

## NEW MEN FOR HOME MISSIONS

Presbyterian Committee Appoints Many to Work.

## FOUND A SHORTAGE

Re-arrangements Necessary in Some Cases

Toronto despatch: The task of providing ministers for fields where student missionaries have returned to their respective colleges to resume their studies during the winter has occupied the executive committee of the Board of Home Missions of the Presbyterian Church for several days past. In all 412 vacancies were caused in that manner, and considerable difficulty was found in supplying the demand for men. However, 135 appointments were made. In some instances it was found necessary to group fields and arrange for fortnightly services in each. In other cases the committee resorted to a form of church union in the outlying districts and provided for cooperation with other denominations in ministering to the people. Applications for financial assistance totaling \$75,000 to be used in the building of churches and mansees were also received. It was also reported that to fields receiving assistance from the board the payments for the last quarter exceeded \$100,000. District superintendents and conveners stated that the work of the church was in excellent condition.

The new men, with the names of the provinces to which they are appointed, follow:

New Ontario: Rev. A. Grant, Rev. C. V. McLean, Rev. B. Keyser, R. C. Halliday, Frank Allan, Benjamin Haynes, Fred Berner, E. E. Butler, G. E. Bundy, S. J. Ford, Edward Jamieson, Wm. Kirkpatrick, W. J. Rayner, J. M. Walker, W. C. Conning, J. M. Allan.

## KILLED SOLDIERS

Then Thieving German Orderly Committed Suicide.

Paris, Germany, Sept. 29.—Two German soldiers were killed and one severely wounded last night, by an orderly's order, whom they were attempting to capture, after he had been detected in a robbery. He then committed suicide.

The striker was attached to an officer of a dragon regiment stationed here. When he found he had been seen committing the theft he fled to an attic in the barracks, and was pursued by several of his comrades, led by an officer. He was armed with two ordnance revolvers, with which he shot three men, two of them fatally, and then killed himself with the last cartridge.

## PRINCE A PLUNGER

Kaiser's Young Nephew Has \$100,000 Debt.

Berlin, Sept. 29.—Recent stories of an unnamed German prince having incurred debts amounting to \$100,000 while he was at Strassburg University have crystallized into a definite statement from Geneva that the scapegrace is Prince Waldemar, eldest son of Prince Henry of Prussia, a brother of the Kaiser, who is about 24 years old.

According to this version of the story, Prince Waldemar was unable to meet the demands of his creditors, and borrowed \$100,000 at exorbitant interest from a Zurich banker. The latter was arrested at the instance of the German police on a charge of fraud, but was released afterwards on proving that the deal was a bona fide one, and that he had merely responded to an application for a loan by Prince Waldemar, who gave him a promissory note. The incident, however, is alleged to have ruined the banker.

Prince Henry of Prussia has given an undertaking to pay his son's debts.

## TO AID FARMERS

Bankers Planning to Finance Their Threshing

Officers Elected at Winnipeg Conference.

Winnipeg despatch: The loaning of money to farmers to finance their threshing was one of the most important subjects of discussion at the meeting of the Canadian Bankers Association today. The proposal met with general sympathy by the bankers and a committee was appointed to more fully investigate the question. The details of the discussion were not given. This and other important features of the new bank act, which came into force on July 10 last, occupied the attention of the meeting at some length. Matters of interest, most particularly to the banks in Western Canada, during the past year were dealt with.

Uniformity in making up the Government returns called forth considerable discussion. With regard to a communication received from Queen's University, Kingston, Ont., that extra classes be established in banking and allied subjects for the bank clerks, the suggestion was received favorably and a committee was formed for the purpose of looking into the matter.

The resignation of John T. P. Knight, who since the formation of the organization has been secretary, was received and accepted, the selection of a new secretary was left in the hands of the council.

