TRUE TO HIS RACE

CHAPTER XXXV.
Meanwhile Lord Wellrose went down to the drawing room to welcome his parents. But he had to wait a few moments for the duke and duchess, who had gone to their dressing rooms to change their travelling suits. At length they both entered together. And after an affectionate greeting, they sat down, and the duchess said: "Your letter surprised us very much, Wellrose."

"We set off at once, to know what was the matter," added the duke. "Heavens, Wellrose! how your face changes! What can have happened?" "Out with your bad news at once! It will not improve by keeping," said the duke, uneasily. "There is no bad news, father, although there is something to tell that will startle you very much."

"First, let me offer my mother a glass of wine and a biscuit," said the duke. And he rang and gave the order. After the refreshments had been brought and tasted, the duchess said: "For mercy's sake, my son, do not keep us longer in suspense." "Do not," added the duke. "Then read this document, my father, and see if you recognize this little relic," my mother said, as he drew a small parcel from his bosom, and placed Dr. Seton's confession in the duke's hand, and the little embroidered sock on the duchess' lap.

The duke unfolded the paper and began to read. The duchess picked up the little sock, looked at it, and with a half-suppressed cry, turned her eyes on Wellrose. Her color came and went; she trembled much; she could scarcely articulate the question: "Where did you find it?" "Folded in the document that my father is reading," replied the duke. "She rose, pale and trembling, and stood behind the duke's sofa, and leaned over his shoulder to look at the document. His face was as pale as hers. His eyes seemed starting from their sockets, as they followed the lines of that written confession. But, conscious of his wife's approach, without taking his eyes from the paper, he put out his hand and drew her to a seat by his side, wound his arm protectively around her, and let her read as she did. Their faces paled and paled as they read. Sometimes her head dropped upon his shoulder, and a great heaving sob convulsed her bosom. And then his arm closed tight around her; his eyes never left following the lines of that paper until he had read it to its close. Then he turned toward his wife, and their eyes met in grief and horror.

"Dear mother, be comforted. Your son, my brother, lives."

"Lives!" echoed the parents, in a breath. "Yes, lives! Be assured of it, for I know it."

"Lives!" said the duke again. "Ay, but his life may be worse than death."

"Not so," said the earl, hastily. "He has won honor in the service of his country. He was foremost in the glorious charge at Inkerman. His hand placed his regimental colors on the walls of Sebastopol. And though he has returned wounded and ill, he will yet do well."

was certainly legal in the last-mentioned country, though not in the first. The son of that first marriage would certainly be the lawful heir of all his father's and his mother's estates in Scotland."

"But not in England," continued the duke. "And, although he is even now master of Seton, and will be, after his mother, Baron of Linlithgow, he cannot possibly become, after me, the Duke of Cheviot. This title, with all its appendages, in England, will be the inheritance of yourself, Wellrose, as the sole son of the second marriage, which was legal everywhere," said the duke.

"And yet, father, in strict justice, if not in law, my elder brother should have been heir to all."

"In strict justice, yes," admitted the duke. "Then, I repeat, my brother shall have strict justice. It can be managed. A petition to the House of Lords would surely get a decree constituting that first marriage legal in England, and it is in Scotland, and making my elder brother the heir to all your titles and estates in both countries. Such decrees, under such justifiable circumstances, have been granted heretofore, and will be hereafter," urged the earl.

"I am, of course, aware of that, Wellrose. But you, my son—you who have been brought up to consider yourself the heir?" said the duke with tears in his eyes. "I repeat that I must not be thought of in this matter. I have heard your brother's birthright long enough; I must hold it no longer. Besides, I can make it my own place in the world, dear father."

"Heaven bless you, my boy; you have a noble heart," said the duke. "Kinlock is here, father. Would you like to see him?" "Yes, I should. I should like to hear from his own lips further details of this discovery."

"Then I will send him here to talk with you while I go up to my brother's room and break the news to him."

"Catarrhzone" Prevents Bad Colds Strengthens Weak Irritable Throats

zone goes right to the spot—acts quickly, cures thoroughly catarrh, bronchitis and all throat affections.

"Nothing could kill a cold so fast as Catarrhzone," writes Amey E. Snelling, from St. Johns. "Last month I had a frightful cold in my head, suffered from itching nose, running eyes and torturing headache. Ten minutes with 'Catarrhzone' inhaler gave relief and in one hour I was well of my cold. Catarrhzone I consider a marvel."

Employ Nature's Own Methods and is Invariably Successful.

But, alas! many colds run into Catarrh. Neglected Catarrh is the straight gateway to consumption. Catarrhzone is a germ-killer—destroys microbes that cause Catarrh. It heals and soothes, relieves the cough, gives throat and lungs a chance, cleans the nostrils, clears out the phlegm.

You feel better in an hour. In a day you're greatly relieved, and on goes the curing of Catarrhzone till you're well. That if he should need assistance in the duty he would ring for Mrs. Bruce.

As Lord Wellrose went out he beckoned Dr. Kinlock to follow him into the hall, and then inquired: "What shall I say to my mother? She expects to see him this afternoon."

"Tel her grace that he has had as much excitement as he can bear for one day. He must rest quietly until tomorrow morning, when, if he should be better, it will be safe for her to see him."

DEVILED SHIRTS.

