PHOTOGRAPHY IS A MIRROR

Which held up to life, throws back a
permanent reflection. Just as a
poor mirror gives a distorted like-
ness, so does an inferior photograph
liberal its original. Good mirrors
cost a little more money, so do
artistic photographs. Art in
photography is simply the truthful
reproduction of nature, that is
photographs show at least a fair
measure of artistic merit is due
simply to an ability to cause the
sitter to momentarily forget the
camera.

TESTING AN EGG

Many Ways to Detect Stale and Spoiled Eggs

It does not require a very discriminating palate to detect an old egg from a new one, says a correspondent of the New York Sun. The former has a musty flavor that the latter never has, and the mustiness may range from a slight taint to a very pronounced one. It is always noticeable in storage eggs.

If any one wishes to verify the judgment of his palate, the following tests may be used:

1.—It is almost impossible to peel the shell from a fresh hard boiled egg without having some of the white come away with it.

2.—A stale egg cannot be beaten to a froth.

3.—When a fresh egg is broken into a dish the yolk stands up and the white does not spread, whereas in a stale egg the yolk lies flat and the white seen watery.

4.—The shell of an egg after a certain length of time loses its chalky appearance and becomes shiny.

5.—The air space in the large end of a newly laid egg is about half an inch in diameter, and as the egg ages this space grows larger. In storage eggs it sometimes extends to one-fourth the length. An expert can very closely approximate the age of an egg by examining this space. This is known as candling and is done by holding the egg in a beam of light. A simpler test is to hard boil the egg and notice the relative size of the space.

THEIR AWFUL SECRET.

It Caused the Real Estate Agent to Change His Mind.

When the family who admitted that they were moving because the tenants at the old address made their lives miserable confided to the renting agent that they had one peculiarity which they wished him not to mention to their neighbors in his building the agent got uneasy and executed a mental quickstep trying to devise some way to break the lease. But aloud he said very courteously:

"I shall be glad to oblige you if I can. What is it you wish me to keep a secret?"

"The fact that we pay our rent promptly on the 1st of every month," said the head of the family. "That was something that nobody else in the other house did, and the agent as an incentive to quick action on their part published the news of our promptness. The only action it stirred them into was persecution of us, and they carried that to such extremes that we had to move. If you will kindly refrain from using us as a club to whack your delinquents into obedience we will appreciate it."

The agent resolved not to cancel the lease, but at the same time he relinquished a hastily conceived plan for procuring prompt remittances. — New York Times.

That Yankee Dodge.

The description of the first operation under ether in Europe as given by Dr. F. William Cook in the University College Hospital Magazine is reproduced in the London Lancet, and the scene is referred to as the "most dramatic ever enacted in which medical men grouped the stage." The operation was performed by Robert Liston on Dec. 21, 1846. "At 2:15 Liston enters, that magnificent figure of a man six feet two inches in height, and says, 'We are going to try a Yankee dodge today, gentlemen, for making men insensible.' So Liston introduced ether to a London hospital." The subject was a man, thirty-six years old, whose right leg was amputated. The operation was successful, and Liston uttered the epilogue, "This Yankee dodge, gentlemen, beats mesmerism hollow."

Marvels of India.

What a wonderful country to India! There is only one India. Its marvels are its own. There is the plague, the black death, India invented it. The car of Juggernaut was also India's invention. So was the suttee, and with the time of men still living 800 widows willingly and in fact joyfully burned themselves to death on the bodies of their dead husbands in a single year. And 800 would do it this year if the British government would let them. Famine belongs especially to India. India has 2,000,000 gods and worships them all. On top of all this she is the mother and home of that wonder of wonders, caste, and also that mystery of mysteries, the Satanic Brotherhood of the Thugs.—Churchman.

Setting Her Right.

The pretty and petulant wife of a congressman stood for a moment before the window of the receiving teller in a Washington bank, then tapped the window with her parasol, exclaiming, "Why don't you pay attention to me?"

"We pay nothing here, madam," was the reply. "Please go to the next window." — Denver Republican.

Those Useless Questions.

"How did you get the bruised face?" "It was caused by the back of last night."

"Accidentally?" "No, I think it attacked me purposefully." — Kansas City Journal.

Biblical Reference.

"And who," asked the Sunday school teacher, "who was it that cried, 'O king, live forever?'" "All the life insurance agents," suggested the small boy whose father was an adjuster. — Judge.

Agent for several first class insurance companies, and will take risks at the lowest rates. Also issuer of marriage licenses. Several valuable farms for sale cheap on easy terms.
C. E. BOURNE.

NORWAY'S INCOME TAX.

It Reaches All Incomes in Excess of \$83.08 Per Year.

How should you like to pay an income tax on next to nothing? If you were a Norwegian living at home and earning \$134 a year you would be taxed on one-tenth of it if you were unmarried; on about one-twentieth of it if you were married and had no children. If you had children you still would be taxed on one-fiftieth of it.

With an income of \$536 a year you would be taxed if unmarried on more than half of your income, if married and having no children on about 46 per cent of your income, having one child on about 37 per cent, two children on about 31 per cent.

Unmarried and having an income of \$2,680 a year in Norway your income tax payment would be \$421.22; married, with one child, \$389.94; married, with six children, \$555.17. All that you would get off your income tax (married for having six children would be \$66; all that you would get off by having five more children would be \$45 and six bits!
Married or unmarried in Norway, you could escape paying an income tax only by having an income less than \$83.08 a year. Think of paying an income tax out of earnings of \$7 a month! — New York Press.

THEY PLAYED CHESS.

The Loser Afterward Learned Without Asking Why He Lost.

Baron Hengeimuller, the Austrian diplomat, a man famous for his chess ability, one day at a house in Washington met a young man whose name he did not catch when the introductions were made. Chess was the topic of the conversation by all those in the company, and presently the young man suggested diffidently that he would be highly honored if the baron would play a game with him.

The baron consented. They sat down. After a few moves the baron looked up from the table checkedmate and found the young man reading a paper. The chessmen were placed again and, after not so many moves as before, the baron looked up to find the young man reading the paper and himself checkedmate.

After his dinner the baron came back. He wanted another game, being somewhat chagrined at the ease with which he had been beaten. As he came in he found the young man who had played with him that afternoon blindfolded and playing against sixteen opponents at the same time. The young man was Pillsbury.—Saturday Evening Post.

Our Sleep.

As a race we sleep too little. An infant's life is nearly all sleep. Gradually as the child grows older the hours of sleep are shortened to half the day or about eight hours. Youth until the age of twenty is reached requires fully ten hours' sleep. Although nature demands fewer hours' sleep in summer than in winter, it has been proved that eight hours of sleep are required for the average adult in good health. By this, explains the Pittsburgh Dispatch, is meant not simply eight hours in bed, but that amount of good, sound, restful sleep night after night. Our power to work is intimately related to our ability to sleep, and there is no more reliable indication of sound health than the capacity to sleep naturally, and the more active and energetic the waking life the deeper the sleep.

When you have a bad cold you want the best medicine obtainable so as to cure it with as little delay as possible. Here is a druggist's opinion: "I have sold Chamberlain's Cough Remedy for fifteen years," says Enos Lollar of Saratoga, Ind., "and consider it the best on the market." For sale by all dealers.
