Our Autos

Two miles a minute—how slow of it
Swifts a meter or two—king of the sky
What is that but only the wheels?
Look at them wave, my whatabreze!
Ahonkandarush, a flash and a smell—
What did it do? Did somebody yell?
Ajar and a scream—looked like a horse!
Not a thing to do, kept to the course.
Out of the road! Give us a show
Two miles a minute, Gee how slow!

They're all doing it—What? Agitating for a half holiday.

Except in railroad time tables, three o'clock means 3.15 or 3.30. Almost no one is on time except at a railroad station.

The girl who flirts with strangers is taking a big risk these days. Over on the other side they sell girls at so much a head.

When there are so many ways a young man can make good use of his time, it's folly for him to loaf it away on the street corners.

The rural postmasters are another class of Government employees who have an idea they are underpaid. Few of them are millionaires.

Miss Lillian Russell has been married four times, once divorced and twice divorcing. With Miss Russell marriage appears to be a fitful fever.

William T. Stead's estate amounted to only \$65,000, and on examination it will be found that most of the world's famous men are not in the millionaire class.

H. B. Donly, of Simcoe, was elected 1st Vice President of the Canadian Press Association at the annual meeting held at the Chateau Laurier, at Ottawa recently. Congratulations.

Leap year will soon be half gone, and we have reason to fear that the young ladies of Jarvis are not living up to their privilege, that is judging from the small number of weddings reported so far.

Members of a family often regard the father as a stingy man who must be coaxed into every expenditure, although that which is regarded as stinginess may only be an effort to live within his means.

A record wheat crop is predicted for the west, which, with railway and other construction, promises to maintain the era of prosperity with which that section, in common with all Canada, is blessed. And yet it will not stop the month of the political agitator.

The social evil is one thing and white slavery another. The social evil may exist with the consent of the women in the traffic. The white slave is a woman who has been trapped, lured and inveiled into the life against her wish or desire, and held there against her will, unable to get her freedom until she is brutalized and debased and past caring what becomes of her. That is the traffic. Rev. Dr. Shearer has dedicated his life to its extinguishment.

An exchange says: Have you heard your neighbor going around with the complaint that his Panama hat is too small for his head this spring. If such is the case, you may be sure that it is a genuine Panama. If he denies the charge, and says that his Panama fits as well as ever, then he has been deceived, for his alleged Panama is only a fine straw. Panama hats have a habit of shrinking, if stored away over the winter, and it is necessary to have them stretched out before they will fit the wearer's head again. One citizen vowed that someone had stolen his hat. When he put it away last fall it was size 7-1-8 and this spring it measured only 6-7-8.

Mrs. Thos. Banks spent Thursday in Hamilton.

The straw hat habit is not very prevalent here.

Mrs. Elva Rodgers was in Hagersville Thursday.

When an agent walks in, you may depend on this, his purpose is to benefit himself; he doesn't care anything about your interests.

Why, no; but in Nottinghamshire, in the heart of old England, with lumps thrown in for bal-last.

It would be interesting to learn how many of those Methodist brethren opposed, in public, to the use of tobacco, take a sly puff themselves of "the divine weed" in the quiet of their studies.

Strawberries are the latest food product of which a short crop is predicted. Is there no success for the unhappy householder? Are the flies to be forever tumbling into the ointment?

Miss Ann Smith entertained a few friends to a tea, as did also Mrs. Noble and Miss Leonora Allen. A very pleasant time was enjoyed at the above homes and in each respect the lady made a charming hostess.

John Fox has every reason to feel thankful for the narrow escape he had on Friday. He was driving in a spike with a very sharp ax, when it slipped and cut through the shoe and stocking but missed his foot by a very narrow margin.

After all the fuss made over the tussock moth, it appears that its effect on the maples is not permanent. However, even the temporary denudation of foliage is sufficiently unsightly to cause unceasing efforts to be put forth for its extermination.

Ernest Smith an English boy employed with John Fox, narrowly escaped seriously injury on Friday. He was unhitching the team but failed to free the harrows when the horses suddenly started and he received a severe blow from the whiffletrees which rendered him incapable from doing any work for several days.

A Minnesota farmer says that he keeps away dogs from his flock by putting up in his pasture the dummy of a man holding a stick for a gun. This dummy is taken down every morning and put up again in the evening at different places from night to night. He says a sheep killing dog will not go near enough to discover that it is a bogus man.

