## Hatching Eggs For Sale SINGLE COMB WHITE LEGHORNS ONLY

WELL! Here we are again. Hope you read our little ad last week. Funny thing about that ad. Remember we said we had mated up a breeding pen. We picked out what we considered as 28 of our best pullets from a bunch of about 150. Here's the funny part. Next day we only got 4 dozen eggs from our Leghorns but 23 of these were from that breeding pen. Haven't that got the gas man and the I. H. C. man trimmed for picking winners? About those Prairie State Incubators. John Martin of Port Dover uses them and has done so for years. Campbell of Brantford uses them exclusively. They're the fellows we told you about last week. The Guelph Agriculture College uses and recommends them. Do you believe in signs? The price of eggs is down a little but honest we're still shipping at prices that would make your hair stand. Get in the band-wagon.

Do you know that of all the minor ailments colds are by far the most dangerous? It is not the cold itself that you need to fear, but the serious diseases that it often leads to. Most of these are known as germ diseases. Pneumonia and consumption are among them. Why not take Chamberlain's Cough Remedy and cure your cold while you can? For sale by all dealers.

## Marburg

The Literary Society will hold their next meeting on Wednesday evening at Wilson Porter's. Mr. and Mrs. George McBride visited friends in Walspole on Sunday last. Miss A. McBride spent a week with friends in Port Dover. Our hockey team went to Simcoe on Friday to play with Lynn Valley, being defeated by 7-2. Will Ryerson is getting out timber for to build a barn this summer. The whooping cough victims are getting some better. Some of the old people have it now. S. F. McBride had a couple of carloads of wire fence and gates shipped to Port Dover on Friday. The farmers were all busy drawing it home for a couple of days.

## Sandusk

Rev. J. H. Britt of Nanticoke spent Wednesday last in this burg. R. O. Ward spent last week with friends in this vicinity. Mr. and Mrs. Chris Lofthouse and Mr. and Mrs. Wm. Lofthouse, were the guests of Mrs. McBurney on Friday night. Miss Ruby Peacock visited with her cousin, Miss Jessie Horn of Varenay last week. Mr. and Mrs. Hodgins and Mrs. Armstrong spent last week with friends in this locality. Mr. Chas. Awde visited friends in Springvale on Friday and Saturday. Miss Beattie Thompson spent Saturday and Sunday with her parents in York. John W. Peacock left on Monday for the North West. Mr. and Mrs. Robert Jepson of Clanbrassil spent a couple of days with friends in this vicinity. Miss Annie Westerby was a delightful hostess to a number of friends on Thursday evening last. After spending the former part of the evening coasting, the party returned to the house where a dainty lunch was served by the hostess, after which music and games were indulged in, until the wee sma' hours when all left feeling they had spent an enjoyable evening. Mr. Ivan Awde of Simcoe spent Sunday under the parental roof. On Friday March 1st the Women's Institute met at the home of Mrs. John Walker. After the business part of meeting was over three papers were read: Aunt Doleful's lament, by Mrs. J. Hewitt, Aid to Women's Work by Mrs. J. Peacock, Music hath Charms by Mrs. Hodgins, A Button Hole Contest in which every member took part. Mrs. E. Slater secured first prize, Mrs. G. Hodgins the booby. After the meeting was closed the hostess served a dainty tea. The next meeting will be held at Mrs. Jos. Peacock's on Thursday, April 11th. Mr. and Mrs. John W. Westerby, Miss Annie Westerby and Miss Beattie Thompson visited at J. R. Taylors, 'Maple Hurst' on Monday evening.

## Rockford.

The meeting of the Farmers' Club was held in the schoolhouse Tuesday evening of last week and a good deal of interest seemed to be centred on the Good Roads question as the house was filled to the door. After the usual routine of business the debate resolved "that Country Good Roads System is preferable to Township Good Roads system" was thoroughly discussed. After listening to the discussion the judge, Wm. Hamby, decided to call a tie. The next meeting will be held at Mrs. Jos. Peacock's on Thursday, April 11th. Mr. and Mrs. John W. Westerby, Miss Annie Westerby and Miss Beattie Thompson visited at J. R. Taylors, 'Maple Hurst' on Monday evening.

## Good Salary Ability

When a young man is always thinking of the salary he is receiving, or the salary he ought to get, he gives pretty good indications that he is not of a very superior make. The right sort of man does not everlasting concern himself about salary. Ability commands income. A young man must start with ability not with salary. Ability is the key to success. Things in this world do not just happen. Luck seldom perches on the shoulder of the undeserving. Some men say, "I wish," while the man who does it says, "I will."

