Facts About Tuberculosis

It is an extraodinary fact that a cow may present a perfectly healthy appearance, thrive well upon her feed and give a good flow of milk and yet be in a badly diseased state with tuberculosis. This is very clearly brought out in a pamphlet prepared by the International Commission on the Control of Bovine Tuberculosis. Photographs are shown of fine looking animals that are known to have been diseased for years without cough and otherwise apparently healthy, and yet constantly passing tuberculosis germs that when consumed by hogs produced the disease. Such animals are a constant menace not only to the health of the herds to which they belong, but also to the people who use their milk, or are otherwise associated with them. Apart from the health standpoint the disease causes the loss of millions of dollars annually in cattle and hogs besides materially decreasing the food supply of the country. The disease is commoner in some regions than in others, in some districts it being no uncommon thing to find as many as 70 to 80 per cent of the cows in a herd diseased. In order to lay these and many other important facts regarding the disease before cattle raisers, and others interested in live stock, a large issue of the pamphlet known as the Tuberculosis Primer was printed by direction of the Honourable, the Minister of Agriculture Those who have not already received a copy may do so by applying to the Publications Branch of the department of Agriculture at Ottawa

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take and mild and gentle in effect. For sale by all dealers.

When you deal with obstinancy, remember that the best way to draw a rusty nail is to drive it in a little first.

A trouble had arisen among the singers of a certain church, and one Sabbath morning the good minister found himself without a choir. He read the old familiar hymn, commencing, "I love to steal awhile away." In the absence of the choir one of the deacons threw himself into the breach and undertook to lead it off. He pitched the tune and sung "I love to steal," but had hit it so high that he broke down. He tried it a second time, and again broke down at steal, it was so low. Not discouraged, he tired it the third time, and sung "I love to steal," and then went down as before. At this point the audience became amused, and the minister arose and said, "It is greatly to be regretted, Let us pray."