When Dumas Really Thought He Had Started a New Fashion.

Alexandre Dumas, the famous French romancer, was as recklessly extravagant as he was abnormally stout, and more than once found himself in awkward straits. Indeed, he was often anxious without the commonest necessities, even of dress, as when anxious to attend an ambassador's reception he discovered he was without a single clean shirt among his linen. A friend, who chanced to be with him at the time, volunteered to order the shops had in stock a garment sufficiently large to encircle the novelist's generous girth of neck and chest, and he entered. But, alas, they had nothing approaching the size required, unless, indeed, their customer would care to take on a made-up gown of a very corpulent Quaker Latin student, by whom it had been left on their hands. Although covered with little red devils excreting about in red flames, it was a case of Habson's choice, so the shirt was purchased and taken home to Dumas, who, doubtless entering into the humor of the situation, resolved to wear it at the reception.

"You would hardly believe it," he said afterward, "but my costume was an immense success, and I really think I have started the fashion of deviled shirts for evening wear."—London Tit-Bits.

EVER FEEL "DOPY" AFTER MEALS?

At times we all feel dull and heavy. Just one thing to do—relax the bowels and cleanse the system with Dr. Hamilton's Pills. Unclean matter is flushed out, the liver is toned, blood is purified, and at once you feel better. Good health and jovial spirits are quickly found in this celebrated medicine. Numerous benefits follow the use of Dr. Hamilton's PILLS in every case; they are very mild, very prompt and guaranteed by the makers. Insist on getting Dr. Hamilton's PILLS, 25 cents per box everywhere.

GIANT GUNS WEAK POINTS

"Shells can play more odd tricks on a battlefield than the fires of heaven ever did during a storm. After the French three-inch rapid-firing gun, the most interesting as well as probably the most discussed weapon used by civilized men to know into kingdom come, their equally civilized brothers, is the 420-millimeter (about 17 inches) mortar used by the Germans and built by Krupp—in the utmost secrecy. It was said, and it has since been verified at Maubeuge, that the concrete foundations from which these mortars can only be fired had been prepared for years by representatives of the German military authorities in various spots near the fortified cities of Belgium and France. Such representatives were generally welcomed into those countries as managers, or proprietors of various factories.

HOW TO CURE RHEUMATISM

The Disease is Always Rooted in the Blood, Which Must Be Made Rich and Pure.

There are still many people who imagine that rheumatism can be cured by liniments and rubbing, overlooking the medical fact that rheumatism is rooted in the blood. Rheumatism can only be cured by cleansing and enriching the blood, thus driving out of the system the poisonous acids which cause the rheumatic pains. Dr. Williams' Pink Pills cure the most obstinate cases of rheumatism because they go straight to the root of the trouble in the blood. Every dose helps to make rich, red blood, and this new blood expels the poisonous acids bringing health and comfort to the tortured victim. Do not waste time and money in liniments and outward applications. Give Dr. Williams' Pink Pills a fair trial and thus drive the disease out of your system. Here is proof of what Dr. Williams' Pink Pills can do in cases of this kind. Mr. Richard Palmer, Wroter, Ont., says: "For months my life was made miserable through a combined attack of rheumatism and sciatica. The rheumatism seemed to settle in all my joints and the sciatica pains were so great that I could scarcely hobble about. I am a farmer and so you can understand that in my condition I was unable to do my ordinary work. Neither doctors nor various remedies I took did me any good. Finally I was induced to try Dr. Williams' Pink Pills, and for this I have much to be thankful for, as after taking a few boxes the pains began to disappear, and by the time I had taken nine boxes, every twinge of both the rheumatism and the sciatica had disappeared and I was able to go to work again as usual, and have not lost a day through illness since. I am thoroughly grateful for what Dr. Williams' Pink Pills have done for me and hope my experience will benefit some other sufferer."

ENCOURAGING.

Young Man—So Miss Ethel is your eldest sister. Who comes after her? Small Brother—Nobody ain't come yet. But the first fellow that comes can have her.

Lord Wellrose had great presence of mind. He laid the faltering form flat

ACHING BONES AND SORE JOINTS CURED! ALL RHEUMATIC TENDENCIES DESTROYED!

Away Go the Crutches, Every Sufferer Made Well Quickly.

Old age is usually afflicted with rheumatism. Very few past fifty escape its tortures. Many it bends and deforms. Upon the countenance of others it marks the ruin out of throbbing muscles and swollen joints. It twists bearded knuckles. It does this quickly and surely. Nervilne is not used internally. You just rub it on—acts of hard rubbing is required for a minute or two, and then you feel Nervilne penetrat-

ing through the tissues, you feel it drawing out the congestion, feel it sink in deeper and deeper till at last it touches the core of the joint or the heart of the muscle affected.

You won't stay in pain with Nervilne—no one ever does. Just try it—you will be amazed at its magical power over pain, a power it gets from the extracts and juices of certain rare herbs and roots it contains. It's harmless—any child can use Nervilne, can rub it on for a sore throat for a cold, or stiff neck, or earache. No family remedy half so useful.

The large 50 cent bottle is the most economical; trial size 25 cents. All dealers, or the Catarrhzone Co., Kingston.

Lord Wellrose had great presence of mind. He laid the faltering form flat