## What Advertising Does

Sweet are the uses of advertising. They dispel the season's dullness and remove wrinkles from the brow of business men. They loosen purse strings and impart a motion to the nimble dollar. They are the delight of thrifty housewives, and the male bargain hunter cannot resist their blandishments. They create values, beget competition. They are barometers of trade. They create fortunes. Their friends are on both sides of the counter. They educate the people and swell the ranks of shoppers. There are a stirring force in every community in which their arts are employed. Their extent indicates the city's business and their style the city's style. Show me, says a distinguished merchant, the advertisements of a city and I will show you the city's balance sheet.

If you have trouble in getting rid of your cold you may know that you are not treating it properly. There is no reason why a cold should hang on for weeks and it will not if you take Chamberlain's Cough Remedy. For sale by all dealers.

## Instantly Killed

Hagersville, March 2.—James Stark, a farmer living four miles east of here, was instantly killed about six o'clock yesterday evening. He left Hagersville for his home at five o'clock with a sleigh load of green lumber, and soon after seven the horses turned up by themselves at the farm. A search was immediately made, which resulted in the finding of Mr. Stark's body buried beneath the lumber and overturned sleigh. It is thought that the sleigh left the road and overturned in the soft snow. Mr Stark was 46 years of age. He leaves a widow and six children.

## Free to Boys

Rubber Type Printing Outfit Complete. Splendid magic lantern (with lantern slides), steam engine (nearly one foot high) with whistle, fly wheel and everything complete for running; solid gold signet ring, or guaranteed watch free to any boy. Address Homer-Warren Co., Dept. 123, Toronto.

## Hicks' Forecasts for March

A reactionary Storm Period is central on the 10th, and 11th, involving the 9th and 12th. March the 11th, each year, is the central day of a four to six day period in which the earth passes a maximum crisis and magnetic unrest. Electrical storms, streams of solar magnetism, earth currents, volcanic outbursts, auroral lights, telegraphic interruptions, and seismic tremors are all quite common and natural at this annual crisis. Rain turning to sleet and snow, will return in force on and touching the 10th and 11th. Be prepared for this, and for the change to much colder, which will most likely follow, up to about the 14th.

## Doing Big Things

Big things are only little things put together. I was greatly impressed with this fact one morning as I stood watching the workmen erecting the steel framework for a tall office building. A shrill whistle rang out as a signal, a man over at the engine pulled a lever, a chain from the derrick was lowered and the whistle rang out again. A man stooped down and fastened the chain around the centre of a steel beam, stepped back and blew the whistle once more. Again the lever was moved at the engine, and the steel beam soared into the air up to the sixteenth story, where it was made fast by little bolts. The entire structure, great as it was, towering far above all the neighboring buildings, was made up of steel, and stone, and wood, put together to the plan. The plan was first imagined, then pencilled, then carefully drawn, and then followed by the workmen. It was all a combination of little things. It is encouraging to think of this when you are confronted by a big task. Remember that it is only a group of little tasks, any one of which you can easily do. It is ignorance that makes some men afraid to try.

## Her Retort

An Ontario girl who had grown tired of hearing the ways of women ridiculed, made a neat and fitting retort recently to some matrimonial prose that was shown to her. Here is what was submitted to her: Backward, turn backward, O time in your flight, and give us a maiden dressed proper and right. We are so weary of switches and rats, Billie Burke clusters her peach-blossom basket hats. Wads of lute hair in horrible piles stacked on their heads to the height of a mile. Something is wrong with the maidens, we fear. Give us the girls as they used to appear. Give us the girlsies we once knew of yore, whose curls didn't come from a hair-dressing store. Maidens who dressed with a sensible view. And just as Dame Nature intended them to. Feminine styles getting fiercer each year—oh, give us the girls as they used to appear. And here is the clever retort which she wrote: Backward, turn backward, O Time in your speed. Grant us, in turning, the men that we need. We are so weary of heartaches and tears; they are not worthy our love through the years. Where are the maidens who were constant wear of truncheons of men's—so rare and so few. Give us the men who will stay home three nights out of seven—our cares never cease till they're safely in Heaven. Off to the races, the ball game and clubs, and, yes, other women—that's just where it rubs. The noble, the loving are relics of yore. Our smiles mask our hearts which are bleeding and sore. Backward, turn backward, if you can, that long-mourning for treasure—a man, just a MAN.

## AUCTION SALE