The following officers were elected: President, D. R. Wilkie; Honorary President, G. W. Hague; Sir Edmund Walker, R. R. Angus, D. Coulson, Vice-Presidents; George Burns, Ottawa; Alex. Laird, Toronto; E. L. Pease, Montreal; H. V. Meredith, Montreal.

The following, all of whom are general managers, form the new executive council: E. F. Heblsen, Merchants Bank, Montreal; F. T. Howe, Bank of Toronto; R. B. Stevenson, Quebec Bank, Montreal; James Elliott, Molsons Bank, Montreal; L. Lavioie, La Banque Nationale, Quebec; W. J. Schofield, Standard Bank, Toronto; J. A. Rogers, Dominion Bank, Toronto; G. H. Balfour, Union Bank, Union Bank, Winnipeg; H. A. Richardson, Bank of Nova Scotia, Toronto; T. Bionveni, La Banque Provinciale Du Canada, Toronto; H. B. McKenzie, Bank of British North America, Montreal.

## HAD GOOD MEMORY

And It Convicted a Windsor Thief.

Windsor, Ont., despatch: The recent memory of Peter McKellar, 127 Goyeau street, was responsible for the conviction of Louis Martin, in police court today, on a charge of larceny.

McKellar, who is a fireman at the Windsor water works, left his coat with \$46 in a pocket in a locker on September 3. Martin, according to evidence, strolled into the room later and carried away the money. He was arrested the same night.

McKellar remembered the denomination of every bill. He had four five-dollar Canadian Bank of Commerce notes, three Home Bank notes and the remainder in notes of the Royal Bank. He remembered a tear in one which the magistrate was unable to detect with the naked eye. Martin was remanded until Monday, when he will be sentenced.

## FEATHERED TOURISTS RESCUED.

Rome, Sept. 29.—The monks of St. Bernard saved the lives of many thousands of "travellers" the other night during a heavy storm. An immense number of migratory birds, mostly swallows, which were going south across the Alps, became exhausted about the hospice of the monks, being unable to traverse the birds who flew inside, where was prevailing. They must have perished but for the action of the monks, who opened all the doors and windows and illuminated the hospice. This attracted the birds, who flew inside, where they were sheltered for the night. They flew out of the building in the morning and resumed their flight.

## SHOT PAYMASTER

Quebec Mine Official Assaulted by Unknown.

Sherbrooke, Que., despatch: Lewis Dean, paymaster of the Amalgamated Mines, was shot in the back by an unidentified man this afternoon while he was driving to Black Lake to pay off the mine employees. A posse is searching for Dean's assailant. Dean, who is fifty years old, is in a local hospital, and his chances of recovery are good.

The paymaster had in his possession a cheque for a considerable amount, but carried no cash.

Five pellets from the shotgun which the would-be assassin used entered Dean's back, his life being saved by the fact that the greater part of the gun's charge entered the back of the carriage seat and failed to penetrate it.

Provincial police will be on the trail to-morrow.

## THE DUBLIN STRIKE

Employers Reject Proposals of Lord Mayor.

Dublin, Sept. 29.—The Lord Mayor's proposals for the settlement of the strike do not seem to commend themselves to the employers, who are not inclined to discuss the situation with James Larkin and the officials of the Transport Workers' Union. Yesterday the Lord Mayor issued a memorandum outlining a plan for the appointment of a special conciliation committee, comprising six members nominated by the employers and six by the transport workers, with Sir George Asquith as chairman.

There was practically no change in the situation to-day, except that military sentinels were sent to the relief of the overworked police. A relief ship with food supplies for the strikers left Manchester to-night.

## PEGGOLD IN LONDON

Daring Aviator Performs Astonishing Feats.

London, Sept. 29.—The acrobatic French aviator, Alphonse Peggold, gave the citizens of London an exhibition of his aerial somersaults and tippy-turvy flying at the Hendon Aerodrome this afternoon.

Peggold's remarkable manoeuvres began when he had reached a height of 200 feet from the ground, where he tilted his aeroplane so that it was at right angles to the earth. He then pirouetted on the tip of one wing and did several dives with the nose of his machine downward for 100 feet before he gained his equilibrium.

