### PHOTOGRAPHY IS A MIRROR

Which held up to life, throws back a permanent reflection. Just as a poor mirror gives a distorted likeness, does an inferior photograph liberalize original. Good mirrors cost a little more money, so do artistic photographs. Art in photography is simply the truthful reproduction of nature, that my photographs show at least a fair measure of artistic merit is due simply to an ability to cause the sitter to momentarily forget the camera.

Not only this but these as well

DON'T think that concrete can be used only for building bridges, silos, walls and walks; because if you do, you will probably overlook all the places where you can use it now.

T. L. Irving, of North Georgetown, Quebec, used concrete for 81 different purposes on his farm in 1911.

There are probably at least a dozen profitable uses for concrete on your farm at the present moment.

Perhaps you haven't thought of concrete, except for a new barn, or a silo, or some other big improvement for which you aren't quite ready yet. That's why you should read

### "What The Farmer Can Do With Concrete"

It will open your eyes to the hundreds of uses that other farmers have found for this material. In plain language, and with the aid of many photographs, it explains just what these uses are, and how they can be applied to your farm.

Concrete can not only be used for all the purposes to which wood has been applied, but also many others for which wood would never be suitable.

It is not only a building material; it's a "handy" material, something that you'll grow to depend upon more and more, as you learn its possibilities.

So write for this book. You'll find it isn't a catalogue, nor an argument for you to buy our cement. Every one of its 108 pages is devoted to telling you what farmers have done and can do with concrete.

IT'S FREE FOR THE ASKING. Your name on a postcard, or in a letter, will bring the book to you by return mail. Or use the coupon. Address

**THOS. HARRIS, PROP.**  
JARVIS, ONT.

On a farm, the only thing that has an easy time is the dog.

A Cleveland school teacher writes that she asked her class what was the difference between the expressions, "a while" and "a time." No-body seemed to have any idea on the subject. Finally the light of intelligence was seen to shine in the eyes of one little boy and the teacher called upon him to save the intellectual honor of the class. "I know, teacher," he cried eagerly. When papa says he's going out for a while, mama says she knows he's going out for a time." That's one way of looking at it."
