LESSON VII.—NOV. 17, 1912.

Caesar. It was called Caesarea Philippi, or Philip's Caesarea, to distinguish it from Caesarea on the

Mediterranean. This was largely be-

youd the region of Jewish influence, and the farthest north that Jesus jour-

neyed. Whom do men say that I am

The question was asked to draw out the opinious of the disciples and to pre-

pare them for the great subjects to be

pears that the thought that Jesus was

the Messiah did not prevail among the

people. Whom say ye that I am-This

was a natural question to ask at this

point. Jesus would now have the dis-

ciples declare how they had been im-pressed by his teaching, his miracles and his personal influence. Peter answerth

ciples, not only on this occasion, but

generally. His impulsive nature and his

quickness of apprehension favored this

practise. It is thought that he was the

oldest of the twelve. Although Peter

answered the question, his reply ex-

pressed the sentiment of them all. Thou

are the Christ-Christ is the Greek

word for "anointed," and Messiah, the

Hebrew for the same idea. There was

no hesitancy and no uncertainty. The

declaration was positive and emphatic.

Matthew adds the words, "The Son of the living God" (16:16). This denotes

the nature of Jesus in his relation to

the Godhead. There is fully implied in

the answer given prepared the way for

Jesus to declare plainly to his disciples

the truth, that he must suffer and die,

and be raised again in the fulfilment of

his great mission. He had spoken fig-

uratively of his death, and John the

Baptist had called him the Lamb of God

who would take away the sin of the

world (John 1: 29). Jesus had said,

"Destroy this temple, and in three days

Man must be lifted up (John 3: 14). He

had told the disciples that "the bride-

groom" would "be taken from them"

Matt. 9: 15). He had said in the syna-

gogue at Capernaum that his flesh

would be given for the life of the world

(John 6: 51). Now in clear and unmis-

Are your hands chapped, cracked

or sore? Have you "cold cracks"

which open and bleed when the skin

is drawn tight? Have you a cold

sore, frost bite, chilbiains, or a "raw"

place, which at times makes it agony

for you to go about your household

duties? If so, Zam-Buk will give you

relief, and will heal the frost-damaged

skin. Anoint the sore places at night,

Zam-Buk's rich healing essences will

sink into the wounds, end the smart-

Mrs. Yellen, of Portland, says: "M

hands were so sore and cracked that it

was agony to put them near water.
When I did so they would smart and
burn as if I had scalded them. I seemed

guite unable to get relief from anything

I put on them until I tried Zam-Buk, and it succeeded when all else had failed. It closed the big cracks, gave me case, soothed the inflammation, and in a very short time healed my hands."

Eam-Bub also sures chafing, raches, winter comma, piles, cleare, festering serva, serv heads and bases, character, proples, ring-worm, etc., mis, base, bruises, scales, grains. Of all crapbit and stores, or post free from the Zambas On, Forente. Price the 6 bes.

ing, and will heal quickly.

The Great Question .- Mark 8: 27-9: 1. \$10 a month Commentary-I. Peter's confession (vs. 27.30). 27. Went out—Jesus and his disciples went in a northeasterly direc--buy a lot at

this statement the fact of his divinity, as the former statement declares his takable language he foretold hie death. office, as the Messiah. "The phrase, Tiving God,' was common among the Suffer many things, etc.—The opposition Jews, not merely to distinguish Jewould constantly increase and culminate hovah from idols, but also to indicate in his death at the hands of the highest officials of the Jews. Rise again Here his character as a personal Being who is expressed a prophecy and a promise enters into sympathetic relations with the soul of man."-Abbott. Peter's of his resurrection.

The time for his full manifestation had not yet come, and he was not willing to be a complete or the Romanno or neaventy grown as a complete or the Romanno or neavent man cavy, by permitting his disciples to Jesus had declared was lying before him before and showing the way. A your times produced by long and systematic annotate him as the Savier of a lost with the great fact of his Messiahship.

