Toronto, Feb. 19.-The Ontario government has received a commun tion from the mayor of Battersen London, England, thanking the province of Ontario, on behalf of the inhabitants of Battersea, for the gift of flour to the mother country in which they have participated. He states that the distribution was made after a conject to the poor inhabit'ants, and adds, "I wish those who made the gifts had also been there to witness the pleasure of the recipients. Besides the gift of flour from Ontario and Manitoba, there were gifts of cheese from Quebec, salmon from

Brunswick and mutton from New S. Wales. The mayor concludes that the people were told that the government had conveyed thanks to the donors but they felt they would like to send their thanks direct, and he adds, "I undertook to convey these thanks .-Our feelings can be better imagined than described, but I think you will know exactly what it is we wish to

New Use for Old Gloves

A use has been found for old gloves, other than making them into useless ous of applying to have such By-Law bootees for the baby. It would apor any part thereof quashed, must pear as if the war has caused everyone to excerise all the ingenuity they pose to the High Court of Justice with they posses to make useful gifts for in three months next after the First the boys at the front. The laestt idea publication of this notice in the news has recently come from England in paper called the Jarvis Record or he an appeal from the Ladies' Territortial for cast-off leather gloves of all kinds of make undercoats for the sailors and soldiers in exposed situation. It is statedt hat four or live pairs mack one coat. Also that kid as well as leather gloves are useful for the purpose. The Territorials have already given an excellent account of themselves, but it is said that it is. difficult to provide the recruit with such comforts as they will need during the winter, especially if they are summoned to active service. Canadian women, and men too, can supply material to make these leather vests or undercoats without interfering with the work of any patriotic society. While in England they have facilities for using scraps of leather as can be saved from old gloves, we do not know how to do so here.

Some Letter

A letter from a man in Canada name dWnilliams was sent to his father in Wallarey last spring. That letter was on board the Empress of Ireland when she went down. It was recently discovered by divers and sen back to the writer, who has forwarded it safely to Wallasey. The letter is a family onen, but curiously enough it mentions the sinking of the Benjamin Noble on Lake Superior and also alludes to another shipwreen. The writer adds rather dryly, "the Canedain nlakes are not quite loke the one in Central Park, Liscard." The letter it should be stated, is in a remarkable good state of preservation, and bears

Home Training

The foundations of character are laid in the home. There is something of a truism in these words. But what is a truism? It is I think. an oft-repeated truth which we have never taken the trouble to understand.-Consider for a moment the greatness of the fact that the character of a human being depends on his home training. Never mind if others affect it too. They do, of course, to a certain extent, but the fact is the home training is considerably the most important of the influences, and indeed I often think after long experience of boys, that it is so much the most important and powerful of the influences that movid character, that the rest may be disregarded.

BRING IN THE NEWS

De you appreciate your Record-? Would you like to see more news in your paper? Would you prefer more detail in the news that is published? If so, there is a way in which you, as a reader of this paper, can help to make it more to your liking. It takes a lot of running around, much time and some inconvenience for a newspaper to gather small news items such as personals, notices of small meetings social gatherings, afternoon teas,--slight mishaps, etc. It is the business of a reproter to do this, of course. but even when he does his best there are always a few items left over because he is not in touch with those concerned or does not hear of them until it is too late. Now the way in which you can help The Record is to call us up, drop us a line, drop in and tell us, or often you might conveniently write it out and mail it to us. Anyway let us have an intimation of anything of news value just as soon as you become acquainted with it. We will appreciate it and you will be making your paper that much better. Try it. Thenks.
