Save Systematically
Haphazard, occasional saving seldom accomplishes much. It's the steady, persistent, regular depositing of so many dollars a week, or month, or season, in the Union Bank of Canada, which makes one financially independent. The money accumulates all the more rapidly, too, because of the interest which is added every six months.

Try it.

A wreck occurred between one and two o'clock Tuesday afternoon, about four miles east of here, when nine cars of the Wabash local left the track, tying up the road for nearly eighteen hours. The wreck was supposedly caused by a spread rail, but on account of the slow rate the local was travelling no damage was done. Although all the men that could be obtained were rushed to the scene, the track was not cleared till early Tuesday morning.
