Everybody is entertaining when he writes about himself, because he is discussing a subject in which he is vitally interested—whether he understands the theme is another thing.

For soreness of the muscles, whether in duced by violent exercise or injnry, there is nothing better than Chamberlain's Liniment, This liniment also relieves rheumatic pains. For sale by all dealers.

County Council

Council met at call of Warden on July 18, 1912, pursuant to adjournment. All present. Minutes of last meeting read.

Walton-Foster, minutes be adopted as read.—Carried.

Following communications read from Wm H. Smith, and Clerk of Milton Co.

Roulston—Pyle—Messrs. McBurney, Holmes and Patton be Committee on Communications.—Carried

Pyle-McBurney—Adjourn to allow different committees to meet.—Carried.

Pyle-Avery, that report of County Roads Committee be received and read.—Carried.

To Members of County Council.

Gentleman,—Report of County Road Superintendent accompanies this. We recommend that no action be taken in the accident reported on Road No. 1, Canboro We purpose purchasing a gasoline tractor from the International Harvester Co. of Hamilton, 25 h.p., at $2,000, also a train of Spreader Wagons to be used with the tractor. Respectfully submitted.—W. D. Roulston. Chairman.

Chairman Co. Roads Committee.

Report No. 2. Sirs,—For the period since meeting of April 26, at which I received my appointment, I report as follows

Of the 40 Divisional Maintenance Foreman I have met and appointed 32 and have had acceptance of positions from two more. It takes considerable time in making these appointments and so arranged with Reeve Pyle to accompany me to take options on quarries at the same time. Mr. Parsons came through part of Walpole with me and the following quarries or fields that could be developed into quarries were secured by option: Phillips quarry, in tp. of Dunn, in close proximity to Byng for $500, or for $1,200 with a Sawyer-Massey crusher of the portable type and with a 10x16 in. jaw opening. This is a fully developed quarry with stone of firstclass quality in the bottom. The crusher is in good order and might be used to advantage in crushing stone on roads. This quarry is one that could be made to produce just as fast as equipment could be installed and will pay the County to own. There will be some 15000 yards at least needed in this vicinity. Next is a field with a stone outcrop that could readily be developed as the surface stone is suitable for road-building. This is on the property of Oscar Culver in tp. of South Cayuga, on upper side road. This is under offer for $100 for one acre of land. Next is a similar outcrop on the lands of W. Adams, tp. of Rainham, Town line road. Precisely the same class of stone and ½acre is offered for $80. More could be arranged for at this rate or possibly a little better. Next is an outcrop on the lands of J. Williamson, which has already been used by Tp. of Walpole on road construction. This would not be quite so easily developed as some of the other outcrops, but could be handled to save money over the cost of crushed stone carried by rail: $100 an acre. Next is an outcrop on the lands of C. P. McCarthy, who has suitable stone in a creek bed. $250 an acre which I consider too large a price. Next on property of Mr. Fleming at Nelles Corners which can be got for about the price of an acre of the best land in Tp. of North Cayuga, together with a right-of way. Another on lands of A. Knisley at Nelles Corners; which is the lower stratas would be suitable but it is overlaid by some 7 ft. of soft stone, nearly pure lime. $100 per acre, but requires further investigation as it would be expensive to develop. Other quarry optioned was at DeCewsville on property of P. Kinnear. This is an old quarry and it could be readily developed, but I would like an opportunity to have this stone thoroughly tried before recommending its purchase It is about 2 acres extent and could be had for $150, present owner being allowed timber (pine) which is now standing. There is good stone at Balmoral and is almost essential that a quarry be secured at this point, but I have so far been unable to secure an option. I spent one day on County York Roads, one day at Hamilton with Mr. Taylor. I have purchased the necessary books for keeping the Road accounts, together with the necessary rubber stamps and a supply of time books which will be forwarded in a few days. I may say that the maintenance of the roads is costing rather more this year than will probably be the case next year, owing partly to the want of organization at the time when the work should have been commenced, as well as to the unusual season. I have the honor to be, Sir, your obedient servant,

Alan Mair Jackson, Co. Engineer.

Report No. 3

Chairman County Roads Committee.

