Save Systematically

Haphazard, occasional saving seldom accomplishes much. It's the

system that counts. The money accumulates all the more rapidly, too, because of the interest which is added every six months.

Clean up and keep clean.

There is no reason why we should not have the cleanest town in Ontario, even if we cannot boast of the largest. Every man, woman and child in Jarvis ought to respond to the appeals that are being made to make the town neat and attractive, and clean and sanitary. It is a small matter for each family to clean up its own premises, but with every family in town doing this the whole town will not only present an attractive appearance but will be more healthy as well. Let every one join in this war against dirt, disease, rubbish, ugliness and indifference to the public good, and when the town is in the condition it should be, let every one help to keep it so. The town is in urgent need of cleansing and purifying after the long winter and the dampness of early spring, and all effort to this end will bring reward a hundred fold.

Just plain "Mama" after July First.

Chicago, May 8th.—All is "wo." Mama has lost an "m," and it will do her no good to look for it, because the university council of Northwestern University has decreed that after July she will be just plain mama.

The council made public its latest list of words of simplified spelling. Continuing its wave of reform, the council has forever removed the intoxicating "e" from whiskey. It may make the Illinois farmers' boys feel a little easier to know that the "plough" will be known this summer and hereafter as plain "plow." The good old "ae" has been simplified to plain "e," as noticed in such words as anesthesia; "oe" has met a similar fate, and the famous old bird is now known as the phenix. Another new one is subpena. The reformers have removed the "ough" from hiccup, and made it just plain hiccup. The "ue" has been lost from catalog, prolog and pedagog.

As a tip to poets, rhyme hereafter is to be simply rhyme.

Three thousand carpenters in the city of Toronto are liable to go on strike. The matter is only germinating, and the union has made no decision. It is a matter of wages.

This sentence contains the entire alphabet: "Pack my case with five liquor jugs." Thirty-two letters—can you beat it?

The man who has enemies amounts to something. He is a live man. He is a fighter. People don't kick a corpse. A live man can swim against the current; a corpse floats down without hindrance. God bless our enemies. We love them. They make life worth living.

It makes little difference what the trade, business, or branch of learning in mechanical labor, or intellectual effort, the educated man is always superior to the common laborer. One who is in the habit of applying his powers in the right way will carry system into any occupation, and it will help him as much to handle a rope as to write a poem.

This is the time of the year when the old hen never fails to get into your neighbor's garden. You know the result. One good scratching hen can in five minutes scratch up all the friendship that has been growing for years between neighbors. Keep her at home or cut her head off.

The Young Men's Christian Association Extending Its Activities.

It is interesting to note that the Young Men's Christian Association is advancing another step in their great work of assisting young men. They are constantly reaching out far beyond the bounds of immediate membership, and are now doing a work which encircles the globe in its effort to lend the helping hand to any young men needing assistance.

A new department of the work recently organized in the Toronto Central Branch of the Young Men's Christian Association is one that should be known to every one. It is a co-operative effort between the Christian Churches and the Young Men's Christian Association in which they unitedly undertake to look after all young men coming to Toronto as strangers, putting them in touch with employment, good rooming and boarding houses, proper companions and with the proper young men of the church, etc. "Key-men" are being appointed in every church of Toronto, men who assume the responsibility of looking up young men whose names may be sent to them by the Secretary of the work. "Key-men" are also being appointed in outlying municipalities whose duty it is to notify the Secretary of the Inter-Community work of any young man leaving his home town and for whom he is to work. Information is also being sent in from many other sources in the British Isles, Canada and United States as to young men coming to Toronto, and hundreds are already being looked after.

Parents and friends of young men going to Toronto will be glad to know of this important move on the part of the Y. M. C. A. and the churches, and will no doubt, take the opportunity of notifying the Secretary of the Inter-Community work, Mr. E. F. Trimble, at the Central Y. M. C. A., Toronto, of any friends going to Toronto to live. We understand that, without any properly organized effort, the Central Branch of the Toronto Young Men's Christian Association has assisted in different ways more than 5,000 men during the year ending May last, fully 1,000 of these being assisted in securing employment. That being the case the possibilities for good in this new department, with the churches assisting in every way are beyond calculation.

The Cost Staggers Them

Port Rowan News.—The mass of the farmers in Norfolk are prejudiced against any good roads system. The cost staggers them. Taxes have been a nightmare to them ever since the days when their fathers had to begin with the opening of the year to save their coppers so as to have enough to satisfy the collector when he came round. In those days the preacher could be put off with a bag of potatoes and a slab of bacon, and the shoemaker was satisfied with a few coon skins. Is it any wonder that the descendants of such a people should dread a public enterprise which involves large outlays.
