The individual has a part to perform. The voke here implies miracles of Jesus. because they repenttight had come and opportunity had three things: 1. Submission. 2. Service.

Submission. 2. Service.

Submission. 2. Service.

Fellowship with Jesus. Learn of me —Jesus is the greatest of teachers. ed not To the people of these cities we thoroughly and heartily the mesometh that came to them from the lips of teaching the blessed truths of the kingdom, as humility, obedience, service.

The sum of the service of teaching the blessed truths of the kingdom, as humility, obedience, service.

The sum of the service of teaching the blessed truths of the kingdom, as humility, obedience, service.

The sum of the service of teaching the blessed truths of the service of teaching the destruction that awaits are service.

hose who reject him. There is nothing phasis on "my." Christ's yoke is not like vindictive in his world, but rather, pity and grief, as if he would say, "Alas appointing.

PRACTICAL SURVEY. contively known, but it is placed at the codern Keraseh, about two miles from Capernaum to the northwest of the Sea of Gololea. Bethsaida-"House of fish," the meaning of the name. The city stood north of the Sea of Galilea, where the river of Jordan empties into that body of water. It was the birthplace of Every woe of judgment pronounced by Andrew, Peter and Philip. We have no Christ was the echo of a woe of pity particular record that any mighty works in his heart. He knows the different were done in those cities, yet there sure. degrees of enmity and obduracy which by must have been, else this statement possess the hearts of unbelievers, and would not have been made. "Both eities he will apportion their punishment acare here mentioned as typical of the cordingly. He will punish righteously busy region in which they lay, a region at all times, and He will reject none which the largest part of his deeds who seek salvation in fim. Guilt will, performed."—Ill. Notes. had been done eventually, work the downfall of the evildoer. Opportunities and circum-Paoenician city on the coast of the Medi- stances will be taken into account beterrean Sea and noted for its wealth fore judgment is passed. There were and commercial enterprise. Sidon was great moral disqualifications in the on the same coast forty miles farther "wise and prudent." They were covetous north and an important commercial cen-tre. These cities were notoriously wicked and were centres of Baal worship. We have no record that Christ ever entered their gates, but we know that he heard the gospel, saw Christ's miracles approached that region. would have re- and had opportunity to know His docpented long ago They were more receptrine. They were blinded by pride and tive to divine truth, and would have were strangers to the mysteries of the been savingly affected by it. in sack gospel. The "wise" were those who cloth and ashes—In the East it was were sought to become acquainted with

parment which resembled a sack, with boles for the arms, and to put ashes upen the head.—Lange.

22. More tolerable—Because Tyre and ly interests. Sidon had less opportunities for know-ing the truth. This text, with others, teaches the doctrine of different degrees of retribution, proportioned to the guilf. The clearness of the light against which ein is committed aggravates the guilt. Whedon. At the day of judgment The day when all deeds of all men shall be Galilee, became wealthy and luxirious, but the exaltation here mentioned has

reference to the fact that Jesus awelt there, and preached and wrought many miraeles. The revised version, following some ancient manuscripts, renders the passage, "And thou, Capernaum, shalt thou be exalted unto heaven?" The thought herein expressed is that, although the city exalted herself in pride, che would go down to ruin. Shalt be brought down to hell-"Down unto Hades." R. V. The city shall be destroyed. Hades means the abode of death, not the prace of the lost. These cities were utterly destroyed. Mighty works, which have been done in thee-There were many of them recorded, as the healing of the nobleman's con, the paralytic, Peter's wife's mother, raising Jairus' daughter to life, the healing of the woman who touched His garment, the centurion's servant, and many others not specifically noted. In Sodom-Sodom stands for the grossest wickedness, yet ance by the ministrations of our Lord. Would have remained until this day-The cities of the plain had been de stroyed nearly two thousand years before Christ, because not ten righteous persons could be found there, yet Caper naum with all its privileges went down to utter ruin, so that it is now difficult to determine its exact location. 24. More tolerable for the land of Sodom-Jude tells us (Jude 7) that there people are suffering the vengeance of eternal fire, and yet it will be more tolerable for

