### DAYLIGHT SAVING WOULD HELP

A prominent bank official of western Canada, who is taking a keen interest in the utilization of vacant lots for use growing of garden crops, has this to say—

"It seems to me that the daylight saving scheme would be one of the greatest factors in helping on the modern garden movement. It would give everyone from Halifax to Vancouver an hour more time to work in the garden in daylight than they would otherwise have and it would be a great thing for the health of the nation to have an extra hour for outdoor recreation, and last, but by no means least, there would be a wonderful saving of light, electricity, gas and oil. The one hour extra daylight would mean that by the time darkness came it would be pretty nearly bedtime, going by ordinary rules."

### WOULD HANG CREW AND KAISER

German Professor of Woodstock speaks His Mind.

London, Ont., May 10.—Prof. F. C. Reithdorf, of Woodstock College, a native of Germany, and a former officer in the German army, in an address here Sunday, declared that the crew of the German submarine which sank the Lusitania should be treated as murderers and hanged if they ever fall into the hands of the British, and that the Kaiser and others responsible for the order should receive a similar fate.

The city of Detroit has decided for more daylight, and the hands of the clock are to be changed.

The German battle front has been smashed in the Arras region by Gen. Joffre in the first triumph of the new spring campaign.

### FOR SALE

A young sire 8 months' old of our Tensen blood, and he is a grandson of Evergreen March, the Canadian cow whose year production of 26,107 lbs. milk, and 1128 lbs butter has been ahead for four years in Canada and still leads yet. I have just tested the sire heifer I raised from Evergreen's Tank and she has in seven days produced as a junior 2-year-old 16.18 lbs. butter, and the last three days of the test averaged over 40 lbs. milk per day. This young sire is a show calf as well as from producing stock and will certainly prove a profitable investment. For more information apply to—
