## BANK OF HAMILTON

### Save Your Money

WHAT a man earns is not as important as what he saves. An office boy making \$6 a week, of which amount he saves \$1, is actually earning more than the \$6 a week man who saves nothing. The boy's business is paying a dividend; the man's is a failure.

No matter how small your salary may be, you make a serious mistake when you fail to save part of it. When you get your next week's salary, make up your mind to deposit a certain percentage of it in the bank, where it will draw interest at the highest current rate.

A Direct Appeal

To our many friends and patrons, we wish to express our hearty appreciation of your past favors, and assure you that while we have sold merchandise at ridiculously low prices, this sale will surpass all former efforts. We maintain that our business is perfectly solvent, but immediate pressing demands being such that we are forced to raise a large amount of ready cash in a short space of time explains why we are selling this high grade stock of merchandise regardless of cost or actual value.
