Rockford

[Owing to the crowded state of our columns we are obliged to hold over a very interesting report of the stock judging Convention held on the farm of Wm. Hamby's, Rockford, on Thursday and Friday, but which will appear in our next issue.—Ed.]

At the quarterly official board meeting of the Old Townsend Circuit, held in the Rockford church recently, after the routine business had been dispatched in the usual cheerful and lively manner, very kind things were said of the pastor, Rev. Geo. Lonnis, and a very hearty and unanimous invitation was extended to him to remain on this circuit for another year, also assuring him that they were raising his salary \$150 for the present year, thus making it \$1000. While the preacher was very thankful for this kind token of appreciation and cordially accepted their invitation to remain, yet he did not seem to be much surprised, as he said: "It is just like what the Zion people would do."

Remember that what you call your strength of mind, another may regard merely as stubbornness and bigotry.

Women's gloves are sometimes dangerous from a medical standpoint. Mme. Tallen of Paris, France, bought a pair of six-button gloves for \$1 some time ago. A month later her face and body became covered with pimples of various hues. Doctors asserted they discovered that the gloves were responsible for the blood poisoning, and the woman has brought suit against the shopkeeper for \$3,000 damages. Judgement was reserved.