Profane and indecent language has no defenders even among those addicted to it, and a determined and persistent effort to banish it from the streets and public places would be generally approved. Whether Jarvis is better or worse than others in the matter of the decency of language is not the question. The point is that there is great room for improvement in the general manners of Jarvis crowds, for it is seldom that any considerable knot of people gathers on the streets without having in its midst at least one man or youth whose language is objectionable.

Mr. and Mrs. Clement Maynard of Simcoe Sunday in town.

A sincere cause for thankfulness should be the fact that the earthquakes recorded from time to time on our seismographs, causing death and destruction in far away localities, are foreign to our soil. Yet who ever gives it a thought.

W. C. Parsons left Monday on a few weeks' visit to old friends in Cayuga, Smithville, Hamilton and elsewhere. Mr. Parsons is in possession of all his faculties, and in spite of his advanced age, he being in the 86th year of his age, is very active and is always a welcomed visitor among his friends, who will wish for him many years of health and happiness to come.

For muscular development, for the proper straining of muscles, laming of backs that man may be strong, for the binding of shoulders and the thickening of the neck, what compares with the lawn mower? The labor is useful; there even comes with years a certain art which permits the manipulation of the mower like a chariot and insures the annihilation of the last dandelion sort with a skill that astounds the ardent worker.

The farmers of Walpole, Rainham and Oneida will hold a monster picnic at Woodlawn Park, on July 1st. Hot and cold water and tables will be supplied on ground free of charge. Ice cream and other refreshments will be furnished at booths. Automobiles will be allowed at Park. There is no better place than at the Park to spend this holiday. It has splendid shady spots for horses. Boating, fishing and bathing. Everybody welcome.

An advertisement may not be able to operate wonders in a day or a week. Seed sown in the spring does not mature for several months. The advertiser may not know how much good his ad. is doing him. Buyers go to him, as a rule, say nothing as to his ad. They may not think the ad. had anything to do with their going to him. But they saw his name in the paper week after week and it suggested their destination unconsciously perhaps to them.

If people eat fish, not only on Fridays, but three or four times a week, the cost of living would come down. Fish dealers say so, and, while they are interested counselors they are right. Hundreds of barrels of fish are shipped from New York markets to fertilizer factories every week, because the people will not buy them except on Fridays. One fish day a week makes a big demand on that day and starves the market on other days.

The soldiers looked well after their twelve days at Camp.

The Farmers' Institute excursion to Guelph on Friday last was not so largely patronized as in former years, but those that went had a very pleasant day, the trains making a good run both ways. The excursion from Halton the same day was a very large one.

A deputation of our school trustees consisting of D. F. Aiken, R. Mason, Jas. Harlett, and L. A. McFarlane journeyed to Cayuga yesterday to address the County Council on behalf of additional grants for the Continuation class. They were awarded a grant of \$200 a year.

An old farmer was once invited out to dinner and before beginning to eat reverently said grace. "How old-fashioned you are, sir," answered a certain young man. "I suppose in your parts everyone says grace?" "Not everyone," said the old farmer gravely. "I have some remarkable fine pigs on my farm. Though I feed them remarkable, and they are well cared for, my pigs never say grace."

From week to week we receive items for publication with no name attached, else a fictitious one. We absolutely refuse to insert such items unless the name is signed. Not that we mean to publish it but to let us know that it is sent by good faith. Often such items are published which causes the printer no end of trouble. We also wish to state that all poetical effusions are charged at the rate of five cents per line.

Hicks' Forecasts for June

A Reactionary Storm Period falling on the 22nd, 23rd and 24th, will most likely take up and prolong the tendency to afternoon and evening thunder showers, coming over from the preceding period. While an excess of rain will do well to figure on frequent showers.

The W. M. S. met to-day at the home of Mrs. Wm. Robinson.

Deep Potato Planting

The deepest potato planting ever recorded, we think, in the history of the nation, took place at the Murphy farm, where the drillers are working. While the men were drilling the tools they were using were lost at a depth of 2670 feet, or 30 feet more than half a mile, so a peck of potatoes were put in to keep the shale from sticking to the drill. It took several days before the tools were recovered. Who can beat this for potato planting?