The aviator then rose to a height of 3,000 feet and accomplished the most sensational exploit by an aviator ever witnessed here. With a sudden swoop downward he threw the aeroplane on its back, flew in this manner for some seconds, righted his machine, and repeated the performance before reaching the ground, where he was given an ovation by an enormous throng.

## FOR 31-FOOT SOO

Government Plans For a Great Enlargement

Deep-water Channel to the Atlantic Ocean.

Ottawa despatch: As a preliminary to the enlargement of the Canadian canal at Split St. Marie to a depth of thirty-one feet, the Government is arranging for the expropriation of Whitefish Island and an additional strip of land along the south side of the present canal. Most of the property is owned by the Algoma Central Railway, and the Department of Justice is now instituting expropriation proceedings. Although there was no vote passed at the last session of Parliament for this purpose, the Minister of Railways and Canals, Hon. Frank Cochrane, is taking prompt action to secure the land when it can be got for a comparatively small amount, and before contemplated investments by private parties are made, thus rendering the property more valuable.

The actual work of enlarging the canal must, of course, wait until sanctioned by Parliament, but it is understood that a vote will be asked at the next session of Parliament for a preliminary survey and for the preparation of plans.

The enlargement of the Soo Canal is a logical sequence to the enlargement of the Welland Canal. The next step will be the enlargement of the whole St. Lawrence canal system so as to give a continuous thirty-foot channel right through from the head of the lakes to the Atlantic. This is the big scheme which Hon. Frank Cochrane is reported to have in view, and which the Government, it is said, will adopt. The formal announcement of the whole scheme will probably not be made for some considerable time yet, but meanwhile the enlargement of the Welland and Soo Canals will be proceeded with.

## TRAIN HELD UP

Robbers Dynamite Safe on Alabama Line.

Birmingham, Ala., Sept. 29.—Alabama Great Southern train No. 7, from Birmingham to New Orleans, was held up and robbed at Bibb County siding, three miles south of Woodstock, Ala., at midnight.

Engineer Daniels had stopped the train for a closed block, when the robbers climbed in and ordered the fireman to unhook the express, which was carried some distance down the track. After dynamiting the safe, the robbers, reported to have been two masked men, ran the engine down the track several miles, putting the fireman off. Express Messenger Kelly was covered before he knew what was happening, and could not say what the losses would be, but thought they would be light.

The mail car did not have much of value so far as known early this morning. The engine, mail and express cars have not been recovered.

Several shots were fired into the mail and express cars before the mail clerks and messengers left them. Three of the clerks, Saunders, Phillips and Ponce, narrowly escaped death. Saunders' head was filled with glass from the door, which was a bullet shattered.

Two dynamite charges were necessary to open the safe, the last one being so heavy as to jar the ground several hundred feet away.

The scene of the hold-up is a sparsely settled mining section.

## KILLED THEIR MAN

When Paid \$50 to Give Him a Beating.

New York, Sept. 29.—Two peddlers offered Frank Van Tonia, a Brooklyn gunman, \$50 to beat up David O'Connor, who took their horse by the bridle and amused himself by leading the animal around in circles. Van Tonia accepted, and to-day he was held for the grand jury on a charge of murder. The peddlers, Max and William Klein, brothers, confessed the bargain with the gunman, but protested that they had no grievance against anybody, and no desire to get O'Connor anything worse than a beating. They were held as material witnesses.

## THE SULZER TRIAL

Many Contributions Not Yet Accounted For

All Campaign Contribution Testimony Admitted.

Albany, Sept. 29.—These nine developments to-day marred the impeachment trial of Governor Sulzer.

Jacob H. Schiff, a New York banker, testified that he was recently asked by Samuel I. Frankenstein, a former law partner of Governor Sulzer, if he would accept the return of the alleged \$2,500 campaign contribution which the banker yesterday said he gave to the Governor without the restriction as to its use. Mr. Schiff said he had replied negatively.