33. Getathee behind me, Satan—Jesus 33. Get thee behind me, Satan-Jesus there can be no deviation. Jesus very pig. In the wild board the intestines III enrist's prophecy of his death and did not call Peter Satan, but indicated resurrection (vs. 31-33). 31. He began that Peter's rebuke emanated from tion of discipleship in his school and the domesticated breads the intestines mouth, and Jesus used the same language that he did at the temptation in the wilderness. Thou mindest not (R. V.)-Peter took into consideration not the deep import of Christ's mission, but had temporal advantage and glory in view. Peter's words showed very clearly that he had failed to grasp the nature and completeness of Christ's work as the world's Redeemer.

III. Conditions and rewards of dis-

I will raise it up" (John 2: 19). To Nicodemus he had said that the Son of cipleship (vs. 8:34-9). 34. Called the people. with his disciples There were those who gathered in the wilderness that they might be near Jesus. They were apparently at some distance from him and his disciples when he called them to him. Whosoever will come after me The word, "will," is not the sign of the future tense here, but expresses determination. Whosoever wille to become my follower, is the thought. Deny himself-He must refrain from every wrong, and deny himself every lawful thing that would hinder his progress in following Jesus. Take up his eross Be ready to suffer whatever it is necessary by virtue of being a disciple of Christ. 35. Whoseever will save his life Is determined to secure for himself ease and temporal advantages. Shall lose it-Shall lose the higher good, the salvation of the soul, by trying to obtain early good. Shall lose his life -Is determined to sacrifice temporal good for eternal. Shall save it-Shall save his soul and shall secure all the earthly good that is necessary. 36. Gain the whole world, and lose hie own soul -If it were possible for one to become owner of the material world, and in so doing lose his life, his loss would be great; but if he should lose his soul, the spiritual loss would be infinite. 37. In exchange for his soul-The soul forfeited can never be restored. 38. Ashamed of me and of my words-It is a deplorable fact that mortal man, full of sin and of little worth, should be so puffed up in his own sight as to be ashamed of the infinitely mighty and hold Christ. Adulterous. .. generation-People untrue to God and estranged from him. Of him also the Son of man he ashamed-Jesus as Judge will forever disown him. Cometh in the glory of his Father-Christ will come in glorious majesty, and will reward every man according to his works. 1. Some of them that stand here—His disciples. tiny of those who are ashamed of Jesus and his words? What is included in the coming of the kingdom of powert PRACTICAL SURVEY.

Topic-Christ revealed. I. In his person and work.

II .- In the lives of his disciples I. In his person and work. The ques tion which Jesus asked his disciples shows how dear to him is the personal faith of an individual, and how essentia to salvation is the right apprehension of his character as the Redeemer. Jesus did not cater to public opinion, yet he sought to have men form a clear and right conception concerning him. He examined his disciples on this most important of all questions in order to draw from them a definite confession of their faith. He put them in a different class from the multitude, and at the same time taught them that it was part of their duty to be interested in the spiritual welfare of their fellow men. Peter's short but illustrious statement contained the whole truth with respect to the person and work of Christ. He asserted the divinity as well as the humanity of Christ. This was the first great confession of faith which has come down to us through the ages. Jesus affirmed the divinity of his redemptive mission, and assured Peter that his profession of faith was a rich source of happiness to him. He declared that the truth which Peter confessed should never be lost to the great body of his faithful ones. Peter did not come to confess that great truth by nature, education or even by witnessing Christ's miracles. It was the direct act of the Father by which Peter was thus enlightened. The revelation of Christ is an inward power rather than a scientific belief. "All the glory of Christ as Mediator hangs upon the knowledge of his person." It is the prerogative of the Father to reveal his Son. The foundation of the church is an indestructible truth. Jesus reprecented the church as an edifice of which he is the architect and builder. The church is built upon him and not upon an-idea or representation of him. the language of the Jewish schools "to bind" and "to loose" meant to prohibit and to permit, to determine what was wrong and must not be done, and what was right and ought to be done. Jesus gave authority to every man who lives in the higher realm of truth to open up that truth to others. When Jesus had drawn from his disciples the acknowledgment of his divinity he announced his approaching passion. It would have been useless to speak of his death until they were convinced of his divinity, and still the apostles were unneither understand nor accept them. body heat and work. When an excess Peter's heart was agitated. His mighty of food is given a part of the aibumingrasp of faith concerning the divinity of cids or flesh-forming materials, and the Christ was much the same as it was ash or bone-forming elements is generwhen he stepped out upon the water to ally converted into new tiesue, whilst a go to Jesus, and his humanity predom- part of the fat formers, earbe-hydrates inated again as before; this time, in the and albuminoids is store | up in the form disappointment that his Lord should not of fat. POISONED IN LABORATORY.