Sir: For period of 3 weeks since last meeting of Council, May 23, I beg leave to report as follows: Of the 40 maintenance foreman recommended by various Reeves, 38 have accepted, and 2 namely, A. McMurchy and Thos Harrop, have refused on the ground that $1.75 per diem for a man is too small a wage. As this rate has been accepted on all except these two divisions, I have not felt justified in raising the price. As the roads on these two divisions are at present in good order I propose postponing appointments here. Foremen have been supplied with time books. It was intended to start construction out of Hagersville about middle of May, but owing to the fact that graders were not forthcoming and later to the fact that the class of wagons required could not be obtained, this was not done. A start will be made on 17th inst., and I have a foreman for this gang, John Lampman, Hagersville, now preparing to start work. Owing to the fact that Hamilton Machinery Co. were not able to deliver spreader wagons sooner than 3 weeks from date of order, I sent them an order for only five spreader wagons to be delivered to Dunnville, in the time mentioned and ordered the other five from Sawyer Massey Co., for Hagersville gang, these have been shipped. The difference in price for wagons, both equipped with 4 in tires, was $5.50 each, and I believe the County would rather pay this advance than wait a further 3 weeks. In addition to quarry outfit about to be erected by J. I. Case Co., it will be necessary to equip quarry recently purchased at Byng with a derrick and horse power, as well as a battery and some 200 feet of wire and exploders. I have a foreman, Geo. Greves engaged, who is building a magazine, clearing a site for machinery, and preparing quarry work. I propose purchasing a ton of 40% dynamite, as I believe it will be more economical to handle this amount than any other. I will arrange for a team to go to Hamilton for it. The other quarries may later on be supplied from this magazine With regard to derrick, housepower and battery required, I would request that County place $250 to my credit in the Bank, so as to be able to make emergency purchases. I undertake to produce correct vouchers for any expenditure and to render a statement when required. In this way I could make a purchase of second-hand equipment for quarry, that would save the County a great deal of money. It is for use in matters where the delay of a Committee meeting would lose an opportunity and it would also enable me to have money to meet freight and urgent payments. I enclose a deed of the Byng quarry and bill of sale for crusher, both in duplicate, for registration These are correct, and as both have been handed over to me, payment should be made to Mr. Phillips. I trust the Council will decide at once on matter of insurance of men, as a considerable number are now working for County on Maintenance Divisions and the construction gangs are being assembled. I have written to Mr. Parsons, Chairman of Committee, on this matter. In the matter of stone for Hagersville work I purpose to purchase from Hambleton quarry and pay on monthly bills of stone used unless County desire to enter into some form of contract. Price for stone from this quarry is little less than from Hagersville Con. Co., being 65c. for 2, 3 and 4 in., and 75c. for 1 in. and chips. I shall be at Hagersville on 17th, as I have had no instruction to attend Council meeting.

Your faithfully,

Alan Mair Jackson

Report No. 4.

Chairman County Roads Committee

Sir—For the four weeks elapsed since last meeting of Council, June 18, I report as follows: Maintenence foreman have been slow in sending in time books and very few send in reports for work done. Some of the time books for the six weeks April 25 to June 5 are not in yet. An accident occurred on County Road No. 1 at Canboro, and I visited the site in company with Reeve Pyle and found the road in fair condition and do not consider that was the cause of accident. Construction work on Div. 15, Road No. 7, has progressed slowly owing to want of teams. Road has been stoned and completed for some 1500 feet and has been graded for 6,500 feet. First bridge on this road is to one side of centre of road allowance and will have to have eight feet added to one side to bring it into line. A stone outcrop occurs at 6,300 feet from the east limits of Hagersville, and through this ditches have had to be shot to give drainage to some half a mile of road east of this point. I am convinced that roads in west end of County cannot be successfully constructed with teams and the difficulty of obtaining them in the neighborhood of Hagersville has left the stone work far behind the grading, making the gang bad for one foreman to control. I would recommend Committee to purchase at once one gasoline tractor and six spreader wagons for hauling in train. Tractor is no longer an experiment on road work; I recommended this class of wagon previously Our experience already has convinced me that only by using such an outfit can the roads in west end of County be economically built.