them at the judgment day that for those who live and die infidels under the gospel.—Clarke.
II. The communion of the Son with the Father (vs. 25-27). 25. At that time Jesus answered-in close connection with the woes pronounced upon those who rejected Christ. I thank thee -I fully confess, fully acknowledge the justice of thy doings .- Schaff. Thou hast hid these things from the wise and prudent -The truths that pertain to Christ's kingdom were not perceived by the scribes and Pharisees, who were considered wise and prudent, because they weer self-righteons and rejected the light Revealed them unto babes—Babes are bresentatives of a receptive spirit, persect trust, openness to impression and freedom from prejudice." 27. All things are delivered unto me -It means that Christ has control over all things. for the God of his church; that the government of the universe is committed to him as Mediator, that he may redeem his people and guide them to glory .-Barns. No man knowth the Son-No man can fully comprehend the mystery of the incornation, the character and the attributes of the Son, and the great work he has done, and is to do, in saving the world. But the Father-God only can understand himself. Save the Son-No man can understand or comprehend

the Father in his nature, his attributes and and his providences, save the Son. 131 Invitation and promise (vs. 23-20.) 28. Come unto me Although the Worldwe come unto me Although and worldwhite will give no heed to the truths of

NOTES

The family doctor prescribed for him. This did not do any good, so we took him to a hospital. He was treated as an out-patient twice a week and he got worse, if anything. We then ealled in another doctor and inside of a week the boy was, to all appearances, cured and the doctor said his work was done. But the very next day it broke out as bad as ever.

"We decided that it could not be cured and must run its course and so we just kept his arms bandaged to his side to prevent his tearing his flesh. The Cuticura Remedies were recommended. We started using them in May, 1909, and soon the cure was complete. Cuticura made his skin perfectly clear and he is entirely free from the skin disease."

(Signed) Robert Mann, May 2, 1910.

In another letter, dated June 29, 1911, he adds: "My boy has never had any more trouble since using Cuticura." meek and lowly in heart - Hence capable Satan's, which is galling, heavy and dis-

It was God who revealed those things unto "babes," unto those who themselves up to the divine wisdom to

embrace truth as it was revealed. III. Extended to the sin-oppressed 'Come . I will give you rest." This is the golden sceptre of the gospel. The Redeemer's condescension and mercy equal His Majesty. He invites the sinner to Him for rest or to a condition is which the powers of the soul are quickened and rendered alive to its capacities, duties and privileges, to a lasting state of peace and strength. There is no burden heavier than the burden of ain on the conscience. The call is to those conscious of sin as a burden, and who groan under it, convinced of the evil of it as it is in themselves, and weary of the service of the world and their danger because of sin. This is necessary to a preparation for the gift of pardon and peace. Christ came to give freedom from the burden and voke of the ceremonial law, intolerable of itself and made more so by the traditions of the elders. He came to introduce a purer and more spiritual worship, but above all to lift the burden of guilt and power of sin. gree to work on, we are troubled by the lack of uniformity in size and con-

CROPS NOW SAFE

Western Harvest On-Little up, all sizes and conditions of chickens; they eat as much as a Thoroughbred, Danger From Frost.

Winnipeg. Sept. 9.-Although the weather continues rather unsettled, reports received from numerous country points show that harvesting is more advanced than is generally supposed.

Particularly good is the progress in Southern Manitoba, and the southeastern districts of Saskatchewan. A bulletin from Arcola, Sask., says that many farmers have finished wheat cutting and quite 80 per cent, of the total wheat of that section is cut. With favorable weather all grains but flax will be cut this week. There has been no damage from frost or rain,

Other reports show that even where not more than fifty per cent. of the wheat erop is cut the balance is so far advanced toward maturity that it is practically safe from serious frost damage. Harrentens are being engerly anapped up as they come in at big

hest teacher, but man has so modified her sphere over the chicken business that in many cases he has knocked out all the maternal sense out of the old birds, therefore he has to keep a watch ful eye on the turkey hen with chicks, but the turkey hen is best raised on natural lines. Leave all artificial methods severely alone over the turkey-raising part of your poultry, we cannot improve on nature. Nature's methods are the best, but do not always work quick enough for man's requirements, but, however, artificial your methods of

LEGHORNS BEST MONEY MAKERS. Most persons raise poultry for money; some do it for pleasure alone, but they are few, and if the fancy was made up of these lone, it would be a mighty small items, says Norman Lindsay. Yes, when one thinks of raising poultry, they think of money first. They invariably want birds that are most popular and will afford remunerative returns. Some want meat and eggs, others enter the business for eggs alone. There is money in raising fowls for the market, too, but there is more money in eggs. Eggs command good prices the entire year and especially froe October until March. The prices for fresh eggs are always good. Prices range from 20 to 50 cents the

hatching and rearing become, see that

your stock birds are reared on natural lines.—T. Uttley, in Canadian Farm.

dozen mostly all year.

