#### TWO DROWNED

Port Hope Canceists Met Watery

Port Hope Despatch-The cance has made an early start on its 1915 levy of death tolls, and this afternoon two young men of this town found watery graves in Lake Ontario. They were Raiph Wilson, son of F. W. Wilson, proprietor of the Guide, and Horace Smith, son of Town Councilor George A. Smith. Wilson was 18 years of age and Smith a little younger. The boys left town about 4 o'clock heading out from land, and a short time later a stiff breese sprang up and the lake was lashed into a fairly rough sea Friends became alarmed and Capt, McMann and the lifeboat crew, as well as the lifeboat crew from Cobourg, were called out to search for the young men, but no trace was found of them, and it is believed that

Fought On Flank in Victory at Neuve Chapelle.

Gen. Alderson Speaks Highly of His Command

London Cable.—Information has been received here to the effect that one battalion of Canadian infantry assisted in the capture of Neuve Chapelle, fighting, with great bravery on one flank of the advancing troops.

The fourth battalion, including the 36th Peel Regiment of Toronto, has been under exceptionally heavy shell fire, but has escaped lightly. Up to two days ago not a man had been killed, and only a few had been wounded. There is very little sickness among the Canadian troops.

#### CALAIS RAID

Germans Are, Preparing for Another Dash to the Channel

Parks Cable.—The victory won by the British troops north of La Basse, where they captured the village of Neuve Chapelle yesterday appears from additional details of affairs received to-day to have been the great est single advance which the British have made since the fighting entered upon its present stage.

Chapelle itself, the British offensive resulted in the occupation of German trenches over a front of 2,500 metres, the attack reaching its furthest point one and a quarter miles beyond the village. Thus the British troops advanced nearly two miles on a line about that distance wide.

To-day the British are holding their gains, despite a number of German counter-attacks.

It is believed that the improvement in the British position brought about by the victory is of great importance and, if pressed further, might compel the Germans to evacuate La Basse and perhaps other points which make their line so strong at present. Equally important was the success achieved by British airmen in destroying the railway junctions at Menin and Courtral. These are on one of the German main lines of communication, and there destruction will delay the arrival of new contingents troops, which are reported to again concentrating in Belgium another attempt to break through to Calais and Boulogne. According to Dutch reports, these troops brought with them a large number of boats for the passage of the canals and rivers, and for the first time in months they include cavalry units. There has been some fighting in Champagne, but on the whole French seem to be satisfied for the present with the progress they have made in that region.

GERMANY USING ELEPHANTS... ing to establish a committee for the relief of distress in Poland, said today that 17,000,000 Poles are now suffering from the horrors of war. Official statistics show, according Paderewski, that 120 towns and 400 villages in Poland have been destroyed, and the losses of the residents and these places are estimated at \$1,-200,000,000. Ten millions of people. he says are without food or shelter. The committee at Lausanne is already distributing assistance, including \$60-000 received from American Poles. PRINCE OF WALES "FEARLESS."

The Figaro quotes a letter from an artilleryman in France, which says: "We had a visit from the Prince of Wales right on the firing line. He goes everywhere, fearing nothing. The troops admire his courage immensely."

#### WON'T INTERN

Eitel Friedrich's Captain Would Continue Cruise.

Newbort News, Va., Despatch-Commander Thierichens, of the German Auxiliary cruiser Prinz Eitel Friedrich, agreed late to-day to deliver in writing to the American Government, through the collector of the port here, his explanation and reasome for sinking in the South Atlantic Ocean the American sailing ship Wm. P. Frve. He also agreed, after Collector of Customs Hamilton had boarded the Prinz Eitel and submitted neutrality requirements of the Washington Government, to communicate an estimate of the time required to repair his ship, at the same time stating that it was his desire not to intern his vessel, but to proparty of new arrivals from Canada to- ceed as soon as repairs made her eesworthy.

To the request of the Washington Government that he land here the craws of captured and sunken vessels end such passengers as could comply with immigration regulations, the German commander gave assent. The acity. crew of the American ship Frye was landed late in the afternoon, and arrangements were made for taking off later to-night the crews of British, French and Russian ships sunk in the south sea. The Eitel Friedrich herself steamed into Newport News shipbuilding yard and went into dry dock, where experts began an exami-

## FATAL FIRE

Blaze in Montreal Court House Caused One Death.

Montreal Despatch-Fire Seriously damaged the Court House here, and was responsible for the death of Patrick Gleason, a messenger, this afternoon. A number of firemen were overcome by smoke. The fire began in one of the rooms where a quantity of paper was stored, and spread rapidly. Judges who occupied rooms on the floor attacked made hurried escapes with what papers they could collect. city was called out to cope with the blaze, Gleason was found unconscious in one of the corridors, and after partially reviving, died later in the Notre Dame Hospital as a result of shock. Huge quantities of water were thrown into the floor beneath and upon those above. The great copper roof, which cost \$500,000 when the Court House was erected, some fourteen years ago, was threatened, and several streams of water were kept com-

stantly playing upon it. Sheriff Lemieux late this afternoon estimated the loss at about \$350,000.
