last week. Mr. and Mrs. Wm. Webb of Nanticoke visited Mr. Geo. McBarney on Sunday. Mrs. Nixon of Nanticoke visited with Mrs. Joseph Hill last week. Mrs. A. Young and children of Verney spent Sunday with Mrs. C. Johnston. The regular meeting of the Women's Institute met at the home of Mrs. A. E. Slater on Friday afternoon of last week. After the business part was over a programme was given consisting of readings by Miss Margaret Allen, of Jarvis, Miss Ruby Peacock, Mrs. Jas. Hewitt and Mrs. Geo. McBarney. Mrs. Jos. Peacock gave a very interesting report of the convention which was held at Cayuga recently. Misses Grace Lewis of Jarvis and Gladys Hewitt delighted the hearers with piano duets and instrumental music was given by Misses Annie B. Westery and Audrey Slater, after which the hostess served a dainty tea. It was decided that the next meeting would be held at the home of Mrs. B. Pond's on the first Friday in August.

Nanticoke

Mrs. H. C. Ross, Jarvis, has been visiting her parents, Mr. and Mrs. J. C. Howey for the past two weeks. Miss Lizzie Hallam and nephew, Hamilton is visiting her brother, J. T. Hallam. J. C. Ross has sailed for England. He intends spending two months of his holidays visiting some of the important places in the old land. The annual strawberry festival of Christ church was a great success. Mr. Pigott excelled himself. The proceeds for the evening were \$114.25 clearing about \$60. Two more automobiles have been added to our list, Mr. J. C. Howey and F. C. Smith being the owners. The Garden Party held on the English church grounds on Wednesday evening last was attended with great success. The evening was an ideal one and people for miles around took advantage of it. The grounds were illuminated and the tables were well filled with abundance of good things and judging by the happy contented faces all enjoyed the beautiful repast. A good program was given, the principal attraction being Eddie Pigott, the comic vocalist and entertainer. Mr. Pigott, though a stranger to Nanticoke, was not so to a great many of the audience. As a comic vocalist he is the best ever seen here. His jokes were laughable in the extreme, his Scotch and Irish songs exciting roars of laughter. The patriotic address by Rev. Mousinger and the address and reading by Rev. Ruby were both interesting and instructive. The selections by the choir and the solos by Misses Eva Thompson and Lillian Jackson were well rendered and greatly appreciated. Rev. K. A. Brett made a splendid chairman. The proceeds amounted to over \$110.

Hicks' Forecasts for July

A reactionary storm period is central on the 14th, 15th and 16th. The oncoming Venus period blends with that of Mercury at this period. The Moon is also at perigee and new on the 14th. Very warm weather, low barometer and blistering menacing storm clouds will result at this time. The hygrometer will indicate unmistakably whether much rain will fall during these storms. A few days partial relief from summer heat will come, with rising barometer and the eastward passage of these storms. The 14th is the day of a seismic period, extending from the 11th to the 17th.

A regular storm period covers the 19th to the 24th, being central on the 21st. Falling barometer, high temperature and storms will develop in western sections at the beginning of this period. The Venus influence and the Moon being on the equator on the 18th, will insure thunder storms on the next to that date. The 22nd, 23rd and 24th, will bring a culmination of blistering, ominous storm clouds, with violent summer gusts of wind and local showers in scattering localities. Those who have been students of our forecasts for any length of time, know that extreme high temperature, with vicious lightning and thunder, are characteristic of the Venus periods. Look for such phenomena at the first stages of this period, followed by a drop in temperature that will be very grateful to sweltering humanity.

For soreness of the muscles, whether induced by violent exercise or injury, there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by All Dealers.

Bad \$4 Bills At The Falls

The public should be on the lookout for bogus \$4 Canadian bills. They are plentiful in the neighborhood of Niagara Falls where the banks have notified the merchants concerning them. Up to the present none of the Toronto banks have received any of them nor has the Receiver General been notified of their appearance. The editor of the Momentary Times has received a telegram from the Falls announcing their arrival in that district and advising excursionists to exercise some judgement before accepting any paper of that denomination.

Death of Percival McMann

Percival McMann died at the home of his brother, Geo. McMann, south of Waterford, on Sunday June 30th, after an illness of over six months with cancer of the stomach. Mr. McMann was born at Rockford and has always lived in Townsend Township. He never married and during the past twenty five years has made his home with his brother, George. The family has the sympathy of a large circle of friends. The funeral was held at the residence of Mr. Geo. McMann on Tuesday afternoon. Interment took place in Greenwood Cemetery.

Easy To Get Rid Of Dandruff

Dandruff means that down near the roots of your hair there is a vast army of little invisible germs or microbes.

And this little army never sleeps; it wages a war of destruction night and day. It destroys the nourishment that the hair must have in order to grow vigorously and abundantly.

PARISIAN SAGE now sold all over Canada will destroy these germs and at the same time furnish the hair roots with just the proper nourishment to make hair grow lustrous and luxuriant.

PARISIAN SAGE is guaranteed by T. E. Morrow to banish dandruff, stop falling hair and itching scalp or money back. It is a delightful hair dressing that was instantly favored with refined women. Sold for only 50 cents a large bottle by T. E. Morrow and druggists everywhere. (Girl with Auburn hair on every cartoon and bottle.)

L. E. Wedd, manager of the Bank of Hamilton, Simcoe, has been appointed district inspector with head quarters at Hamilton. He is to be succeeded by Mr. Herbert L. Selby, from the Hagersville branch.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by All Dealers.

Donald McLeod, of Tillsonburg, who two weeks ago, pleaded guilty to having on two occasions overturned and broken a number of tombstones in Delmer churchyard, has been examined and declared insane by two physicians, at the County goal. He will be brought before Judge Finkle, who, it is expected, will commit him to an asylum.

The achievements of the aeroplane are becoming more and more remarkable. The other day an aviator in Germany made a distance of 330 in 395 minutes—a great record for so long a flight. An incident is just reported showing the practical uses to which the machine may soon be put in every-day life. Near Bath, New York, a physician was hurrying in an automobile to attend a lad with a fractured skull, when his conveyance broke down. A pupil of the Curtis aviation school happened to sail by, and was called to earth by the doctor, who explained his difficulty, and was then carried through the air the remaining ten miles of his journey in six minutes—that is at a speed of 100 miles an hour. What would our ancestors have thought of either automobile or aeroplane on such an errand?

What we can do for another is the test of powers, what we can suffer for another is the test of love.