The quarry at Byng will be producing crushed stone in two or three days. Some delay occurred in getting machinery over to quarry, as the Government, after allowing us to cross the long bridge, forbid us crossing the waste weir and sulpher creek, except under such conditions of propping up, that made it prohibitive. This necessitated getting the Government pile driver from Welland, as it was the nearest in the country available. It was used to ferry the traction engine (9 tons) and the crusher (7½ tons) across Sulpher Creek. Machinery purchased second hand for quarry consisted of a two drum horse-power, complete castings for a stiff leg derrick, the iron work for three scale boxes and battery for blasting. It was purchased in Hamilton for $60, a saving to the County of at least $250. Owing to quarry having come to producing stage I have started work on Forks Road and will be ready for stone in a few days and have appointed Wm. Riley to take charge of gang. Arrangements were make with Dunnville for the use of roller for this work, and I have arranged for a traction engine at $6 per day, County supplying water. I attach a telegram from Mr. Sullivan, Chief Engineer of Welland Canal Department, which will explain why I have had to abandon the construction of roads at Byng, between quarry and Government lands, which amounting to 32 chains were reported to Highway Department for this year's construction. I enclose a letter from Mr. McLean on the matter of farm entrances and would like to have your instruction on this matter.

Yours faithfully,

Alan Mair Jackson, Co. Engineer

Walton-Foster-Report of County Roads Committee be adopted as read.—Carried.

Holmes Boorks-Report of Finance committee be adopted as read —Carried.

To members of County Council

Gentlemen,—Finance Committer reports as follows and recommend payment on following account: Geo. P. Brown, H. of R. accounts, $279.41: J. L. Foreman, rep. broken wheel, 3.50; W. R. McIndoe, services as Co. Constable, arresting and conveying Perscilla Coulter to Toronto, 17.35; Dunnville Con. Telephone Co., Dunnville office, 3.95; Jarvis Record, pub. lishing minutes to July 10, 13.25; John Hill, 1000 ft. plank at Cayuga, $40. Victoria Ind. School, keep of Follock, Green, Ecker and VanSlack from March 31 to July 30, $65; Bell Telephone Co., Cayuga office, $5.50. Maintenance, Good Roads-D. Hannah, opening road and levelling, $11.60; Sawyer Massey Co,, 5 spreader wagons, 675; Do., engine, 1621.50: Do., road roller 2,700; Crescent Oil Co., 2 half bbls. oil and 50 lbs. greese sent to Dunnville 34.75; Do , 2 half bbls oil and 50 lbs. grease to Hagertville, 35.05; Charles Ross, towing pile driver from Port Maitland to Dunnville $6; Marshall Davis, Ltd., rep. blast machine, 3.61; American Road Machine Co., graders and plows, 23.50; Sam. Kenner, iron pins and clevices 2.50; Wood Vallance Co., 400 ft. of ⅝ steel wire rope, 28.42; T. H. Smelser, machinery repair, 14.05; A. R. Williams, steam hose, 18.14; J. C. Ingles, coal 25.31; Hamilton Machinery Co., plow, 30.50.

Respectfully submitted.—J. J. Parsons Chairman.

Bain-Avery-Report of Finance Committee be adopted as read.—Carried.

Young-Pyle-Report of Committee on Communications be adopted as read.—Carried.

To Members of County Council.

We, your Committee on Communications, report as follows: Co. Clerk, Co. of Halton, regarding Co. grants to the villages and towns out of the County road funds, recommend that the letter be filed for future references. Wm. H. Smith regarding accident at Canboro village No action. Respectfully submitted.—D. W. McBurney, Chairman.

Pyle-Young-Report on Communications be adopted as read.—Carried.

McBurney-Kett-Report of Home Committee be received and read.—Carried.

To Members of County Council.

Your Committee have purchased mowing machine and sulky rake from H Barclett for $80. Have examined House of Refuge accounts and bills and find them correct. Amount due, including mower and rake $270.40 and recommend payment of same. Would recommend purchasing hay fork and fittings for use in County barn. Respectfully submitted. H. J. Pyle, Chairman.

Avery-Bain-Report of Home Committee be adopted as read.—Carried.

Bain-Avery-Council adjourn till call of Warden.—Carried.

Dunnville To St. Ann's

Financial arrangements have been made to complete and operate the section of the Dunnville, Wellandport and Beamsville Electric Railway between Dunnville and St. Ann's. The directorate is in course of reorganization. Toronto and Welland will each have one Director on the Board, but St Catharines' interests will be represented by three directors and will control and direct the policy of the company.

Estate Swallowed Up By Legal Expenses

Welland, Fuly 24.—A practical illustration of the law expenses in settling an estate is given by the Electric Steel Company of Canada whose estate has just been settled up. The receipts were $3,899 and expenses were $3,689. leaving $210 to be divided amongst the creditors. The liquidator received $447.15, the lawyer, including court fees and disbursements, $932.11, and the dividend was declared of .003302 per cent on the dollar, every creditor receiving something, none of them receiving less than 1 cent, for instance, one creditor for 30 receives 1 cent, and a creditor for 85 cents received 1 cent.