Surprise Party

What a happy gathering it was that interested the home of Mr. and Mrs. Wallace Mason at Tyrrell Thursday evening. It took the form of a surprise party to do honor to Mr. Mason's birthday. About sixty guests was present and a most pleasant and enjoyable time was spent in music and other amusements. During the evening the company was called to order and Mr. Mason was presented with a handsome Morris chair and a beautiful set of military brushes in a case. Mr. Mason then presented Mrs. Mason with a rocking chair. Although taken completely by surprise the donors were heartily thanked by Mr. Mason for the kindness extended to him. The very sumptuous lunch was thoroughly enjoyed by all. At a reasonable hour the party broke up but before dispersing for their respective homes the host and hostess were thanked for the kind hospitality tendered the guests and wishing Mr. Mason many happy returns of the day.

Sad Accident

On Friday afternoon a sad accident occurred on the farm of Rev. J. McKee near Khediva. The Messrs. Jacques were plowing with their gasoline engine plowing outfit, when the young son and adopted daughter of Rev. Mr. McKee—both about six years of age, came out to where the outfit was working. They asked Roy Jacques for a ride. They had been accustomed to getting a ride on the plow. Roy placed them both on the plow and told them not to move. Sometime afterwards the little girl's attention was attracted to something they were passing and she arose and gave a spring to jump off the plow, but fell backwards and the wheel of the plow when over her neck killing her instantly. Rev. Mr. McKee was at the General Assembly at Edmonton and received the sad news by telegraph. Much sympathy is shown the bereaved family in their hour of deep sorrow. Roy Jacques feels very keenly the fatal accident which befel the little girl. Everyone who knows Roy, know how kind-hearted he is and how much he feels the situation. But it was all an accident that might have occurred with anyone." The above was taken from the Weyburn (Sask) Herald of June 13, and the young man, Roy Jacques formerly resided a few miles from Jarvis.

Death at Springvale

Rarely, if ever, has the death of a child so deeply touched the hearts of the whole community, as that which occurred on Friday morning, June 14th, 1912, being Caroline Zeta, second daughter of Mr. and Mrs. A. S. Benn, at the age of 11 years and 10 months. The little girl was taken ill a little over a week previous to her demise with meningitis, and on Thursday was operated on for an abscess in her head, which was performed by Dr. Morton, Dr. Minnie McDonald and Dr. Jacques, but this proved too much for her already weakened condition as the next morning the angel beckoned and she answered the roll call. Many precious memories will linger in the home she has left behind. To-day she adorns the mansions of Glory and which will be another little star throwing out its little light becoming the loved one to that kingdom on the other shore and the glow which is spread over the household can never be dispelled only by the hope of a happy reunion in the Heavenly home. This strange act of nature which makes us lose a friend, also responds to our good in impressing upon us hourly the necessity of our own departure. May the comforting peace of Him who doeth all things for the best, rest upon the bereaved ones and comfort them to the end. The funeral on Sunday was very largely attended, while the floral tributes were numerous and beautiful indeed, an emblem of love for the departed little soul.

The Opening Services

The interior of the Methodist church presented a beautiful appearance on Sunday last, the occasion of the re-opening services. Since the services were withdrawn from the church and during some six weeks ago a complete transformation has taken place. Messrs. Mitson and Maynard of Simcoe, who have had charge of the painting, graining and decorating, deserve great credit for their work, which has been done, not only efficiently but with commendable taste. The ceiling and choir alcove are finished in pearl gray, the walls in an artistic combination of straw color and buff. The woodwork, pews, wainscoting, doors, etc., both in the lower part of the church and gallery has been well grained. The loobies have been painted and grained. New carpeting with matting to match adds materially to the general appearance. Holiness Becometh Thy House (Lord) is the neatly inscribed motto for the renovated church. Rev. A. R. Springer of Lyndoch preached both morning and evening at the reopening services. Having occupied the pulpit previously he was warmly welcomed by his many friends. All were profited by his earnest helpful message. Miss Beatrice Eadie of Toronto assisted the choir, singing a solo at each service. She has a splendid rich voice, and a pleasant, unaffected manner. Not in the least among her excellence in an unusual clearness of enunciation. The Ladies' Aid of the church, under whose auspices the services were held, were greatly encouraged in their work by an offering from the congregation which exceeded \$60.00.

London Methodist Conference objects to Methodists growing tobacco. What about the farmer who raises barley?