Now, some people think they can
raise a heavy breed for meat purpose and also collect as many eggs from the heavy fowls as can be secured from white leghorns. Let me say right now that those who labor under this impres-

sion are greatly mistaken.

I suppose some people will want me
to prove why the S. C. white leghorns are the most popular fowls to-day and the biggest money makers of the feathered family. Here are a few proofs: More poultrymen raise white leghorns than any other breed. White leghorns have won every egg-laying contest worth while. They lay large white eggs. Eggs of the white leghorn bring from 2 Butcher cows, canners ... 1.50 to 4 cents the dozen more than any oth- Feeding steers 5.00

CANADA'S BUTTER

Not Enough Produced for Home Market.

Ottawa, Sept. 9. The report of J. A. Ruddick, the dairy and cold storage commissioner, for the year ending March 31, 1912, just issued, contains some interesting remarks on the subject of the home market. After noting that the B unfavorable weather of 1911 caused a Te shortage of butter and cheese, Mr. Rud-

"It became apparent early in the winter that the storic of stored butter in C Canada, plus the winter production. would be insufficient to supply the demand until the new season's output would be available. As a result, a large quantity of butter was imported, principally from New Zealand, the total quantity coming from that country to powerful "Bull's eye" glass, the whole thing complete in itself, with such a ate March 31 being 2.139,844 pounds. There has also been imported during the year 929.318 pounds from the United know for a certainty what class of egg

lu explanation of this Mr. Ruddick says that the freight and duty (three cents per pound) on freshly made but ter from New Zealand amounts to about the same as the cost of carrying Canadian butter from summer to March. Canada, he says, does not produce enough butter during winter for her current demands, and must either hold some summer butter in storage or import from the southern hemisphere.

"It is not unlikely." he says, "that the Pacific Coast, at any rate, will continue for some years, as in the past, to secure partial supplies from Austra-

Messrs. The Sanol Manufacturing Ca.,
Gentiemen. For some years past I had suffered with my kidneys. About eighteen months ago I had acute inflammation of these organs, when I was ordered to bed by the medical man attending me. I received considerable relief, but after a few weeks the trouble started again. It was then that I decided to try "Sanol," of which I had both read and heard. After taking two bottles I felt very much better, and my condition rapidly improved. When I had taken the contents of eight bottles I felt better than I had done for some years, for my kidney, trouble had entirely left me.

It is now about three months since I finished with the medicine and I am enjoying the best of health.

I intend to visit you in the course of a few days to make arrangemnts for sending eight or ten bottles to my brother in England, who is anxious to benefit by your wonderful remedy.

I am, gentlemen,

I am, gentlemen,

Yours truly, G. Henry Wage.

Hamilton, Ont., Aug. 17th, 1912. The Sanol Manufacturing Co., Winnipeg, Man.

leadly attacked that it is unable to nearly out at all.

Means of Control.—The best means of control is to prepare the seed-best with extra care, so that it will be in excellent shape when sown; to select food, large, plump, unsprouted seed (small grains can be removed by the fanning mill), and not to sow any wheat before the 5th of September. In the warmer parts of the Province, the 16th or 15th would be preferable. If the seed-bed is in proper condition this late-sewn grain should grow rapidly and produce good vigorous plants before winter. The better it grows, the less injury it is likely to receive from the fly. The object of inte sowing is to wait until the flies have laid their eggs elsewhere, or died before the new crop appears above ground. Plowing down or burning over wheat stubble as soon as the grain has been hauled in, or, on the other hand, running a cuitivator or disk over the field to start the wheat growing, and induce the flies to lay eggs in, and then plowing it under just before seeding the whole field, are each helpful methods of control wherever they can be applied. But the main remedies are those first mentioned. Late sowing is likely to be very effective this year, cause the showers we are getting in the cause the showers we are getting in the gust will hasten the appearance of the gust will hasten the appearance of the gust will hasten the appearance of the growing cause, but it is not safe to depend upon them to keep it under control.—O.
