

Our Sole Business is the Manufacture of

SPRAMOTORS

That's The Big Reason why you only hear of SPRAMOTORS and ordinary spraying outfits now-a-days. The Supremacy of the SPRAMOTOR in every class is unquestionable. It would be marvellous if we couldn't produce MORE EFFICIENT ECONOMICAL and DURABLE machines than our competitors—since they look on the manufacture of spraying outfits as a SIDE LINE—while we have CONCENTRATED OUR CAPITAL, ENERGIES and brains on the PERFECTING of SPRAMOTOR for seventeen years.

It does not matter what your spraying needs may be there's a SPRAMOTOR SPECIFICALLY BUILT for your purpose—a machine that WILL DO MORE and BETTER work than any other spraying outfit in its class—a machine that will give you ENDLESS SATISFACTION because it is built to endure.

Hundreds of farmers have proven the H. P. Spramotor (See cut) to be profitable investment. The horse does everything but direct the nozzle. The machine can be operated by hand where preferred. Has 8 nozzles that cannot clog—the number can be arranged to suit requirements. Prices range from \$8.00 to \$350.00 Equally effective for vineyards, row crops, or grain work.

State requirements and we will forward interesting facts without placing you under obligation to buy.

Learning His Father's Business.

"What?" exclaimed the wealthy Cleveland papa who had put his son to work in order to teach him a few things. "What? Fired after working one week?"

"Yes, dad; I was discharged." "What was the trouble?"

"They said I was too green for them."

"What was your mistake?" "I paid a bill the first time the collector called!"

"Aha! And now you see how foolish you were?"

"Yes, dad. I'll never do it again."

"My son, you have served your apprenticeship and learned your lesson. You may now come into the office with me."—Cleveland Plain Dealer.

His Composition. "Now, Johnny," said the teacher after she had explained the meaning of the word, "I wish you would write a sentence containing the word defeat."

After a struggle which lasted for about twenty minutes Johnny announced that he was ready to be heard. "Please read your composition," the teacher directed. "When you git shoes dat's too tite," Johnny read, "it's hard on de feet."—Chicago Record-Herald.

Very Observing. Muggins—Do you believe women are more observing than men? Buggins—Well, my wife met a friend on the street today for two minutes, and it took her two hours to describe what the other woman had on.—Philadelphia Record.

No Taste For Them. "I notice that you always have a box at the horse show. Are you a lover of horses?"

"Oh, dear, no! I'm a strict vegetarian."—Chicago Record-Herald.

In so far as you approach temptation to a man you do him an injury, and if he is overcome you share his guilt.—Johnson.

The Chinese celebrated the first anniversary of their Republic by suspending important business and taking a holiday. There were a display of flags by day and lanterns by night, but there were no firecrackers. Thus again appears the wisdom of the East.

E. T. CARTER HARDWARE. JARVIS

An expert farmer, who has made a close study of entomology, says that owing to the ground having been covered so scantily with snow this winter there will be few June bugs in the spring. "The frost will easily reach the larvae with such a light covering of snow," he said, "and as they cannot stand the cold they will die. Last spring there were swarms of June bugs and many farmers were so inconvenienced by them that even if a few millions are missing this spring, no one will regret it."

As a man grows older he is apt to care more for comfort and less for chivalry.

"My little son had a very severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished he was as well as ever," writes Mrs. H. Silks, 29 Dowling Street, Sydney, Australia. This remedy is for sale by All Dealers.

You must not enclose matches or any other inflammable or combustible matter in the mails. Stringent methods will be taken by the Post-office Department against this practice. A large conspicuous card has been issued by the department at Ottawa to this effect, and it is to be hung in the lobbies and corridors of the postal branches. The penalty for a breach of this by law is as great as two years imprisonment.

Concrete is the cheapest building material.

WHETHER for a silo, a milk-house, or a million bushel grain elevator, concrete is the most economical building material in use today. Concrete never requires repairs, and the saving in repair-expense alone makes the greater economy of using concrete more apparent every day. The cost of other building materials is constantly increasing. The cost of concrete is being reduced.

Canada Cement

which Canadian farmers use, with their own sand, stone and gravel to make concrete, is the only ingredient you have to buy. We have, by reason of our large output and scientific methods, been able to bring the price of "Canada" Cement so low that it is within the reach of everyone.

An increase in demand results in a greater economy of production, and when conditions have warranted it, we have, from time to time, shared this saving with the consumer by reducing the price of Canada Cement. This demand will continue to increase—as fast as farmers learn of concrete's superiority over other materials.

When you buy cement, see that you get "Canada" Cement; by so doing you will assure the complete success of all your concrete work. Send a post card for our book "What the Farmer Can do With Concrete." It is free.

There is a Canada Cement dealer in your neighborhood.
