Hydro Electric Railway Opened

The official opening of the first Hydro Electric Railway took place on Thursday, July 22, when about 600 delegates representing Hydro municipalities all over Western Ontario took part in a trip from London to Port Stanley.

The County of Haldimand was represented by Dr. Jacques, M. P. P. The township of Walpole by S. A. Thompson and James Vokes, and the South Walpole Hydro Union by A. E. Hoover, and most of the other municipalities in the county were represented.

During the forenoon nearly every train into the city brought representatives which were met by members of a reception committee composed of the Mayor of London and other civic representatives. All the visitors registered at the Tecumseh House, as they arrived.

Three trains composed of some half dozen coaches conveyed the party to Port Stanley, making the trip in about one hour. At the lake side the visitors were amused in sight seeing, consisting of baseball, loop the loop, merry go round, and other amusements. The 7th Regt. Band accompanied them on the round trip.

The visitors left Port Stanley about 4 p.m. On arriving in London, all the delegates formed up in the depot and paraded to the Masonic Temple, marching in double file and headed by the 7th Regt. Band and a fleet of autos.

The banquet, which was held in the basement of the Masonic Temple, was presided over by Mr. Potock, President of the Hydro-Rail Association. About 600 were present.

Abie and eloquent addresses were given by Sir Adam Beck, Hon. I. B. Lucas, Mayor J. C. Tolmie, M. P. of Windsor, Mayor Church of Toronto, J. W. Lyons, of Guelph, and others.

All the speakers were optimistic in their views and that Hydro Electric railways are an assured fact, but the people must have patience until this terrible war is over, then the country would settle down to business and the Hydro Electric railways would become a real boost.

The delegates from Walpole on the trip to London via Caledonia, Brantford and Woodstock and return by way of St. Thomas, took particular notice of the crops and no where did they see such crops as those in Walpole, especially along the southern part. The only drawback to that part of the township is the lack of railway facilities, but we are pleased to learn that the engineers have started the survey and estimates from the town of Dunnville and are proceeding west along the southern part of Rainham and Walpole.

It is to be hoped that the people living in those districts which have been so long deprived of railway facilities will stand shoulder to shoulder and do all in their power to encourage and assist in securing a long felt want—Com.

Mrs. Beattie Lost On the Lusitania

The many friends of Mrs. (Rev.) J. A. Beattie, of Winnipeg, will learn with deep regret of her death on the ill-fated Lusitania. Mrs. Beattie and son, Allan, were en route to her husband, who has been serving as a chaplain in the army since last September.

Allan three times gave up his life belt and was tying one on his mother when the boat gave a lurch drifting them apart forever. Being able to swim, Allan kept himself afloat until rescued, though in the meantime he just escaped death from a cable.

Mrs. Beattie (nee Geneva Martin) spent her early life on the old homestead, one mile west of Rockford. She also lived in Port Dover before going West.

Mrs. Beattie will be remembered by her many friends in Ontario and Manitoba as a young lady of particularly fine character, as an affectionate mother, a noble and womanly woman who had made the Manor an ideal minister's home.

During her husband's absence she had been engaged in almost every branch of patriotic work and she was looking forward to assisting Mr. Beattie in caring for the wounded on the battle field.

Mrs. Beattie's aged mother and family have the deep felt sympathy of her friends and acquaintances of Rockford, Villa Nova and surrounding districts.—Waterford Star.

Mrs. Beattie was a sister of Mrs. John Irwin, of Saskatoon, formerly of Jarvis—Ed.

Sir James Murray, editor of the Oxford English Dictionary, is dead.

Four Turkish vessels were sunk in the sea of Marmara by a British submarine.

The employees of the Standard Oil Company at Bygonne, N. J., refused to accept the company's terms of settlement.

The United States Steamer Leelanaw was sunk by a German submarine off the Orkney Islands. She was laden with flax.

Mr. Ward Jennings, of Hagersville, a nephew of Mrs. Andrew Rodgers, has joined the Mounted Signal Battalion and left for Niagara today.

Poison the Army Worms

Poison Bran Mixture for Grasshoppers, Army Worms, Cut Worms.

Bran, 20 lbs; Paris Green, 1 lb; Molasses, 1/2 gal; Lemons, 3 fruits.

Water 2 to 2 1/2 gals.

Mix thoroughly the bran and Paris green in any large receptacle.

At night before using. In the morning squeeze the juice of the lemons into the water, run pulp and seed through a meat chopper, add this and also the molasses to the water. Stir well.

Pour the liquid a little at a time upon the poisoned bran, and mix thoroughly that every part is moist and will fall like sawdust through the fingers. Apply in the morning between 5 and 7 o'clock, by scattering thinly over the infested field, fence corners and road sides, or wherever they are abundant. The above amount will cover 4 or 5 acres. Sometimes a second application 3 or 4 days later is necessary. Use as soon as pest is abundant. Do not look for results for 2 or 3 days. Scattered as outlined above there is no danger of poisoning poultry or cattle. The mixture is much more readily eaten if mixed and applied while fresh.

For cut worms apply in the evening spreading a little more thickly than the above, or putting a little armyworm plants likely to be attacked.

For further particulars apply to