Niagara Falls, N.Y., despatch: Poisoned by powerful acids with which he was experimenting to-day, Edward C. Spurge. general manager of the Ozone Vanillin company, was found dying on the floor of his private laboratory at the Falls plant. He died several hours later with regaining consciousness. He was married in September, and came here from Maclear. It came with power also on Paris, France.

Questions—Where was Caesarea Philippi? What question did Jesus ask his apostles? Why did he ask it? What was their answer? Who did Peter say Jesus was? What prophecy did Jesus utter regarding himself? Why did Peter rebuke Jesus? Give the language of Jesus' rebuke to Peter. What are the conditions upon which one can be a follower of Jesus? What is the despected this year.

SALT RHEUM CAI OUT ON HANDS

Formed Watery Pimples. Itchy and Had Herrible Burning Sensation. Lost Some of Finger Nails. Could Not Open Hands. Cured by Cuticura Soap and Ointment.

235 N. Lisgar St., Toronto, Ontario.-"For seven years I have been troubled with salt-rheum. It came out on my hands and formed kind of watery pimples all over them which became itchy and it had a horrible burning sensation which caused me a good deal of caused me a good deal of pain. It came out on my

hands in the fall and remained there till after spring. I might mention that I lost some of my finger-nails by the disease. During this length of time I was utterly useless, as I could not open my hands. I tried several other patent medicines without a bit of relief. Some of my friends advised me to try Cuticura Remedies so I sent for samples and by using them there was a great improvement. Then I went to the druggist and bought one cake of Cuticura Soap and two boxes of Cuticura Ointment; after using them I am glad to say I am completely cured. I had given up all hope of being cured. I can say to all those who have suffered as I have, not to lose courage but to give Cuticura Remedies a fair trial." (Signed) Miss Lillian Irwin, Oct. 13, 1911.

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the most economical treatment for affections of the skin and scalp that torture, itch, burn, scale, and destroy sleep. Sold everywhere. Sample of each mailed free, with 32-p. Skin Book. Address post card Potter Drug & Chem. Corp., Dept. 35D. Boston, U. S. A.

HANDLING THE FATTENING ANIMAL.

If the animal body is to be increased in weight, it is very evident that food must be supplied in excess of the quantity needed for the mere renovation of of his faith from being spoiled by the the body; in the animal at rest the and rates of fattening.

be suspended if the putting on of flesh is to proceed with any degree of econa stall will increase in weight far more rapidly than an animal taking active exercise on a similar diet. A moderate degree of warmth is also favorable to the fattening process. If, however, the temperature becomes so high as to increase perspiration, a waste of food will occur. The temperature most favorable Fahrenheit. Freedom from excitement is essential to rapid fattening, and thus the absence of strong light is desirable. Because but a part of the rood in

excess of the requirements of the body is converted into increase, liberal feeding is within certain limits the most ever omical. If a beef animal can be brought Now Cured, and Gives Good Advice by liberal treatment to one thousand pounds at one year old, the amount of food consumed will be far smaller than if two years are speat in attaining that one thousand pounds, because the food required for animal heat and work during the second year is eaved by the one year feeding only.

