PHOTOGRAPHY IS A MIRROR

Which held up to life, throws back a permanent reflection. Just as a poor mirror gives a distorted likeness, does an inferior photograph liberal its original. Good mirrors cost a little more money, so do artistic photographs. Art in photography is simply the truthful reproduction of nature, that my photographs show at least a fair measure of artistic merit is due simply to an ability to raise the sinner to momentarily forget the camera.

Summer cooking with comfort

NO need to stew your life out over a coal range during the hot weather. Gas is a much cheaper cooking fuel than coal, and far more convenient in the summer time. Why fatigue yourself and make the house uncomfortable for the whole family when you can save money by cooking with gas. Any "McClary" Gas Range will pay for itself in a very short time by the actual cash it saves, not to say anything about its hardness.

The Model shown in the cut is a handsome Gas Range — "McClary's" 1912 Model — and considered the biggest range value on the market. You will see at a glance that the convenience and comfort of the housekeeper has been considered by the designers and makers. The Ovens are slanted — just conveniently high — so that there is no "stooping or bending" when cooking with this range.

This Model like other McClary Ranges has the bright black enamel finish—white enamelled broiler and drip pan—Ovens just the right size with proper flue construction. Also Anti-Rust linings and plain smooth nickelled finish.

Better see the McClary dealer and ask him to tell you the reasons why you should buy a McClary gas range. He will explain the exclusive features of the range suitable for your kitchen without placing you under any obligation to buy. All we want you to do is to be perfectly certain that the Gas Range you buy will pay for itself very quickly.

A strange clergyman preaching in a country church on a recent Sunday, noticing the choir seats were unoccupied when the time of beginning the service arrived, rose and remarked:—I see all the singers are absent this morning. Let the congregation rise and sing: "Praise God from Whom all Blessings Flow."

You think you are as modest as a flower; but probably the neighbors say you have nerve to burn.
What will ball players do for a winter job now that they've invented an automatic milking machine?
Times are good, business is brisk, money is plentiful and easily made. But the rainy day may be here again, you know.
