Mr. and Mrs. D. McNeilly and family have moved to Marburg.

### Renton

Gen. Dunne had a gang of men working at his new home putting in a cement foundation last week.

Saturday was so wet that some of our neighbors took the train to Simcoe instead of driving their horses.

Sunday was a wintry like day, the ground with the "Beautiful".

Miss Lena Mitchell from Townsend Centre spent Saturday under the parental roof.

Mr. Newell from West Branch, Mich., and his sister, Mrs. Gen. Charlton, from Jerico, were visiting their brother, Mr. Hugh Newell last week.

### Nanticoke

The A. V. P. A. concert held in the town hall last Wednesday, Nov. 5, attracted quite a large crowd.

The programme opened with a chorus sung by the choir. Soloes were also rendered in fine style by Miss E. Thompson, Miss A. Kellian, P. Hullan, L. Jackson, Irene Snowdon, Mrs. A. Howey and Mrs. G. Hewitt.

Miss G. Hewitt also played the Cathedral Chimes, which pleased the audience immensely.

The Rev. Spencer gave an illustrated lecture on "Good Health and Long Life." The pictures were very interesting, most of which were taken by himself. The proceeds amounted to a little over \$18.

Mr. and Mrs. A. Howey and Miss Lou Howey attended the ball given by the bankers of Jarvis last Friday.

Mr. and Mrs. Semans have just moved into town, where he intends doing shoe repairing.

### Rockford

Too late for last week. You ought to have been out Sunday evening to hear Mr. Louisa's sermon on the question that cannot be answered, Hebrews 2 and 3. "How shall we escape if we neglect so great Salvation?"

Service next Sunday morning at 11 a. m. after which the Sacrament of the Lords supper will be administered.

The delegates returned from Owen Sound on Tuesday evening and report a good time. Mr. Howard gave no speech did talk Sunday morning on the general outline of the convention and Miss Maggie Smith gave a report of the sessions of first day and a half of the conventions.

It is being certainly fine. Miss Ethel Howard will also give her report of the last day and a half of the convention next

## D.F. Williams & Co

Sunday morning. We are glad to learn that Norfolk County is the leading county in Sunday School work and that Mr. B. H. Nelles who has been our corresponding secretary has been appointed President of the Provincial Sunday School Association which is doing a grand work throughout the province.

On account of next Sunday being our Communion Sunday we have decided to leave the temperance lesson till the Sunday following when we are planning for a Temperance Day.

The committee are preparing a temperance program and Mr. Louisa's sermon will be on temperance and moral reform in the evening.

Miss Margaret Hair is home from the North West.

Mr. and Mrs. Bert Holmes spent Sunday last with Mr. and Mrs. John Shaw (Grand Line).

We are sorry to report that Mr. East is very low at time of writing and slight hopes are entertained for his recovery.

## Providing for Your Family

SUPPLYING your family with investment-day comforts, does not constitute your only financial obligation to them. Their future depends on more consideration than their wants to-day.

If anything should happen to you you must insure your family's future by providing for their education, or your wife and daughter to be thrown out on the world to struggle for a living.

The surest way of providing for your family's future is to leave your money. Don't yourself a few dollars more, that they may have comfort always.

One dollar will open an account with this bank and interest at the highest current rate will be credited every six months.

## School for Wives.

A school for wives is the latest and it should prove to be a good thing. The institution is located in New York City, and its management announces that it will give a four-year course for girls, upon graduation and marriage, will be entitled to spend their husband's income to the best advantage and keep an account book that will "come out straight at the end of the month."

Dr. Stuart H. Rowe, principal of the school, says that upon completion of the wives' course the sweet girl graduates will be able to cook a dinner, converse intelligently on literature, history and equal suffrage, that they will be able to trim their own hats artistically keep them free from germs, and play their part in a social way.

Dr. Rowe adds that the course was suggested to him by the reflection that 65 per cent of the girls now in school will marry sooner or later and that they are being fitted for any vocation rather than that of matrimony. It wouldn't be a bad idea to have such a school in every town in the country.
