# TO BURN HARROW

Militants Would Sacrifice Famous School.

London, April 28. The Standard says the police have learned of a Suffragette plot to burn the buildings of the famous school of Harrow. The buildings are consequently being guarded day and night. The police have also heard of a plot to blow up the residence of Mr. Blair, M. P., near Harrow. The Suffragettes have a grudge against Mr. Blair because he defeated Mr. Lansbury, the Suffragist advocate, at a by election last November in the Bow and Bromley division. Mr. Justice Lush, who sentenced Mrs. Pankhurst to three years' imprisonment, also lives at Harrow, and the neighborhood of his house is being very closely watched. The police learned that the Suffragettes were plotting to kidnap the son of the justice.

The Militants attempted to hold a meeting at Harrow to-night, and there was great disorder. The women speakinterruptions of the crowd. Pepper, snuff and ill-smelling chemicals were scatter- alty." ed throughout the hall, and the police had a hard job to protect the women

various deeds of daring, but none has carried with it the perilous conditions which will surround his leap at the Falls.

The plan of Place and the motion picture company is to have the Tonawanda man board a staunchly-built raft a short distance above the brink of the American don. The tragedy occurred on the Gordon farm, lot 14, concession 6, on Wednesday evening, when the son struck Falls and leave the raft with the aid of the parachute as the edge of the brink is reached. In order that there may be no danger

As the force from the Bureau of Mines, supplemented by trained miners from the district, penetrated farther into the working during the night, they were able to ascertain the extent of the damage. Whole entries were choked with fallen rock, the declining system was completely out of commission, and havoe was apparent in every part of three more days left for general debate the workings they were able to reach.

The bodies recovered were found buried under the fallen roof, and the opinion was expressed by some of the men that all bodies that will be recovered later will be found under masses of fallen rock. It may, therefore, be several days before the exact extent of the loss can be determined. The force of workers was increased this morning by volunteers from the district, the air having been advanced to a point where men not supplied with the rescue equipment could be used to advantage. However, some parts of the mine are still filled with gas, and until these are cleared