Dr. Baxter Dead

Cayuga, July 23.—Hon. Jacob Baxter, M. D., registrar of Haldimand County, passed away at his late home early this morning. Hon. Dr. Baxter was one of the best known and most highly respected residents of the Niagara peninsula. He was born in the township of Bertie, Welland county, on June 9, 1832, and graduated as a medical doctor in 1859, and after taking a course of lectures in New York began the practice of medicine at Cayuga in 1854. In 1866 the late Dr. Baxter married Rose Griffith, daughter of the late R. V. Griffith, a former registrar of the surrogate court here. In the following year Dr. Baxter accepted the Liberal nomination of the County for the first Parliament of Ontario after Confederation and was elected. He was re-elected at each succeeding election un il his retirement in 1898, except for a few months during which a Patron of Industry held the county until he vacated his seat on petition. Hon. Dr. Baxter was elected Speaker of the Ontario Legislature in 1888, which office he held until 1891. He took a great interest in military affairs and was gazetted Surgeon of the Second Battalion of Haldimand in 1856 and continued to act in that capacity in the Thirty-Seventh Regiment for many years, and retired with the rank of surgeon-lieutenant-colonel, holding a Fenian raid medal as well as a long service medal. Hon. Dr. Baxter voluntarily retired from parliamentary life in 1898, and was appointed registrar of deeds for the county of Haldimand.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by all dealers.

It may be that farmers are to a large extent to blame for the opinions held by many in regard to their position and place in the country The man who does not land his own calling and believe it to be the best in existence, cannot expect others to do so. It is well to remember, however, that agriculture is one of the oldest and most noble of callings. In many European countries to-day the man who owns and works a farm, or even rents one, has a social status ahead of that of the store-keeper or business man. One has only to study the agriculture of Great Britain to be convinced of the fact Both in the United States and Canada there has been a tendency in the past to belittle the calling of the farmer; and as we have already stated. the farmer himself is in some measure responsible for it. Whil clothes do not make the man, yet some little pride in one's personal appearance in public is necessary. The people who settled on the land in this country in pioneer days had little of this world's goods, and no matter what desire they may have had for personal adornment they could not afford and extensive outlay in this respect, and so when they appeared in public were not as well dressed as those in other callings, and consequently they were looked upon with a scorn and sometimes a contempt that neither they nor their calling deserved. In time, however, many of these old pioneers, no matter how shabby their dress, could buy out many a city man dressed in fine linen and faring sumptuously every day.

LOVELY HAIR

Parisian Sage Immediately Banishes Dandruff; Stops Scalp Itch and Makes the Hair Radiant and Charming.

Parisian Sage is not a dye—it does not contain poisonous sugar of lead or any other dangerous ingredient.

It is a high grade scientific combination that will put life, lustre and beauty into any hair the minute it is applied,

Scalp itch goes over night; dandruff disappears; hair stops falling and the scalp becomes immaculately clean and free from germs.

There's a delightful treat coming to your scalp if you haven't tried PARISIAN Sage. Girl with Auburn hair on every cartoon and bottle. 50 cents at T. E. Morrow's and dealers everywhere.

Will It Pay to Tile Drain in Haldimand ?

Prof. W. H. Day of the O. A. C., thinks that it will. The majority of the farmers differ. The professor says, that if the tile drains will not improve the heavy clays of Haldimand, it is time the college knew it, and if they will it is time the people of Haldimand knew it. In order to prove his contention the Professor has secured an appropriation for the purpose of demonstrating the advantages of tile draining. He spent the 11th and 12th of July looking over the County and as a result has selected seven or eight points where he proposes to tile from five to ten acres, using a traction ditcher, which he has recently purchased in Ohio. The tile will be placed at different distances apart, two, four and six rods, also at depths varying from two to three feet. The fields chosen all front the road so that passers by may observe the effect. Fields on the farms of Mr. George Wharton, DeCewsville; Urban Stewart, Canfield; S. Culver and John Hartwick, Rainham Centre; Daniel Secord, Byng; Albert Snell, Hagersville; Mr. Harrison, Stoney Creek Road, Blackheath; Mr. Riley, Forks Road, Moulton Township and one in southern part of Walpole, not yet definitely located. The work will be done immediately after harvest, due notice of which will be given through the County papers.
