BANK OF HAMILTON

Working For
Others

The man who looks into the future and pictures himself the owner of a business, will live to learn that his visions will always be dreams unless his foresight has shown him the need of saving.

Saving is not a habit that should be started, sometime, but one that requires immediate action. As many days as you postpone a bank account, just that many more days will you be working for others.

One dollar will open a savings account with this bank, and the highest rate of current interest will be credited every six months.
