Pan-American Conference is Meeting in Washington.

Washington Report. - The conference between Secretary of State Lansing and six pan-American diplomats, whose co-operation was sought by President Wilson in his plan to restore peace in Mexico, was continued to-day.

No announcement of the conclusion of the series of conferences, begun yesterday, is looked for until a programme has been perfected.

Te conferees decline to discuss the proceedings, as the conferences are declared informal and confidential. Whatever plan of action is agreed upon will be submitted to all of the pan-American nations for approval, although it is understood they already aged 14 and 12 years respectively, have pledged support to concerted act-

tion. It is considered likely that one of factional leaders to accommodate their differences and restore peace. This probably will be sent in a few days, and will be intended especially for the arranza element, which all along has declined to participate in a peace conference.

BADLY SPLIT

National Liberals Divided Over the Chancellor's Stand.

Annexationists Declare Hollweg's Policy Too Weak.

Berlin, via London Cable—A sharp conflict is in progress within the leading circles of the National Liberals. owing to the action of a wing of the party in conducting a private and public campaign of attack against Dr. Theobald von Bethmann-Hollweg, the

Imperial Chancellor. The campaign centres around the supposed attitude of the Chancellor on the question of annexation of territory and the final settlement of the war, his assailants assuming that he is not ready to go to the lengths in this direction which they and their backers consider proper and justified.

Ernst Basserman, the veteran party leader, Herr Hirsch, member from the Essen district, and Dr Gustav Stresemann, a functionary in various industrial and business organizations, who was defeated as a candidate at the general Reichstag elections, but who later obtained a seat at a by-election in Hanover, are the active leaders in the anti-Bethmann-Hollweg cam-

Behind them stand a body of big individuals, who favor most sweeping annexations. The attitude of the oppesing, and apparently stronger faction of the party is laid down in an inspired article in the Leipzig Tageblatt, one of the party organs.

This wing, according to the newspaper, holds that "the public utterances of the Chancellor afford no ground for the assumption that he is lusions, and is not serving the interests of the Empire."

It declares that the attacks upon the Chancellor merely serve to injure his prestige abroad, and hamper him in exactly that vigorous policy which is demanded from him.

A meeting of the executive committee of the party has been called. At is a resolution, expressing complete confidence in the Chancellor probably will

The man was later taken to the Hamat Hospital, where it was said he had been shot in the shoulder, but that his condition was not dangerous. Other reports of looting were that a citizen had shot a man on Tweifth street, Toronto Report.—The municipal but the police declared they had been order to the constabulary and the police was to suppress looting with a stern hand, and that all suspected persons were to be taken to police headquarters without delay."

Three hundred additional workmen were placed on the streets with the coming of dawn, and the piles of demolished buildings were attacked vigorously, under the direction of engineers who have volunteered their services to the city. It was expected that considerable headway would be made before nightfail, as the city authorities planned to add fully 1,000 men to the working force.

Efforts to relieve the distress continue with amazing success. A committee has been formed to care for those in actual want, and more 400 were fed in the rescue station during the night while preparations were made to serve breakfast for many more. The armory housed many of the homeless during the night, while