The High Court, by a unanimous vote, decided to admit all testimony pertaining to campaign contributions made to the Governor, even though they were not specified in the articles of impeachment.

This ruling paved the way for the introduction of evidence intended to show the Governor had solicited and received large contributions from brewing interests.

The Governor asked, according to the testimony, that these contributions be given in cash instead of in cheques.

Counsel for the impeachment managers said they were prepared to prove the Governor received campaign contributions "vastly in excess" of the total mentioned in the articles of impeachment. There were more than 100 not accounted for, counsel asserted.

The names of a large number of these contributors, other than those of the brewing interests, were brought into the evidence. These included the names of fifty-two persons mentioned as drawers of Sulzer cheques in the account of Louis A. Sarecky, the Governor's campaign secretary in the Mutual Alliance Trust Company. This account showed with cheques and cash, that deposits of \$14,400 have been made between September 10, 1912, and the date of the Governor's inauguration.

Decision on the question as to whether Sulzer's alleged misuse of cheques given the Governor without restriction as to their use constituted larceny was reserved to give the court an opportunity to investigate the authorities.

Sarecky, regarded by the prosecution as one of the most important witnesses, and whom they said they had been unable to locate, was discovered by process servers in Albany and served with a subpoena.

## VICTIMS ARE FOUND

Eight Children Perished In the Quebec Fire.

Quebec despatch.—Lucienne, Wyvonne, Alice, Theresa, Charles, Alphonse, Jules, and Jean P. Trudel, whose ages range from 2 to 16, were the names of the eight children who were cremated as they slept last night in the fire which occurred in a wooden building situated at 46 St. Francois street, while the parents of the children and another son are inmates of the Hotel Dieu Hospital, suffering from burns. It was about midnight when flames were seen to issue from the three-story wooden house, owned and occupied by Mr. Trudel and five other families. An alarm was sounded and the fire brigade was soon on the spot, but owing to the inflammable nature of the building the whole structure was soon ablaze, and the Trudel family, which lived on the third story, were cut off from all chance of escape.

Mr. and Mrs. Trudel, however, were awakened and managed to drop one of their sons to the ground and, with a younger daughter, made their escape. Mrs. Trudel was horribly burned. She was rescued from the building by the firemen.

The charred remains of the victims were recovered this morning. Mrs. Trudel's condition is reported as serious.

## MONTREAL STRIKE

Garment Workers Threaten a General Tie-up.

Montreal despatch.—With some seven hundred garment workers, from three clothing factories in the city, on strike, the United Garment Workers of America, local No. 299, have issued a statement threatening a strike of all their members in Montreal, as a demonstration of sympathy with the men now out.

The firms affected at present are H. Vineberg, which has four hundred men out; Messrs. J. Elkins & Company, with two hundred out, and Suhlman & Company, whose hundred men struck to-day, because some of the work of the Vineberg factory was given to them to do.

An open-air meeting for the strikers and sympathizers has been arranged for Saturday afternoon next on the Champ de Mars, when the speakers will include Mr. Will Thorne, M. P., James Simpson, Toronto and several of the labor leaders now attending the Trades Congress here.

## WANT U. S. WHEAT FREE.

Calgary, Sept. 29.—The Calgary Industrial Bureau has started a campaign for the removal of the duties on American wheat, so that western Canada may take full advantage of the new Wilson tariff, the passage of which, through Congress is now assured, and in which there is a provision for the free entry of Canadian wheat into the United States, provided the Canadian Government removes its present duty on American wheat.

## BALKAN TROUBLE

Turkey Calling Conscripts To the Colors.

London, Sept. 29.—The Balkan crisis is becoming more acute. It has been aggravated by the apparent determination of the Young Turks' military party to profit by the dissensions among the former allies. Turkey is reported to have again called to the colors the Asia Minor conscripts, while an officer lately returned from Tripoli is said to be leading an uprising against Bulgaria in Thrace.