In the case of a lean or growing animal, the quantity of food it will eat will increase during early stages of fattening, and the etomach and intestines become large: in the full grown animal this increase in consumption soon ceases. When the animal becomes very fat the testinal indigestion. Nothing helped me until I used Dr. Hamilton's Pills. Instead of hurting, like other pills, they acted very mildly and seemed to heal the bowels. I did not require large doses to get results with Dr. Hamilton's Pills, and feel so glad that I have found a mild yet certain remedy. To-day I am well so of increase. The increase during the certain remedy. To-day I am well—no pain, no sour stomach, a good appetite able to digest anything. This is a whole lot of good for one medicine to do, and I can say Dr. Hamilton's Pills are the heat wills, and my letter I am sure proves.

These changes in the rate of consumption and increase are stronger in the pig In fattening animals to the best advantage it is very evident that the farmer ought to have as his object the supplying to the animal of the largest amount of food it can profitably make use of. So long as bulky foods such as hay, straw and soots are used the animal may safely be given all it will eat. The limits of profitable use must, however, be considered in the matter of grains and other concentrates. Information on the value of the different foods and the amount of different elements needed in the diet of any of the breeds of live stock will be available on application to the editorial department of this journal.—Canadian Farm.
FIELD SELECTION OF SEED CORN.

The increased yield of shelled corn per acre is the purpose of field selection. Strong germination is one of the incidentals that can be taken care of later by a germination test.

Knowledge of ancestry is almost as desirable for seed corn as for dairy ani-

f ancestry. Seed should not be selected from stalk near barren stalks. There would be a strong chance that the barren stalk was one of its parents, and that it would tend to produce other barren stalks. Moderately good ears from a thick stand are better seed than very fine

looking ears from a thin stand where they have had an extra snupply of sunshine, moisture, and plant foods. Moderately long ears produced higher yields than short ears, twenty-one times out of twenty-two in two years'

tests. The lower-vielding short ears invariably exceeded the longer ones in circumference. Greater circumference, then, does not mean greater yielding power. The heavier ears usually give higher yields. This weight should accompany reasonable length, circumference and

shelling percentage. Immaturity must throw it out. however. Creased-dented ears produced a little more than rough-dented ears. Ears selected from the plant averaged over three bushels per acre more than wagonshelled seed from the same field. The wagon-shelled ears were shorter in size and general appearance, but the mother plant and its surroundings were not definitely known.

More information may be obtained from Bulletin No. 212 of the Ohio Experiment Station, Wooster, Ohio.

Although this corn was grown in Ohio. the results are worth our consideration. Differences in season should be kept in mind.-J. O. Rankiu, Minnesota College of Agriculture, in Farmer's Ad-

"MY STOMACH IS FINE Since Taking Na-Dru-Go Dyspensia Tablets"

Native 3 50 Western 3 60

Mrs. J. Merkhuger, Waterloo, Ont., enthusiastically recommends Na-Dru-Co Dyspepsia Tablets. Her experience with them, as she outlines it, explains why. "I was greatly troubled with my stomach", she writes. "I had taken so much medicine that I might say to take any more would only be making it worse. My stomach just felt raw. I read of Na-Dru-Co Dyspepsia Tablets, and a lady friend told me they were very easy to take, so I thought I would give them a trial and really they worked wonders. Anyone having anything wrong with his stomach should give Na-Dru-Co Dyspepsia Tablets a trial, they will do the rest. My stomach is fine now and I can eat any food."

One of the many good features of Na Dru-Co Dyspepsia Tablets is that they are so pleasant and easy to take. The relief they give from hearthurn, flatulence, biliousness and dyspepsia is prompt and permanent. Try one after each meal—they'll make you feel like a new person.
