Hamilton's Favorite Shopping Place.

July Clearance Sale Now In Full Swing

Everywhere in The Right House prices have been reduced, from the Furniture Section on the 5th floor to the China and Household Sundries Section in the basement—five whole, big floors of first quality merchandise at once-in-a-year-prices.

Just In

Another big shipment of fine verandah Furniture has just arrived. It was ordered earlier in the season and was to have been offered at regular prices. Delayed in transit, however, it has only just come in—right in the midst of the July Clearance Sale—and will be placed on sale at the regular sale reductions. In the lot are some very fine, comfortable Rockers and Easy Chairs of Solid Oak Frames with fine Cane backs and seats. Stained a rich Green. These you may purchase at from \$3.59 up.

Soft Oriental Rugs Cheap

Remember when The Right House advertised the sale of the last shipment of these Rugs? They disappeared almost in a wink, so great was the demand for them. Another lot has just come in—just as good as the first, beautiful, soft, reversible Rugs in Oriental designs with true Turkish colorings in Blue, Red, Green and Brown, made by the peasants of North Austria. You will be surprised at the low prices.

For example, you may have a rug 1 ft 2 inches by 2 ft 3 inches, regularly worth 40c for 28c and so on up to a rug 9 by 12 ft, regularly worth \$14.50 for \$9.95.

Railroad fares refunded on a very liberal basis, according to the amount of your purchase.

PHOTOGRAPHY IS A MIRROR

Which held up to life, throws back a permanent reflection. Just as a poor mirror gives a distorted likeness, does an inferior photograph liberal its original. Good mirrors cost a little more money, so do artistic photographs. Art in photography is simply the truthful reproduction of nature, that my photographs show at least a fair measure of artistic merit is due simply to an ability to cause the sitter to momentarily forget the camera.

Crop Rotation and Soil Cultivation.

There has recently been received from Ottawa a pamphlet on crop rotation and soil cultivation. It embodies an address delivered by J. H. Grisdale, Director of Experimental Farms, during the past Session of Parliament before the Standing Committee of the Senate on Agriculture and Colonization. At the outset the point is made that crop returns depend on soil and soil management. The pamphlet then goes on to deal with soil functions, requirements of crops, rotation, cultivation, moisture warmth, plant food, cultural operations and implements. These subjects are subdivided until the field of successful crop growing is well covered. Under crop rotations, seven are described and explained. The three year rotation—hoed crop, grain, hay—is highly recommended, more especially for farms that include considerable areas of rough land fit for pasture, but not available for crop production. Farms that are mostly arable are better served by a four year course which adds one year's pasture to the three year rotation mentioned. Any of the seven rotations described, if carefully followed and the cultural operations therewith performed at the right time and in the right way, are claimed by the author, to increase tremendously the crop production of any given farm, and at the same time increase but slightly, if at all, the cost of production. This pamphlet which covers thirteen pages, is available to all who apply for it to the Publications Branch, Department of Agriculture, Ottawa.