The efforts to subdue the rebellious Albanians are likely to prove a severe strain on the exhausted army and exchequer of Serbia, and especially if the story of the uprising of Serbo-Macedonians is true. In Vienna the belief prevails that Serbia is merely seeking an excuse to upset the decisions of the Ambassadors' conference by seizing points not included in the territory allotted to her.

In Athens many believe that Greece is on the verge of another war with Turkey.

## METHODIST W. M. S.

Board of Managers Had a Busy Day.

Toronto despatch: There was again a large gathering of interested ladies at the Trinity Methodist Church, Bloor street, yesterday, at the resumed meeting of the board of managers of the Woman's Missionary Society.

The morning sitting was, with the exception of a quiet hour and a short interval of devotion, almost entirely taken up with business, the hearing of reports, notices of motions, and the reports from missionary fields.

In the afternoon at the end of business there came the interesting item of the day, bearing the title of "An Hour With Our Missionaries." This was a series of little talks by Miss Howie, of Japan; Miss Ella MacLean, B.A., of Kolokreka, Alberta, and some candidates who have been accepted for work abroad and who shortly start for the front.

Miss Howie was strikingly enthusiastic about the benefit which accrued from returned missionaries being afforded the opportunity of refreshing their zeal by contact with a large meeting of the present one, whose zeal was evidently so strong. There were times when in the midst of work depression came, and only strong faith could combat it. Miss MacLean said that the call of service was great. For herself, she had been attracted to missionary enterprise when quite a child, through the influence of a mission board. Therefore, she pointed out how important it was that these hands should be very carefully organized, the teaching of the very best.

Indications of how their call was then given by Miss German, who sailed for Japan in a month, and Robinson, who is leaving for Africa. She also spoke, and the one struck was the great strength of the influence and training, that of the home being of paramount importance. The meeting will be continued, and concluded to-day, the sittings being open to the public.

## OUR FERTILE NORTH

Splendid Crops Grown N the Arctic Circle.

Ottawa, Ont., Sept. 29.—Number one hard wheat, grown 800 miles north of Edmonton, prize vegetables raised on the Arctic Circle, and spruce trees six feet in diameter, are some of the wonders of the northern territories, which Mr. Henry A. Conroy, inspector of Indian agencies, saw on a northern inspection tour, from which he has just returned.

Known officially as "treaty number 8," the territory over which Mr. Conroy exercises supervision, is inhabited by about 8,000 Indians. Once a year Inspector Conroy visits the 18 agencies located in treaty eight and distributes to the Indians about \$35,000 in money and several thousand dollars' worth of food, ammunition, fishing nets, and other necessities of continental life.

Mr. Conroy is evidently proud of the achievement of the agency at Fort Simpson. This is 800 miles north of Edmonton. "Our agent there last year, Mr. Card, experimented with three varieties of wheat, the yields from which were taken down to Edmonton and graded number one hard. He grew also 300 bushels of oats, a sample bag of which I took out with me. They weighed 38 pounds to the bushel. Rye and barley were also successfully grown. This year, when I was there, in July, the grain crops and vegetables looked well, although the weather had been dry.

"Fort Good Hope, still further north, within the Arctic Circle, the very best gardens I saw on the whole route are there. In the Upper MacKenzie Valley there is a country as large as Manitoba and every bit of it fit for settlement."

## FOR MONUMENT TO TECUMSEH.

London, Ont., despatch: The suggestion has been advanced here, and will probably be acted upon, that a fund be collected among the citizens for the purpose of erecting a memorial in one of the parks to Tecumseh, the famous Indian warrior. An effort will be made to raise about \$2,000 by private subscription and to augment this sum by a \$1,000 grant from the City of London. The Provincial Government will then be asked to contribute \$2,000, and the Dominion Government will be invited to make the total \$10,000. With this in hand a suitable monument will be purchased and erected probably in Victoria Park.
