Parcel Post Report Soon

Hon. L. P. Pelletier's scheme respecting the parcel post system will be ready to submit to the Cabinet in March, according to present plans of the department are engaged in collecting the required data. It is understood that George Ross, superintendent of post offices, is one of those most actively concerned. Statistics of the extent to which the mails now handle parcels are being made and it is understood the report of the first two months' operation of the United States system is being awaited with much interest, as Canada's success would be along the same lines. Beyond the fact that there would be a system zone and that the whole country would be covered, nothing as to details has yet been determined.

Discontented Daughters

During the last few months there have appeared several very able and interesting books on the subject of discontented daughters. The young women who are not called by the writers "discontented"; they are more generally called "disfranchised," as there seems to be a very strong feeling in the air that daughters as a whole are crushed and abused, and who meet with a great deal of undeserved cruelty and neglect at the hands of their parents.

Are Farmers Less Sociable

Are modern innovations destroying the old-time sociability that has marked Canadian rural communities? There is no doubt in the mind of the unbiased observer that people to-day in rural districts which brightened the grey life of those of the last generation.

MEN—YOU NEED NERVE

EARLY INDISCRETIONS AND EXCESSES HAVE UNDERMINED YOUR SYSTEM

The nerves control all actions of the body so that anything that debilitates them will weaken all organs of the system. Early Indiscretions and Excesses have ruined thousands of promising young men. Unsteady Drains sap their vigor and vitality and they never develop to a proper condition of manhood. They remain weak, listless, mentally, physically and sexually. How you feel? Are you nervous and weak, dependent and gloomy, spectacles before the eyes with dark circles under them, weak back, irritable, palpitation of the heart, painful, debilitating dreams, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, earwax, nervousness, poor memory, listless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, premature decay, bone pains, hair loose, etc.
